

This document represents a preliminary list of the contents of the boxes of this collection. The preliminary list was created for the most part by listing the creators' folder headings. At this time researchers should be aware that we cannot verify exact contents of this collection, but provide this information to assist your research.

UC Davis Special Collections

D-342 AgRISTARS/LACIE. Collection.

AgRISTARS	Agriculture and Resources Inventory Surveys Through Aerospace Remote Sensing
LACIE	Large Area Crop Inventory Experiment

BRIEF CONTENT NOTE

BOX 1 contains books and other printed reference and research materials relevant to the collection. These items were received from the Map and Imaging Laboratory, Davidson Library, University of California, Santa Barbara, donor of the collection, both prior to and after receipt of the initial set of boxed packets. They include background reports and lists of documentation.

BOXES 2-9 contain video tapes about crops, remote sensing, and other related topics.

BOXES 10-425 contain packets arranged alphabetically by country, then numerically. Any unnumbered packets and/or materials relevant to a specific country are located at the end of that country. Argentina, Australia, Brazil, Canada, China, India, U.S.S.R., and the United States are the countries surveyed in this collection. Please refer to earlier lists for a specific area, such as a county, province, or state, within in a country.

PLEASE NOTE: The entire collection was re-boxed after receipt. Any earlier lists of box numbers for specific packet locations are superseded by this box container list.
