Statement on Archival Language:

The David Allan Hubbard Library aims to describe archival materials in a way that is respectful to all communities who use, create, and are represented in our collections. However, the nature of historical materials is such that some material may represent positions, language, values, and stereotypes that are not consistent with the current values and practices at Fuller Theological Seminary.

Within our finding aids, it is possible users may encounter language that is offensive or harmful. While some language included in finding aids was written by staff, other language originates from the people and organizations that created the material. For example, folder titles are often preserved from the creators. It is standard practice not to change them and, in some cases, it provides important context about the materials. When we find problematic language created by archivists and staff we strive to update it. When we find problematic language from the original creator we will transcribe as is to preserve the context of its creation.

Cataloger's Note

Some time after the initial 2001 donation, a group of tracts and letters were added to the collection. In 2023, the cataloger sorted tracts into new and existing file folders. The collection was also re-sorted alphabetically according to author or editor's names. The majority of the additions were placed at the end of the collection.

Scope and Content

This is a small collection of newsletters and tracts Ewart received from Christian ministries. The collection also contains Ewart's personal notes, most notably the recounting of a vision and healing in 1975.
