**Statement on Archival Language:**

The David Allan Hubbard Library aims to describe archival materials in a way that is respectful to all communities who use, create, and are represented in our collections. However, the nature of historical materials is such that some material may represent positions, language, values, and

stereotypes that are not consistent with the current values and practices at Fuller Theological Seminary.

Within our finding aids, it is possible users may encounter language that is offensive or harmful. While some language included in finding aids was written by staff, other language originates from the people and organizations that created the material. For example, folder titles are often preserved from the creators. It is standard practice not to change them and, in some cases, it provides important context about the materials. When we find problematic language created by archivists and staff we strive to update it. When we find problematic language from the original creator we will transcribe as is to preserve the context of its creation.

## **Biographical History**

Bradley Parks was the man Southern California Presbyterian and Episcopalian Charismatics entrusted with the taping of many of their conferences from 1972 to 1998. The Presbyterian Charismatic Communion (PCC) was the first to enlist his services. Brad Parks taped the joint conferences held by the PCC and the Episcopal Charismatic Fellowship (ECF) with the help of his wife, Ruth Olive Witcraft Parks, from 1981 until the last such conference in 1993. They also taped the annual conferences of the ECF held at Chapman College in Orange from 1983 to 1994 and the Glendale Healing Conferences, as well as various Healing and Spiritual Warfare Conferences held in the area. They maintained an extensive library of other charismatic tapes, which Brad reproduced for church and association members, missionaries and prison inmates.

Brad Parks and his wife Ruth were enthusiastic supporters and generous benefactors for the PCC and its ministries and the U.S. Center for World Mission. Brad volunteered his taping expertise and his professional abilities as an accountant to both organizations. Some accounting records have been preserved in the papers of the collection.

## **Scope and Content**

The Bradley Park collection consists of over 4,000 audio tapes dating from 1949 to 2004 and 5 linear feet of papers related to the conferences taped from 1972 to 1998 and related to the general cassette tape ministries of this era.

The audio tape collection is especially rich in Robert Whitaker recordings, most taped locally by Brad Parks, and in Derek Prince tapes purchased from that ministry. Other major tape collections are Delores Winder, John Wimber, Terry Fullam and John and Paula Sandford. The papers document the history of charismatic conferences in Southern California from 1972 to 1998.
