Administrative Information

The Huntington Library received the Edmund D. Edelman Papers from the Los Angeles County Board of Supervisors and Supervisor Edmund D. Edelman in several batches between late 1994 and mid 1995. In total, 466 cartons, 36 oversized rolled maps, and 42 oversized sheets of plans were transferred. The collection was accessioned in April of 1997 and is acquisition #1921.

Some files are restricted due to the presence of social security numbers or personal information. Such folders are marked "Confidential" in the Notes field of Edelman Papers database.

Biographical Note

Edmund D. Edelman

b. 1930, Los Angeles, California

After receiving his L.L.B. from the University of California, Los Angeles in 1958, Edmund D. Edelman worked for three years as an attorney: first as Deputy Legislative Counsel, California State Legislature, 1961-1962; then as Counsel for Special Subcommittee on Labor, U.S. House of Representatives, 1962-1963; and finally as Special Assistant to General Counsel, National Labor Relations Board, 1963-1964. He returned to Los Angeles in 1964 and as a Democrat, launched his first election campaign for the Los Angeles City Council. Running as a reform candidate against Rosalind Wyman, Edelman was elected to the Fifth District, City Councilman's seat in 1965. His father died shortly before the election.

Edelman won re-elections to the City Council in 1969 and again in 1973. While a Councilman, his central areas of work were: reforming the City Charter, and examining ways to streamline local government. During this time he also was married to Mari Mayer and became the father of two daughters.

In early 1974, Edelman launched his bid for a place on the County Board of Supervisors. His campaign for retiring Third District Supervisor Ernest Debbs' seat against fellow Democrat and Councilman John Ferraro was somewhat acrimonious. Edelman presented himself as a qualified and experienced leader who would bring a new voice to local government, and painted Ferraro as part of the stale and old political machine. Edelman won the election, and was sworn onto the Board of Supervisors in December of 1974. He retired from office twenty years later, in December of 1994.

As the Third District Supervisor for 20 years, Edelman was sometimes part of the liberal minority on the Board, and other times part of the liberal majority. He was known as a skillful mediator who helped resolve a number of union disputes, as well as some high profile land development controversies such as Topanga Canyon and the Santa Monica Mountains. Throughout his career, he focused on Health and Social Welfare Issues, Children, Court Reform, Labor and Human Relations, Transportation, the Environment, and Culture and Recreation (in particular, Pan Pacific Park). He established numerous departments and commissions, but is probably best known for creating the Department of Children's Services and later, the Children's Court. Both were the first such agencies in the nation.

For most of his career, an effort to make government more effective and efficient informed Edelman's work. In order to examine and find ways to provide better services to the County's citizens, Edelman convened some important hearings. Among these were hearings on the Homeless and on Violent Crime. Significant new policies and programs were drafted following these hearings, including the creation of the Community Youth Gang Services Project. In the area of law enforcement, Edelman was concerned about the use of excessive force by officers. His work in this area led to the appointment of Judge James G. Kolts as special counsel, charged with examining the Sheriff's department. The resulting Kolts Report made numerous recommendations, which led to major reforms in Sheriff's operations. In other areas of

government reform, Edelman played a key role in efforts to expand the Board of Supervisors and to establish an elected County Mayor.

In striving to serve his constituency, Edelman nurtured working relationships with the constituents in his district as well as with local government agencies and community organizations. His staff was instrumental in assisting him with maintaining these relationships. Many of Edelman's staff worked for him for over a decade. In particular, his Chief Deputy, Robert Geoghegan was with him from the time Edelman was a Councilman until Edelman retired. Deputy Frankye Schneider worked for Edelman for the 20 years he served as Supervisor.

For most of Edelman's career on the Board, the boundaries of the Third District did not change very much. Redistricting in the early 1990s, however, drastically altered the shape of the district Edelman was representing, and by 1994, he had decided not to run for re-election.

Outside of his duties as an elected official, Edelman avidly played tennis and the cello. Active in the Democratic Party, he was particularly involved earlier in his career. He also taught at the Whittier College School of Law and UCLA's Institute of Industrial Relations. After retiring from elected office, Edelman joined the Rand Corporation, as a domestic policy fellow, and Action Dispute Resolution Services, as a neutral arbitrator and mediator.

Note on Original Order

Approximately 112 of the total 466 cartons of the collection were transferred directly from Supervisor Edelman's office at the time he retired. They are the only cartons received by the Huntington that were an obvious coherent group with consistent original order. As Edelman's staff needed cabinet space, the other 354 cartons had been sent to storage in the basement of the Kenneth Hahn Hall of Administration. Those 354 cartons did not necessarily reflect any order—they were accretions of what had been weeded out and sent away for storage, and included about 20 cartons of material from Edelman's time as a City Councilman.

During processing, a listing of "Subject Classifications" was found that provided a snap shot of how Supervisor Edelman's staff was grouping and filing material from about 1985 to 1990. The listing detailed what was to be filed in which cabinet, and which drawer, of the main office files. The list does not appear to have been created at one time, but seems to have been listed at various times over about 5 years (it can be found in Box 2).

The 112 cartons that came directly from the functioning Supervisorial office almost exactly mirrored the "Subject Classifications" list and filing system. This filing structure was based on a combination of Los Angeles County governmental structure headings and topical/subject headings. For example, the heading "Transportation" represented a topic, but "Children's Services Department" and "Commissions" represented governmental structure. Topical material related to a department's function was usually filed under that departmental heading, even if it did not directly document activity of that particular department.

The office filing structure was sometimes interpreted differently by individual staff members over time. For example, material created by a commission that was topically related to a particular department might be filed under the department heading; later, material might be filed separately under the commission's own heading. Issues that may have had their own independent topical headings while they were receiving significant staff attention, might have earlier, or later, been filed as part of a different heading. Or issues that were handled by multiple agencies might have related materials filed throughout the principal departments and commissions. This is particularly true for commissions, task forces, advisory councils, and boards where their material can be found both under related departments and under their own headings within Commissions. It is also true for material relating to AIDS and Homelessness.

Every effort was made to arrange the Supervisorial material following the blue print of the "subject classification list."

Scope and Content Note

Correspondence, memos, reports, clippings, resolutions, notes, legal documents, maps and plans, ordinances, and photographs document the thirty-year, local government career of Edmund D. Edelman (1953-1994, bulk 1974-1994). The material is arranged into two main record groups representing the two elected offices in which Edelman served: 1) Third District Supervisor, Los Angeles County Board of Supervisors, (1961-1994, bulk 1975-1994); and 2) Fifth District Councilman, City of Los Angeles, City Council (1953-1974, bulk 1965-1974).

The majority of the collection documents the work of Edelman and his staff as he served as the Third District Supervisor from 1974 to 1994. This record group is by far the larger of the two main record groups in the Edelman Papers (95% of the collection), and is arranged into two series: Office Files and Staff Files. In both the Office Files and the Staff Files, handwritten notes by Edelman appear on incoming correspondence and on staff generated memos, but most of the material was handled by the Supervisor's staff and almost all outgoing correspondence with Edelman's signature includes the initials of a staff member who drafted the letter. Not only does the record group document Edelman's supervisorial career, then, but it also highlights Edelman's staff's effort to keep the Supervisor informed and advised, to assist him in achieving his goals as supervisor, and the materials available to them as they made their recommendations. Furthermore, the Third District Supervisor record group also documents numerous County departments and commissions, providing insight into their activities and functions as Edelman's office worked with and for them. The materials in this group therefore highlight the individual supervisor's work, his staff's support, and Los Angeles County government in general.

The Office Files in the Supervisor record group (1961-1994, bulk 1975-1994) are the heart of the Edelman Papers. More than two thirds of the collection, the Office Files are arranged following an alphabetic filing structure used by Edelman's office. The filing structure is based on County department and topical heading, and within each department/topical heading (sub-series), the material is arranged in this basic original order: Chronological files, Personnel, Budget, Programs/Projects/Issues. Chronological material is arranged in reverse date order (recent to earliest). For almost all sub-series, the Programs/Projects/Issues files are arranged following the original grouping and order; these are usually not alphabetical.

The material in the Office Files provides insight into Edelman's work for and with numerous departments and commissions, as well as the agencies' activities and functions. Most of the material is correspondence, memos, reports, and clippings, which highlight agencies' administration and programs, Edelman's coordinating efforts amongst organizations and departments, and the Supervisor's approach to a number of important issues. Particularly well documented agencies and issues include the Health Services Department, the Mental Health Department, the Public Works Department, Transportation, Housing, the Regional Planning Commission, and the Music and Performing Arts Commission. Correspondence with constituents appears throughout, but the Office Files also include alphabetically arranged annual correspondence for the last few years Edelman was on the Board (1992-1994).

Most of the documents in the Office Files were coded by Edelman's office staff as to where they should be filed, either with filing terms written on them, or with the terms typed on them.

Sometimes the documents were simply stamped with the word “File.” For many of the departments and headings in the Office Files, there are folders of material that were coded, but not filed. These “To File” folders of documents were sent to the Board of Supervisor’s basement storage before being distributed to appropriate files within a department’s folders. These have been grouped with the assigned department in the Office Files, but have been left as “To File” material.

In addition to the Office Files, the Supervisor record group also contains Staff Files (1965-1994, bulk 1974-1994). The Staff Files were the working files of Edelman’s staff and were not usually integrated into the main Office Files. In contrast to the Office Files, the documents did not usually have a filing term typed or written on them, nor the word “file” stamped or written on them. Although they sometimes duplicate the material in the main Office Files, the Staff Files often contain more notes and frequently document the processes involved in drafting recommendations for Edelman. In some instances, Edelman’s Office integrated Staff Files into the main Office Files. When such integrated files were found during processing, they were left within the Office Files and are mostly noted on the sub-series arrangement.

The Staff Files have three sub-series: Individual Staff, Issues, and Press. Individual Staff materials (1965-1994, bulk 1974-1994) make up the majority of the Staff Files series. Memos, notes, correspondence, and reports provide insight into particular projects, issues, and departments for which individual staff members were responsible. The material is grouped alphabetically by Staff member name. Each staff person’s material is arranged mostly alphabetically by issue or by department.

While staff assignments changed over time, the material an individual staff member maintained regarding a department or topic sometimes provides a very detailed snap-shot of issues and people important just for that specific time period (see Box 18, Office Files: Third District for listings of some staff assignments). However, the Individual Staff files cannot be taken as complete documentation of the work each staff person may have done for Edelman. For example, although there are some working files of Robert Geoghegan, Edelman’s Chief Deputy from 1981-1994, they in no way provide an accurate picture of his long career with Edelman. On the other hand, files of Health Deputy C. J. Moreno are rich and document his work with the Supervisor rather thoroughly. As Health Deputy, and the person who coordinated the Third District’s approach to the County Budget, his material provides a wealth of documentation on LA County’s Public Health and Budget related issues, and Edelman’s approach to both (1977-1994, bulk 1980-1993). Moreno’s material makes up about one third of the Individual Staff materials, and is in fact one of the larger sub-series within the entire collection.

Similar to the Individual Staff files, the Issues Files (1974-1992, bulk 1980-1989) contain correspondence, memos, clippings and reports, documenting the work of multiple staff as they tackled an issue either together, or serially one after the other. Unlike the Individual Staff Files, the materials in the Issues files seem to have been maintained by more than one staff member, either together at the same time, or one after the other as the duty assignments changed. However, the types of materials filed in the Issues files are exactly the same as the Individual Staff files, including many handwritten notes.

While the Staff Issue files are a separate group from both the Individual Staff files and the main Office Files, the other two groups also can contain similar issue material: some issues central to Edelman run across Office Files, Individual Staff Files, and Issue Files. This is particularly true of the Children's Services Department, and Pan Pacific Park.

The major sub-series in the Issues Files are arranged alphabetically by issue, but the material within the sub-series themselves are not all arranged in the same manner: some are chronological, some are in original folder order, and some are ordered by importance.

The third sub-series in Staff Files is Press (1975-1994, bulk 1975-1988). These are files maintained by the Press Deputies and by Deputies who worked on the Third District newsletters. Editorial statements (1975-1980) drafted and maintained by Press Deputies are arranged chronologically. Working newsletter files documenting the creation and distribution of Third District newsletters are ordered alphabetically by neighborhood.

The second of the two main record groups in the Edelman Papers is the City Councilman material (1953-1974, bulk 1965-1974). The Councilman record group is significantly smaller (about 4% of the collection) than the Supervisor record group. However, it does provide some insight into Edelman's campaigns and career as a City Councilman from 1965 to 1974. Correspondence, financial statements, and some campaign ephemera document his initial campaign for the Los Angeles City Council, Fifth District seat (1965) and his re-election campaigns (1969 and 1973). A significant amount of similar material highlights his campaign for the Los Angeles County Board of Supervisors (1974). Research material, memos, correspondence, and reports highlight a key area on which Councilman Edelman focused: City Charter Reform.

The Third District sub-series provides insight into Edelman personally, the administration of the Third District Office and Field Offices, as well as Edelman's relationship to communities within the District. Most of the sub-series is memos, correspondence, clippings, press releases, VHS tapes, audio cassettes, and photos, and its main sub-groups are arranged following the original filing structure of Edelman's Office.

The three largest groups of material are VHS and audio tapes of Edelman's appearances, press releases, and files on communities within the Third District. Both the tapes of Edelman's appearances and the Press releases record his opinions and stances on numerous issues. Although the audio and visual tapes span most of his career as a Supervisor, the Press releases only represent about half of Edelman's time in office (bulk 1974-1982). Additional press releases can be found in the Staff Press files.

Concerns of the Districts independent cities and unincorporated areas and the Third Districts role in addressing them are documented in memos, meeting notes, and correspondence with neighborhood organizations, County departments, and local government agencies and task forces. The central issues documented are development, revitalization, and roads. Almost all of the communities have additional material in the Office Files, Public Works sub-series. See Individual Staff files of Mark Slavkin for additional material on Westside communities and of Robert Geoghegan on issues for the new Third District.

The bulk of the material documenting the Field Offices is files of the East Los Angeles field office, and provides some insight into constituent problems and community issues central to that neighborhood. The communities' files here in the Third District sub-series provide additional documentation. Also, East Los Angeles is addressed in a number of other sub-series in the Office Files, including Organizations (specifically, TELACU), Transportation, and in Commissions: Regional Planning Commission.

The Third District sub-series contains many groups of correspondence sent and received by Edelman, providing some insight into his personal relationships. However, most of the correspondence is more official and routine in nature, and in addition to letters labeled as "personal," includes recommendations he made, sympathy letters he sent, and notes of thanks he both issued and received. The Recommendations (1975-1992) are arranged alphabetically by last name and do not include last names of A, J, or L. Drafts of biographies and copies of awards and honors add further insight into the less public side of Edelman's life.

The staff material in the Third District sub-series does include memos highlighting assignments and administrative policies, but mostly it is correspondence with potential and former staff members. A small amount of material highlights sports activities in which the Third District staff participated.

The hundreds of photographs in this sub-series were mostly prepared for press releases, and the majority of them have identifying captions. Many record scroll presentations, but a variety of other events are also documented. Although there are some photographs from 1993 and 1987, most date between 1976 and 1983.

The small amount of election material (1985-1993) documents re-election campaign advertisements, both the text of the ads and where the ads were published. There are a few memos and candidates statements regarding Edelman's campaign platform. The majority of Edelman's campaign material is found in the Office Files, Political Affairs sub-series with additional documentation in the Individual Staff files of Edmund Edelman and Alma Fitch.

Administrative Office (CAO) [Chief Administrative Officer] (1974-1994)

Box and Folder

56:6-59:01	Chronological, 1977-1992
59:02-60:02	Chief Administrative Officer, 1974-1990
60:03	Staff, 1977-1992
60:04-60:06	Departmental Matters [Department Heads] 1983-1993
61:01-61:03	Capital Projects, 1975-1976, 1981-1984
61:04-61:05	Office of Protocol, 1987-1990
61:06-62:06	Legislation, 1976-1993
62:07	<i>County Digest</i> , 1987-1994
62:08	Evacuation Plan, 1985

About half of the material in the Administrative Office (CAO) sub-series is routine correspondence with the Chief Administrative Officer and CAO analysis on a variety of topics requested by the Board. The other half of the records provides insight into specific activities the CAO was responsible for overseeing: Capital Projects, Office of Protocol, and Legislative lobbying. For additional information on the County's lobbying efforts at the State level, see Office Files: State of California.

Some correspondence and memos document policies for executive level county employees and exempt management. Correspondence and memos on hiring successive CAOs is included.

The CAO's newsletter, *County Digest*, published for county employees, highlights statistics, people, events, and policies of interest to the County's work-force.

(Adoptions Department)

See Children's Services Department. Although a separate department until 1984, Edelman's office filed the Adoptions Department material with the Children's Services Department.

Affirmative Action Compliance Officer (1977-1994)

Box and Folder

62:9-64:3	Chronological, 1981-1994
64:4-64:6	Affirmative Action Compliance Officer, 1982-1988
64:7-65:1	M.L.King Hospital, 1990-1992
65:2-65:3	Minority Businesses, 1982-1988
65:4	Press and Clippings, 1987-1988
65:5	Comparative Study Report, 1977-1988

Material in the Office of Affirmative Action sub-series documents the activities of the Office as well as Edelman's involvement with affirmative action issues. Correspondence and memos make up the bulk of the material, however there is a file of affirmative action related newspaper clippings, as well as a 1988 report which compares hiring practices in County departments from 1977 to 1987. Additional clippings, correspondence and memos highlight specific affirmative action issues at the M.L.King Hospital for a two year period (1990-1992). The selection process for hiring a new Officer is also well documented through memos, correspondence, and notes. See the Individual Staff files of Richard Callahan for documentation on affirmative action in the Health Services Department, and of Frankye Schneider regarding Bilingual education. For additional assorted memos and correspondence on Affirmative Action and Immigration issues, see the Office Files: Miscellaneous.

Processing Note:

Material related to issues of Minorities, Immigration, Human Relations Commission, Affirmative Action and SCAG (Southern California Association of Governments) was found together in two boxes: B/042 and B/217. The material was a combination of Staff and Office files. Out cards for most of the folders were found in many of the corresponding Office Files series noting that the folders had been pulled "for County Counsel/Reapportionment, January 27" (no year noted). During processing, the Office Files were returned to their original placement, and Staff Files were grouped with each individual staff person's materials. Please see the Appendix for a list of these files.

Agricultural Commissioner/Weights and Measures

Box and Folder

66:1-66:6	Chronological, 1976-1994
66:7	Commissioner/Director Selection, 1987-1989
	Insects
66:8	Gypsy Moths, 1986-1987
	Fruit Flies
66:9-67:3	Medfly, 1984-1994
67:4-68:1	Mexican Fruit Fly, 1981-1992
68:2	Oriental Fruit Fly, 1988-1994
68:3-69:2	Malathion Spraying, 1983-1994
69:3	Killer Bees, 1985-1994
69:4	Weed Hazard and Pet Abatement, 1987-1994

Chronological files contain routine correspondence with the Agricultural Commissioner, reports,

and newspaper articles. The public debate over, and the County's response to, the medfly and malathion issues is the largest group of material in this sub-series. Memos, correspondence, reports, and public information packets document the problem during the 1980s. Additional material on malathion and medfly can be found in the Individual Staff files of Jim Moreno and June Bachman.

The two separate Departments of Agricultural Commissioner and Weights and Measures were combined in 1984. Edelman's office files do not reflect a departmental split. Materials that predate the consolidation are filed together here in this sub-series.

Animal Care and Control (1981-1994)

Box and Folder

69:5-70:3	Chronological, 1981-1994
70:4	Director, 1982-1994
70:5	Pound Seizure, 1986-1989

The bulk of the Animal Care and Control material is correspondence and memos documenting the selection and hiring of new departmental Directors as well as routine activities of the Department. One folder contains memos, correspondence (mostly with medical schools) and newspaper articles regarding the possible revocation of the County's ordinance allowing the Pound to sell unclaimed pets to medical researchers (Pound Seizure). Additional material on the Pound Seizure issue is in the Office Files: Board of Supervisors, under the Fifth District.

Arboreta and Botanical Gardens (1978-1993)

Box and Folder

70:6-71:2	Chronological, 1978-1993
71:3	Director, 1984-1985
71:4	Board of Governors, 1979-1989 Gardens, 1978-1993
71:5	Descano Gardens, 1980-1987
71:6-72:4	Robinson Gardens, 1978-1993

Chronological files of memos and correspondence document the Arboreta and Botanical Gardens' administration as well as the proposed merger of the department with the Natural History Museum. Correspondence with the Board of Governors is mostly routine letters of resignation or appointment. The Robinson Gardens files document the transfer of the Robinson Estate to the County and the Gardens' opening to the public and include many form letters sent to interested constituents, officials, and organizations. The Individual Staff files of Jim Gilson and Alma Fitch provide further insight into the establishment of the Robinson Gardens.

Assessor (1975-1994)

Box and Folder

72:5-74:7	Chronological, 1976-1994

79:1	Unsecured Taxes, 1981
79:2	Assessment Practices Advisory Committee, 1980-1985
79:3	Documentary Transfer Tax, 1991-1993
79:4	Grand Jury Reports, 1988, 1990

Correspondence and memos document tax assessment problems handled for Third District constituents, the repercussions of Proposition 13, and tension between the Assessor and Auditor-Controller offices. The bulk of the Assessor's sub-series is Chronological files. Two Grand Jury reports (1988 and 1990) examine the efficiency of the Assessor's Office.

Newsletters and correspondence with Taxpayers groups are found here, but also in the Treasurer/Tax Collector sub-series. In fact, there is much cross over between the two departments.

See the Office Files: Registrar/Recorder for specific Proposition 13 material and the Individual Staff files of Richard Llewellyn for documentation on the proposed property tax shift from local government to the State.

Auditor/Controller (1977-1994)

Box and Folder

79:5-81:3	Chronological, 1977-1994
81:4-81:5	Auditor/Controller [Head of Dept.] 1985-1988, 1993
81:6	County Fees, 1981-1988

Most of the Auditor/Controller sub-series is audit reports produced by the Auditor/Controller, and progress reports on the department's auditing projects. The sub-series also includes independent audits of the County, made by private firms.

Beaches and Harbors (1975-1994)

Box and Folder

88:7	Nudity, 1975-1981
88:8-89:1	Parking, 1985-1994
89:2-89:4	Santa Monica Bay, 1991-1993

Correspondence, reports and clippings document the administration of the Beaches and Harbors Department, as well as environmental issues. The bulk of the sub-series highlights problems with Marina del Rey, and includes files of staff member Jim Gilson.

Restoration of the Santa Monica Bay, pollution at County beaches, and the merger with the Small Craft Harbor department are additional issues addressed in the Beaches and Harbors sub-series.

The Department of Beaches was combined with the Department of Small Craft Harbors in 1983. Pre 1983 Small Craft Harbors is a separate sub-series in the Office Files and includes additional material on Marina del Rey. Additional material on Beaches and Harbors can be found in the Individual Staff files of Jonathan Freedman.

120:2	Motions, 1981-1982
120:3	Pound Seizure, 1987

Motions made by Edelman, adjourning motions made by the entire Board, Board ordinances, and correspondence with other supervisorial districts' constituents and Supervisors make up the bulk of the Board of Supervisors sub-series. Much of the correspondence with constituents is routine, with Edelman's office notifying the non-Third District constituent that their letter has been forwarded to the appropriate Supervisor. Correspondence with other Supervisors contains routine correspondence, as well as some letters that are more personal in nature. Both the motions and ordinances are arranged chronologically, but not all years Edelman served on the Board are represented. Of particular note is material on a proposed and extremely controversial anti-pornography ordinance suggested by the Women's Commission (1984-1985). For

additional material on this ordinance, see the Individual Staff files of Frankye Schneider and Jim Gilson.

Material on the Executive Office is not coherent, but correspondence and memos provide some insight into the activities of that office. Also, there is a small amount of material on policies and procedures of the Board and only a few copies of Agendas.

The material in the Third District sub group here, not only documents motions Edelman presented, but also Edelman's priorities as Chairman of the Board, speeches he gave, his swearing in ceremonies, and some examples of Third District newsletters. For additional newsletters, see the Staff Files: Press.

NOTE: There are many misfiled letters in both the First and Second Districts, "Letters to Constituents." First District letters were filed into Second District and visa versa.

Bollens Lectures (1984-1994)

Box and Folder

120:4-121:4 General, 1984-1994
121:5-122:5 Pamphlets/Tapes
123:1-123:3 Photos

Edelman's involvement with the Bollens Lecture Series and the selection of Bollens Interns are documented through memos, correspondence, and mailing lists. Copies of pamphlets and layout boards for the brochures are included, as well as audio tapes and papers of selected lectures. The Individual Staff files of Susan Loewenkamp provide additional material, including audio tapes.

(The Bollens Lecture Series, named after UCLA Political Science professor John C. Bollens, sponsored speakers from both academic and practical governmental backgrounds and perspectives.)

Edelman's push for better services for children is particularly well documented in this sub-series. Correspondence, memos, reports, motions and newspaper articles highlight his involvement in the establishment of a separate Children's Services Department, as well as his office's efforts to address a variety of children's issues.

The bulk of the material is Chronological files, which document the establishment (1984) and then the administration of the department. The recommendations of a variety of task forces and the programs of many organizations are highlighted through correspondence, memos and reports both in the Chronological files and in separate sub-series. The second largest group of material is on Child Abuse, and includes reports, clippings, memos, and correspondence. Additional, and earlier (1979-1980), material on Child Abuse is in Office Files: Community and Senior Citizen Services.

In addition to specific folders, newspaper articles are scattered throughout this sub-series. In particular, there are quite a few in the material on Child Abuse and the McClaren Children's Center. Editorials and statements by Edelman address different children's issues, and provide insight into his opinions and approaches to the problems.

Although there is one preliminary report on the Children's Court (1989) filed here, all other documentation on the court established by Edelman is filed in Office Files: Courts.

See the Individual Staff files of Frankye Schneider and Staff Issues files for additional material on the Children's Services Department and Children's Court. James Moreno's Individual Staff files provide further documentation on McClaren Hall. Mostly duplicate copies of reports and transcripts of hearings relating to children are also found in the Office Files: Transcripts.

The City of Los Angeles materials highlight Edelman's working relationship with the Los Angeles City Council, the Mayor, and various departments, as well as County concerns that fell within the City limits. The largest sub-series include the Mayor's Office (Tom Bradley) the Police Department, Redevelopment, and the Los Angeles Unified School District.

The bulk of the Mayor's Office material is correspondence with Bradley and his staff, and memos

regarding the Mayor's Office. In the Police files, most of the material is on Police Shootings and the 1992 riots after the Rodney King trials. The police shooting memos, correspondence and reports are not limited to the LAPD, but include the County Sheriff's Department as well. Material on the 1992 riots documents local government's response to concerns for future riots more than the actual incident.

Redevelopment projects and plans for the City are documented through correspondence, reports, and memos in the Chronological files of the Community Redevelopment Agency, the Central City Association and the Skid Row Development Corporation. Material on the various areas of redevelopment is not complete, and provides only bits of documentation on many different projects undertaken or planned in the City.

Material on the Department of Water and Power can be found in the Office Files: Utilities.

172:1-172:5	'To File,' 1986-1990

The Community and Senior Citizen Services Department was created in 1984, by combining the two previously independent departments of Community Services and Senior Citizens Affairs. Memos and correspondence document the consolidation of the two departments, as well as their earlier separate operations.

Much of this sub-series is correspondence and memos documenting service organizations' requests for funding and the Third District's deliberations on who or what to fund with Community Block Grants and other money sources. Job training programs, the County's "Cold Weather Program" for the Homeless, and Community Service Centers are some of the better documented issues. As is the case for much of this sub-series, the Cold Weather Program files highlight the co-operative work of Edelman's office, the CSCSD, and other agencies in providing social services to the community both through County programs and by assisting other organizations. While there are files on the Homeless in this sub-series, most of the material is in Office Files: Public Social Services.

Senior Citizen materials highlight the County's effort to provide a variety of services to its older members of the community. Some memos and correspondence regarding Housing for seniors is found here, but more complete material is filed in the Housing sub-series.

Because the Domestic Violence Council was administered through the CSCSD, material on the Council is filed here, instead of the broader heading "Violent Crimes."

For additional material on Community Block Grants, see the Office Files: Community Development Commission; and the Individual Staff files of Richard Llewellyn, James Moreno, and Richard Callahan.

Consulates/Embassies (1980-1987, 1991-1994)

Box and Folder

173:1-173:3 Chronological, 1980-1987, 1991-1994

Correspondence and memos document Edelman's meetings and visits with Ambassadors from around the world. Correspondence and memos are routine.

Consumer Affairs Department (1976-1994)

Box and Folder

173:4-175:4 Chronological, 1976-1994
175:5 Personnel, 1991
175:6 Merger (with District Attorney's Office), 1982
176:1 Over the Counter Pharmaceuticals, 1982
176:2-176:3 Small Claims Advisor Program, 1982-1983, 1991-1993

Chronological files of memos and correspondence document the Consumer Affairs Department's efforts to solve Third District constituent consumer complaints. Whether the County should keep the department or not is also well documented. Additional material on the department is in the Individual Staff files of Robert Geoghegan.

Coroner/Medical Examiner (1978-1994)

Box and Folder

176:4-176:10 Chronological, 1980-1986, 1989-1990, 1994
177:1-177:5 Coroner [department head], 1978-1989
178:1-178:2 Personnel, 1986-1994
178:3 Cases, 1980-1988
178:4 Cemeteries, 1987
178:5 Funeral Homes, 1985-1988
178:6 Life Foundation of Medicine and Law, 1981

Chronological files are about one third of this sub-series and highlight problems with the administration of the Coroner/Medical Examiner Department as well as constituents' request for assistance. Coroner Thomas T. Noguchi's high profile suspension is well documented through memos, correspondence, clippings, and investigation findings. Material on Noguchi makes up about half of the sub-series. Additional material on Noguchi is in the Individual Staff files of Rob Saltzman.

For information on autopsy legislation, see the Individual Staff files of Jamie Warner.

County Budget (1975-1994)

Box and Folder

178:7-181:4 Chronological, 1976-1982, 1987-1992
181:5-184:2 Printed County Budgets, 1987-1994
184:3-185:1 Capital Projects, 1987_1994
Contracting Out
185:2-186:3 Chronological, 1978-1994

186:4-187:3	Article by Edelman, 1978-1994
187:4-187:8	Assorted, 1982-1991
187:9-187:11	County Fees, 1981-1994
188:1-188:2	County Revenues, 1982-1992
188:3	Enterprise Funds, 1981-1983
188:4-188:9	Special District Augmentation Funds, 1978-1993
188:10-190:6	Taxes, 1975-1994
190:7	Transfers of Appropriation, 1992

Chronological files in this sub-series highlight changing budgetary needs of the County and are mostly routine correspondence and memos which examine possible adjustments and changes to the budget. Much of the correspondence is from the CAO. Copies of the official budget are found here from fiscal year 1987-1988 to 1994-1995. Edelman's opinions and research on the Contracting Out question are well documented; however, the County's constant search for revenue sources is not as well documented, although reports, memos and correspondence provide some insight on the issue. About half of the files on Taxes concern the "Tippler's Tax" (taxes on alcohol). For additional information on revenue sources, see Utility/Business Taxes in the Office Files: Utilities and Robert Geoghegan's Individual Staff files.

The majority of the budget material for the early 1990s was maintained by staff member C.J. Moreno in his own files; Moreno was the deputy who oversaw budget preparations for the Third District. Additional material for 1978 to 1981 budgets is in Dan Farkas's Individual Staff files, and for the 1993-1994 and 1994-1995 fiscal years in Jennifer Roth's Individual Staff files.

County Counsel (1974-1994)

Box and Folder

190:8-192:2	Chronological, 1976-1994
192:3-192:6	Counsel (Department Head) 1974-1988

193:1-193:5	Lawsuits, 1982-1994
193:6-194:2	Publications, 1982

Correspondence, legal documents, and memos document lawsuits involving the County and Edelman's Offices' questions regarding county laws. Legal Deputy Robert Salzman's Individual Staff files contain additional material on County lawsuits.

County Employee Associations (1977-1991)

Box and Folder

194:3-194:12	Various Employee Associations, 1977-1991
--------------	--

Memos and correspondence with and about Los Angeles County employees associations, from general to specific minority groups, documents the groups' concerns and Edelman's work with them. Most of the material is from the 1980s.

Additional correspondence and reports on some of the associations are in the Minorities and Personnel sub-series in the Office Files. Richard Llewellyn's Individual Staff files provide insight into a specific association: the Chicano Employees Association.

(County Engineer)

The County Engineer became a joint department with Facilities in 1980, and then part of Public Works in 1985. See Public Works.

County Fair Association (1976-1987, 1991-1994)

Box and Folder

194:13-194:14 Chronological, 1976-1987, 1991-1994

The County Fair Association has only two folders of material, the bulk of which is routine correspondence and reports regarding the operation of the fair grounds.

County Government (1975-1994)

Box and Folder

195:1-195:4 Chronological, 1981-1994

195:5-198:6 Redistricting/Reapportionment, 1976-1993

199:1-201:3 County Executive/Mayor and Board Expansion Proposals, 1975-1992

201:4 County Charter, 1976-1988

201:5 Departmental Consolidations, 1981-1991

The County Government sub-series addresses the form of County government, as opposed to its activities through correspondence and memos.

Although redistricting was a recurring question during Edelman's tenure on the Board, the bulk of the Redistricting material is from the early 1980s effort to re-draw district lines.

Correspondence, memos, press releases and news clippings provide a great deal of insight into the complexities of redistricting after the 1980 census. The redistricting lawsuit of the early 1990s is not well represented in this sub-series, but instead, is documented in Individual Staff Files of Robert Geoghegan and Richard Llewellyn. See also Office Files: Oversized Maps and Plans for proposed district maps during the 1991 redistricting effort.

Edelman's goals and opinions regarding reforming County Government through board expansion and the addition of a county Mayor or Executive are well documented in this sub-series. Some campaign material on this issue is also found in Office Files: Political Affairs.

Processing Note:

Material related to issues of Minorities, Immigration, Human Relations Commission, Affirmative Action and SCAG (Southern California Association of Governments) was found together in two boxes: B/042 and B/217. The material was a combination of Staff and Office files. Out cards for most of the folders were found in many of the corresponding Office Files series noting that the

folders had been pulled “for County Counsel/Reapportionment, January 27” (no year noted). During processing, the Office Files were returned to their original placement, and Staff Files were grouped with each individual staff person’s materials. Please see the Appendix for a list of these files.

Courts (1968-1994, bulk 1976-1994)

Box and Folder

214:4-215:6	Court and Tort Reform, 1977-1993
216:1-216:4	Assorted, 1986-1994
216:5-217:4	Courts ‘To File,’ 1978-1994

Funding the operation of the courts as well as establishing new courthouses are two major issues documented throughout the Courts sub-series. Memos and correspondence in the chronological files of the department, the Municipal Court and the Superior Court detail many administration and budgetary issues. Photos, invitations, press releases and correspondence provide insight into the creation, construction, and opening of the Edmund D. Edelman Children’s Court. The Children’s Court material is nearly a quarter of the sub-series. Other court building projects are not as well documented, but similar material can be found for a number of new and planned court buildings.

Correspondence with Judges is both political and administrative in nature, and includes some

personal notes.

Individual Staff files of a number of deputies provide additional insight into Courts related issues. See Robert Saltzman, Jim Gilson, Jim Petzke, and Richard Llewellyn. For further material on the creation of the Children's Court in particular, see Jennifer Roth's Individual Staff files.

Cultural Affairs (1980-1988, 1991)

Box and Folder

218:1-218:2 Chronological, 1980-1988, 1991

Correspondence, memos and newsletters provide some insight into cultural events and planning in the County, but this sub-series is only two folders. The material is not very complete and does not actually document a department.

Data Processing Department (1982-1987)

Box and Folder

218:3 Chronological, 1982-1987

The Data Processing Department sub-series contains only one folder with a few documents. About half is correspondence from the Director of the department, and the other half is memos and correspondence in regards to the Director's discrimination case against the County.

District Attorney (1975-1994)

Box and Folder

218:4-218:6 Chronological, 1976-1989, 1994

218:7-219:2 District Attorney [Department Head], 1975-1983

219:3 Budget, 1994

219:4-221:1 Child Support, 1976-1994

221:2 Robert F. Kennedy Death Investigation, 1975-1986

About half of the District Attorney sub-series is correspondence and memos that provide insight into the County's handling of Child Support issues. In addition, searches for a new District Attorney in 1975 and in 1982 are well documented. A file on the Robert F. Kennedy death investigation is mostly correspondence with a constituent refuting the official findings.

Additional material in the Individual Staff files includes Susan Loewenkamp's on Child Support and Robert Saltzman's on the District Attorney.

Earthquake (1979-1994)

Box and Folder

221:3-222:3 Chronological, 1979-1994

222:4-222:5 Northridge Updates, 1994

The Earthquake sub-series provides information on the County's earthquake preparedness programs and efforts to mitigate earthquake damage. Two folders are CAO updates on relief funding requests to the State and Federal government after the 1994 Northridge earthquake. Brochures Edelman's office distributed on how to respond to an earthquake are also included.

Energy (1975-1994)

Box and Folder

222:7-223:1 Chronological, 1978-1979, 1985-1988, 1991-1992
223:2 Conservation, 1976-1989
223:3 Methanol, 1981-1987
223:4-224:1 Nuclear, 1975-1989
224:2-225:2 Recycling, 1977-1994
225:3 Solar, 1979-1989
225:4-226:3 Water, 1977-1993
226:4-226:5 Publications, 1977-1981

Consideration of alternative energy sources to fossil fuel is the main theme of the Energy sub-series. Publications, memos, and correspondence address the differing types of energy, including some material on the Nuclear freeze. Most of the material predates the 1990s.

Individual Staff files of Jonathan Freedman provide additional information on Water issues.

(Engineer)

The County Engineer was merged with Facilities in 1980 and then later was split off from Facilities and became part of Department of Public Works in 1984. See Facilities and Department of Public Works in the Office Files.

Facilities Management Department (1976-1994)

Box and Folder

226:6-227:2 Chronological, 1979-1991
227:3 Staff, 1982-1989
227:4 Contracting Out, 1985-1990
227:5-228:1 Automotive Fleet Maintenance, 1988-1989
228:2-229:2 Parking, 1976-1994
229:3 Project Management, 1988

230:6-231:1 Building Services, 1976-1983, 1991
231:2-231:6 Communications, 1976-1985
231:7 Mechanical, 1976-1988

The Facilities Management sub-series is not a cohesive group of material, and includes bits and pieces of material from pre-cursor departments. The department was joined with the Engineer from 1980-1984. In 1984 it was separated from the Engineer (which became part of Public Works) and at that time pulled in Communications, Mechanical, and Building Services.

Memos, correspondence, and progress reports provide some insight into the physical plant operations of County buildings and equipment, as well as the administration of the department and previously independent departments. In addition, documentation on parking issues can be found here, but see also the Department of Public Works in the Office Files.

Farm Advisor (1978)

Box and Folder

232:1 Chronological, 1978

This sub-series contains one folder of constituent correspondence regarding potential cuts to the Farm Advisor program in 1978. Additional memos and correspondence on the program are in the Individual Staff files of Richard Gitlin.

The functions of the Farm Advisor were merged into the Community and Senior Citizens Services Department in 1988. However, there is little Farm advisor related material in that sub-series.

242:3-242:5	Wildlife Protection Act, 1989-1994
242:6-243:2	Assorted, 1977-1988

The bulk of the Federal Series highlights Edelman's interests in national social welfare issues and key federal acts in which the County had an interest. Correspondence, memos, and conference packets highlight Edelman's involvement in Whitehouse conferences he attended on social welfare issues. Correspondence, memos, text of the acts, and analysis of the acts, document Edelman's support of the Desert Protection Act, the Wildlife Protection Act, and the Public Works Construction Act. Correspondence with congressmen is mostly routine, but also includes letters on upcoming legislation.

Within the Departments/Agencies files, the largest groups are the Justice Department and the Labor Department. Material on the Justice Department contains memos, correspondence, and publications on immigration, immigration reform, and refugees (see also the Office Files: Miscellaneous for assorted memos and correspondence on immigration and affirmative action issues). Similar material in the Labor Department files documents labor laws and the Fair Labor Standards Act in particular.

Correspondence from Presidents Jimmy Carter, Ronald Reagan, and Bill Clinton are in this sub-series, but most of the letters are not signed with original signatures.

Additional material in Individual Staff files includes: Jonathan Freedman on Youth Service Corps; Jim Moreno on Job Training Partnership Act; and Richard Callahan on the Desert Protection Act.

Film Industry (1984-1989, 1994)

Box and Folder

243:3 Chronological, 1994

243:4 American Cinematheque, 1984-1989

The activities of the County's Film Permit Office are documented for only one year (1994) through memos and correspondence. However, material on American Cinematheque, a film history organization, spans a 5 year period (1984-1989). More material on American Cinematheque, as one of the proposed tenants of Pan Pacific Auditorium, can be found in the Staff Issues files; and additional files on its precursor organization, Filmex, are in the Individual Staff files of Alma Fitch.

243:5-246:3 Chronological, 1980-1994

246:4 Firefighters, 1992-1994

246:5 Hazardous Materials Control Program, 1989-1992

246:6 Wildfire Safety Program, 1993-1994

The bulk of the Fire Department sub-series is chronological files of correspondence, memos, and reports regarding administration of the department and its programs. Special benefit assessment fire districts are also documented in the Chronological files.

The aftermath of the 1993 files and disaster recommendations from the City of Oakland are documented in the Individual Staff files of Don Wallace.

(Flood Districts)

Flood Districts were merged into the Department of Public Works in 1984. See Department of Public Works in the Office Files.

Foreign Affairs (1977-1987)

Box and Folder

246:7 Foreign Affairs, 1982-1986

246:8 Prisoners, American (Worldwide) 1980-1986

246:9 United Nations, 1977-1987

Correspondence and motions provide some insight into the Board of Supervisor's support and/or renouncement of events and issues in foreign countries. There is a small amount of

correspondence with representatives in the United Nations, and an even smaller number of letters regarding American prisoners in Peru.

Gay Community (1975-1994)

Box and Folder

247:1-248:1	Chronological, 1975-1994

250:4	Pioneer Days, 1981-1988
250:5	Placement for Gay Youths, 1979-1981
250:6	'To File,' 1990

The bulk of the Gay Community sub-series is memos and correspondence, which document Edelman's support of the Gay community through its organizations and programs, as well as the push for gay rights legislation. The activities of the Gay Community Services Center and its requests for funding are documented through correspondence and reports. AIDS material in this group highlights the Gay community's specific response to the AIDS epidemic. See Health Services and Staff Issue files for material on AIDS as a County-wide public health issue.

Individual Staff files of Jonathan Freedman and Jim Petzke provide additional insight into Edelman's work with the Gay community.

General Services Department (Proposed) (1979)

Box and Folder

 252:9-252:10 Urban Counties Caucus, 1989-1994
 253:1-253:2 'To File,' 1989-1990

Correspondence, memos, reports, and newsletters document the lobbying and community-building efforts of local government associations and groups, as well as Edelman's participation. There is only one document in the Chronological files. The group with the most material is CSAC.

Grand Jury (1973-1994)

Box and Folder

253:3-256:1 Chronological, 1973-1994
 [Bound report 1988-1989 is Box 254]
 256:2 Grand Jury Members, 1976-1994

 256:6 Jury Duty [Not Grand Jury], 1992-1994
 256:7-256:8 'To File,' 1990

Three quarters of the Grand Jury sub-series is chronological files of memos, correspondence, and Grand Jury Reports. There are no copies of the Grand Jury Final Reports dating before 1984. The 1987-1988 grand jury reports of the contract auditor are bound in a single very large book. The sub-series also includes a file of correspondence regarding Third District constituent requests to be excused from Jury Duty, but this is not actually related to the Grand Jury.

In addition, there are Grand Jury reports on a variety of departments and issues scattered throughout the Office and Staff files.

321:4-321:5 Reorganization, 1977-1979
321:6-321:9 Assorted, 1974-1978

This is one of the largest sub-series in the collection overall, and documents Edelman's involvement with the Health Services Department, the Health Systems Agency, and health issues in general. The most persistent issue addressed in the Health Services Department sub-series is the County's constant struggle to balance the Department's budget against the public health needs of the County. Budgetary problems are documented throughout the different sub-series in reports, letters from organizations and constituents, correspondence with the Department and CAO, and staff memos.

The two largest groups of material in the Health Services Department sub-series are the Program Files and the Hospital Files. Program Files of memos, reports, and correspondence document healthcare facilities and programs run both by the County and by non-government groups. Again, funding is a central issue. Material on specific Health Clinics and Centers varies from invitations to events, to requests for funding, to memos on staffing problems, to reports on building needs, to analysis of possible closures. Memos and correspondence also examine the repercussions of reorganizing the county's clinics.

The bulk of the Program materials is on Alcohol and Drugs and on AIDS. While specific alcohol and drug programs, task forces, and rehabilitation facilities are well documented, there is very little material on tobacco. In addition, the alcohol and drug abuse materials include memos and correspondence on the homeless, although most homeless material is in the Public Social Services sub-series. Reports, hearing transcripts, and background memos highlight a hearing on prenatal/neonatal substance abuse held by Edelman in 1985.

Correspondence, memos, articles and clippings address the County's approach to the AIDS problem, including funding issues, the establishment of separate AIDS wards, needle exchange programs, and work with community organizations. There is additional material on the AIDS epidemic in the Individual Staff files (Jonathan Freedman, Richard Llewelyn, and Jim Petzke) and on the AIDS Commission in the Office Files: Commissions.

After the Program Files, the second largest group of material in the Health Services sub-series is

Hospitals, and addresses issues such as funding, potential closures, trauma centers, staffing and the County's relationship with area medical schools. Individual hospitals are documented with varying degrees, but the Los Angeles County/University of Southern California (LAC/USC) hospital is very well documented. The selection of architects and builders, and construction of new buildings are detailed in reports, memos, clippings and correspondence. Opinions of staff, constituents, and medical staff regarding the controversial plan to contract with the management firm National Medical Enterprises (NME, later renamed Tenet Healthcare Enterprises) are found in correspondence and memos. For additional information on the LAC/USC/NME contract, see Staff Files of C.J. Moreno.

Smaller groups in the Health Services sub-series include Administration, Environmental Management Division, and Healthcare for the Poor/Elderly. Memos and correspondence on the administration of the department focus mostly on financial problems, but some material also addresses personnel issues, particularly affirmative action and selection of the department director. Material on the Beilenson Hearings provides insight into the complicated effort to cut the Department's budget, as the County followed the requirement that health services not be cut without community input.

The Environmental Services Division material documents the health inspection and environmental safety functions of the department, mostly dating from the 1980s. The files contain correspondence from constituents whose businesses are having trouble with inspectors or health inspection requirements. Although there are memos, reports and correspondence on Waste here, there is additional documentation in the Sanitation Districts sub-series.

How to fund healthcare for the medically indigent, uninsured, and undocumented is the focus of memos, correspondence and reports in the material on Healthcare for the Poor/Elderly. Board disagreements on what level of funding necessary is highlighted in memos and motions.

The smallest groups of material are the following: Emergency Medical Services, Healthcare Professionals, and Assorted. Correspondence and memos in the Emergency Medical Services files address agreements with area hospitals for overflow emergency services and costs for the Sheriff's and Fire Departments, as well as contracting out for ambulance services. Correspondence with and memos about Interns and Residents at area hospitals make up the bulk of the Healthcare Professionals files. There is additional correspondence with other professional health groups as well.

Although not related to the Health Services Department administratively, the federally funded Health Systems Agency is the other main group in this sub-series. The HSA was founded in 1976 following federal legislation, and was charged with planning health services regionally. Correspondence and memos document the establishment and continuation of the agency, but not its actual work or planning efforts. In addition, material highlights the County's effort to be established as the area's HSA. For information on the Health Systems Agency Commission, see Commissions.

Jim Moreno, the Third District's Health Deputy, worked on health issues for over 10 years. His input, suggestions, and research can be found throughout the Health Services sub-series.

Additional and complimentary material on the Health Services Department can be found in his Individual Staff files.

331:5-331:6	Landlords/Tenants, 1976-1989
331:7-331:12	Assorted, 1976-1991

The majority of the Housing sub-series dates from the mid 1970s through the 1980s. Edelman's effort to find ways to create more affordable housing and to prevent discrimination are well documented in memos, correspondence and motions. Chronological files on Rent Control (1976-1985) and material on the 1979 Condominium Conversion Ordinance highlight the Third District's particular interest in maintaining affordable rents. Alma Fitch's Individual Staff files provides additional insight into the Rent Control issue.

Correspondence throughout Housing documents the opinions and problems of both landlords and tenants. In addition, material on specific senior housing projects can be found here. Some senior housing material was also filed under the Department of Community and Senior Citizens Services as well as under Jewish Affairs (housing projects administered by Jewish organizations).

Additional Housing related material is in the Individual Staff files of Robert Saltzman.

Illegal Aliens (1974-1986)

Box and Folder

331:13-332:1 Chronological, 1974-1988

332:2 Constituents, 1975-1986

332:3-332:5 Assorted, 1975-1987

Reports, policy studies, memos and correspondence address immigration reform and the economic repercussions of illegal immigration in the 1970s and 1980s. Both the Mazzoli Immigration Act (1982) and General Relief questions figure prominently in the material. Additional records on immigration reform can be found in the Federal sub-series and on health care for illegal aliens in the Individual Staff files of Jim Moreno.

Insurance (1976-1994)

Box and Folder

332:6 Chronological, 1976-1994

333:1-333:5 Auto, 1976-1993

334:1-334:4 Public Liability, 1985-1988

334:5 Redlining/Mortgage Lending Institutions, 1976-1977

Material in the Insurance sub-series documents the County's efforts to protect constituent-consumers from overbearing insurance costs, especially auto insurance. Liability insurance carried by the County itself is also considered in memos and correspondence.

Richard Callahan's Individual Staff files provide additional documentation on auto insurance, and Mark Slavkin's on flood insurance related to Pan Pacific Park.

Internal Services Department (1993-1994)

Box and Folder

334:6-336:3 Chronological, 1993-1994

The Internal Services Department was created in 1989. Memos, reports and correspondence document the administration of the department as well as supply contracts and lease agreements the County executed. In addition, data processing and communications projects and contracts carried out by the department are highlighted.

Jewish Affairs (1976-1994)

Box and Folder

337:7	Union Hebrew College, 1985-1989
337:8	Wallenberg Statue Fund, 1987

Edelman's relationship with Jewish organizations is documented through correspondence and memos. Most of the material is from the 1980s and about half of it is on housing projects built by Jewish organizations. Jewish events Edelman attended, causes to which he lent his name, and people to whom he gave recognition are highlighted in this sub-series as well.

Individual Staff files of Susan Loewenkamp, Mark Slavkin and Jamie Warner provide additional documentation on Jewish issues. Material on the Holocaust Monument in Pan Pacific Park is filed in the Parks sub-series of the Office Files.

339:4	Los Angeles County/Montebello Regional Public Recreation Area Authority Commission, 1973-1987
339:5	Private Activity Bonds, 1984-1985

Routine correspondence with appointees to various joint powers authorities, agencies and corporations makes up the bulk of the Joint Powers material. There are some minutes from certain agencies, but generally there is not much documentation on the activities of the groups. Material on the Industrial Development Authority, however, provides insight into the County's use of Industrial Development Bonds.

Justice System [Juvenile Justice System] (1977-1994)

Box and Folder

339:6-339:7	Chronological, 1982-1994
	Funding, 1977-1993
339:8	General, 1985-1993
340:1-341:2	AB 90, 1977-1993

About three quarters of the Justice System materials address the dispersion of State AB- 90 Funds for County Justice System Subvention Programs. Memos, correspondence, and reports provide insight into which of the various community organizations administering youth programs in the Third District were chosen for AB-90 funding. In addition, correspondence and memos document the establishment of Juvenile Justice centers (staffed by multiple departments and agencies to serve juveniles in the court system).

Although there is some correspondence from the Probation Department, this sub-series does not document its activities. See the Office Files: Probation.

Labor (1975-1993)

Box and Folder

342:1-342:3 Chronological, 1975-1991
343:1-343:2 Unions, 1978-1992
343:3-343:5 Arbitration, 1983-1993
343:6-343:8 Assorted, 1976-1993

Reports, memos, and correspondence document Labor related issues generally. The sub-series contains a bit of documentation on labor disputes in the Los Angeles area during the 1970s and 1980s, but it does not give a full and complete picture of labor issues faced by the County during that time. One folder of correspondence and memos provides some insight into labor negotiations between the County and various employee unions. For additional information on County and union negotiations, see the Union files in the Office Files: Personnel. Also see Individual Staff files of: Jim Petzke, Robert Saltzman, Marshall Langberg, and Jonathan Freedman.

Law Library (1974-1994)

Box and Folder

343:9 Chronological, 1974-1994
343:10 Board of Trustees, 1977-1994

The two folders in the Law Library sub-series consist primarily of correspondence regarding funding for the Los Angeles County Law Library and the appointment of its Trustees.

Marshal (1976, 1975-1991 bulk 1975-1994)

Box and Folder

344:1 Chronological, 1976-1991
344:2 Merger/Consolidation with Sheriff, 1967, 1975-1982

The Marshal sub-series contains only 2 folders. The administration of the Marshal's Office, an audit review in the early 1980s, and the possible merger with the Sheriff's Department are all

documented through memos and correspondence. A report on consolidation by the Los Angeles County Citizens Economy and Efficiency Commission dates from 1967.

Additional material on the potential merger can be found in the Office Files: Sheriff and in the Individual Staff files of Robert Saltzman and Richard Llewellyn.

Mechanical Department

Merged into Facilities in 1984. See Facilities Management.

360:6-361:3	'To File' Mental Health Department, 1987-1991

Edelman's efforts helped create the Mental Health Department in 1978 and this sub-series includes correspondence regarding the establishment of the department. However, the bulk of the sub-series dates in the late 1980s.

As with the Health Department sub-series, the primary topic of discussion throughout the Mental Health materials is the budget. How best to distribute and utilize federal and state funding, including Short Doyle Funds, is addressed in specific budget materials as well as in the files on Mental Health Facilities/Agencies.

About one half of the collection is correspondence, memos, reports, newsletters, and minutes

regarding various mental health programs and facilities in the County. Material provides insight into the funding, staffing, and programs of these agencies and facilities. Edelman's personal involvement is documented through invitations to special events. Additionally, reports, memos and correspondence document the needs of, and services provided to, special groups within the mentally ill population including children, homeless, incarcerated, and AIDS patients.

Problems with the management of the department during the 1980s and searches for a new director in 1985 and again in 1991 are well documented in the Administration files. In particular, the Task Force report of 1984 provides insight into the Department's areas of needed improvement.

A large portion of this sub-series is material accumulated and generated by Health Deputy Jim Moreno. His Individual Staff files provide additional insight into the administration of the Mental Health Department. Other deputies with Individual Staff materials documenting this department include: Susan Loewenkamp, Jonathan Freedman, and Dan Farkas.

Military and Veterans Affairs Department (1975-1994)

Box and Folder

362:1-362:5	Chronological, 1975-1994
363:1-363:2	Director Selection, 1986-1992
363:3	Merger (Proposed), 1984-1985
363:4	Missing In Action, 1981-1988
363:5	Patriotic Hall, 1978-1989
363:6	Veterans Organizations, 1983-1992
363:7	'To File' Military and Veteran Affairs, 1989-1991

Correspondence and memos document Edelman's work with the Military and Veterans Affairs Department and veterans organizations regarding a variety of issues, including: the administration of the department, healthcare, homelessness, Patriotic Hall, the Veterans Park Preserve, and Veterans credit for county employment. Correspondence with Federal legislators highlights the Board of Supervisor's concern for MIA/POW's. There is some material on the proposed merger with the Natural History Museum. For documentation on the Veterans Flyway property, see the Federal sub-series, the Staff Issue files, and Individual Staff files of Jim Gilson and Kerry Gottlieb.

Minorities (1973-1994)

Box and Folder

363:8-363:9	Chronological, 1974-1988
363:10	Individual Groups, 1973-1994
363:10	Armenians, 1979-1988
363:11-364:3	Asians, 1975-1993
364:4-364:5	Blacks, 1975-1994
364:6	Cambodians, 1981

364:7	Chicanos, 1973-1975
364:8	Chinese, 1989-1994
364:9-364:10	Filipinos, 1975-1975, 1989-1992
364:11-364:12	Hispanics, 1977-1993
364:13-365:2	Indians [Native Americans] 1970-1978
365:3	Japanese, 1990-1992
365:4	Koreans, 1976-1987
365:5	Puerto Ricans, 1976-1977
365:6	Samoans, 1976-1987
365:7-365:9	Vietnamese, 1975-1988

The bulk of the Minorities sub-series dates from the late 1970s. Correspondence, memos, and newsletters document the interests of minority groups in the Los Angeles area and Edelman's interaction with many different minority organizations. There are fourteen groups represented overall, and their concerns vary from increased representation in the County workforce, to recognition of human rights issues in their countries of origin. The three groups represented with the most material are Asians (1975-1993), Chicanos/Hispanics (1973-1993) and Indians [Native Americans] (1974-1976). Additional material on Asians is in Robert Geoghegan's Individual Staff files, and Jim Miyano's provide insight into the County's Japanese American Internment redress program.

Affirmative Action issues are not well documented in this sub-series. See Office Files: Affirmative Action Office.

Processing Note:

Material related to issues of Minorities, Immigration, Human Relations Commission, Affirmative Action and SCAG (Southern California Association of Governments) was found together in two boxes: B/042 and B/217. The material was a combination of Staff and Office files. Out cards for most of the folders were found in many of the corresponding Office Files series noting that the folders had been pulled "for County Counsel/Reapportionment, January 27" (no year noted). During processing, the Office Files were returned to their original placement, and Staff Files were grouped with each individual staff person's materials. Please see the Appendix for a list of these files.

Mosquito Abatement Districts (MAD) (1978-1994)

Box and Folder

365:10-365:11 Chronological, 1978-1994

The bulk of the Mosquito Abatement District material is progress reports generated by the CAO which document the reorganization of the districts in the late 1980s. Funding the Districts is also addressed in correspondence and memos.

Municipal Advisory Councils (MAC)

Box and Folder

366:1-366:2 Chronological, 1975-1985

Memos and correspondence highlight the efforts to establish Municipal Advisory Councils [community councils in unincorporated areas of the county which advise the Board of Supervisors on matters of community importance] in East Los Angeles and Diamond Bar in the late 1970s. The material does not provide much insight into the activities of the MACs themselves.

Museums [and Art Institutions] (1974-1992)

Box and Folder

366:3-366:5 Museums, General, 1975-1990
366:6-367:3 Art Museum, 1976-1991
367:4 Contemporary Art Museum, 1982-1988
367:5 Hollywood Museum, 1985
367:6-367:8 Natural History Museum, 1974-1988
367:9-368:1 George C. Page Museum, 1973-1988
368:2 Art Institutions, 1975-1992
368:3 Cultural Institutions Promotion Contractor, 1984-1987

The Natural History Museum and Art Museum are the best documented museums through correspondence, memos and architectural plans. Budgets, parking, security, museum collections, special exhibits, and concerns of constituents are issues that figure prominently in the material for both museums. There is very little material dating from the 1990s, and most of the sub-series is from 1975 to about 1985. Additional files from 1975 to 1980 are found in Alma Fitch's Individual Staff files.

For more material on the Hollywood Museum, see the Music and Performing Arts Commission in the Commissions sub-series and Individual Staff files of Frankye Schneider.

Oil/Gas (1976-1994)

Box and Folder

368:4-368:6 General, 1976-1994
369:1-369:4 Gas Shortage, 1977-1981
369:5 Gas Stations, 1985-1987
369:6 Oil Taxes, 1980-1983
369:7-370:7 Oil/Gas Companies, 1976-1994
370:8 OPEC Lawsuit, 1978-1979
370:9 Reports, 1979

The bulk of this sub-series is correspondence with and about oil and gas companies and stations in the 1970s and 1980s. About one quarter of the Oil/Gas sub-series is correspondence, newspaper clippings, and motions by Edelman detailing the county's implementation of the "Odd/Even Plan" (final digit of license plate determined what day a consumer could buy gasoline) and other responses to the gas shortage of the late 1970s. A report on Synthetic Fuels

by the State of California (1979) and material on an OPEC lawsuit are also in response to the shortage. Additional clippings on the gas shortage can be found in Dan Farkas' Individual Staff files.

Organizations (1975-1994)

Box and Folder

371:1-373:1 Chronological A-Z, 1976-1994

373:2-383:8 Specific Organizations, 1975-1994

Correspondence, memos, newsletters and clippings document Edelman's relationship with many social service, professional, and neighborhood organizations. The sub-series includes invitations and thank you letters, updates on projects and programs, and requests for Edelman's support or sponsorship.

More than half of the Organization sub-series documents TELACU (The East Los Angeles Community Union). Correspondence, memos, and reports provide insight into TELACU's social service and transportation projects during the late 1970s and 1980s. In particular, chronological files detail the administration and funding of its transportation program for seniors, "Dial-a-Ride." The sub-series also includes a number of studies undertaken by TELACU on transportation and economic development in East Los Angeles. A small amount of additional material documenting TELACU's mental health programs can also be found in the Mental Health Department sub-series.

The League of Women Voters and the many different Los Angeles area chambers of commerce and are also well represented in the Organization sub-series. The League of Women Voters material includes policy statements by Edelman, correspondence, and staff memos on newsletters from the League. These all provide a great deal of insight into Edelman's public policy opinions and positions.

Some additional Chronological files on Organizations (1975-1980) are in the individual Staff Files of Alma Fitch.

Otis/Parsons Art Institute (1974-1993)

[Otis Art Institute and Parsons School of Design]

Box and Folder

383:9-383:12 Chronological, 1974-1993

The bulk of the Otis/Parsons Art Institute sub-series is correspondence and memos, but the sub-series also includes one school catalog (1992). Most of the letters from the 1970s are routine and document Edelman's appointments to the school's Board of Trustees. Later correspondence and memos concern the school's lease with the County, its asbestos removal from campus buildings, and its name change.

More material on Otis/Parsons can be found in the Individual Staff files of Alma Fitch.

 396:16-396:17 'To File,' 1987-1990

Correspondence, memos and reports document the maintenance, construction, renovation, development, and creation of parks and park facilities. Administration of the Parks and Recreation Department itself focuses on budget issues, although there is some documentation of affirmative action issues in the late 1980s. Correspondence with community groups, constituents, the department director, and other local government officials (non county) is scattered throughout. Memos by Third District and Parks staff are also present throughout this sub-series.

Almost one third of the material documents parks in the Third District. In particular, there is a great deal of correspondence, memos, reports, and newspaper clippings highlighting Edelman's involvement with the development of Pan Pacific Park. An issue that Edelman campaigned on when he first ran for Supervisor, the Pan Pacific Park was a community project that drew his attention until he retired. Complementary and additional material on Pan Pacific Park can be found in the Staff Issues files, as well as the Individual Staff files of Alma Fitch and Mark Slavkin. See also Office Files: Oversized Maps and Plans for a variety of Pan Pacific Park proposals.

The effort to find revenue for the Parks is documented in the Assessment District files, as well as the Safe Neighborhoods Park Act files. There is little material on park programs. Memos and correspondence provide more information on Tennis competitions and clinics (tennis was a special interest of Edelman's) than any other special program.

Individual Staff files with additional material on the Parks Department include Jamie Warner (departmental administration, 1983) and Richard Gitlin (golf courses, 1978).

At one time an independent department, Personnel became part of the Chief Administrative Office in 1985. Despite this, Edelman's office maintained a separate filing group for personnel issues even after the department was subsumed. In 1994, the Human Resources Department was created, which was responsible for personnel activities for the entire county. Even after the creation of a new department, Edelman's office did not create a new file subject term, but continued to use the heading Personnel.

The material in the Personnel sub-series spans evenly from 1974 to 1994. Overall, however, the sub-series does not have cohesive groups of material. Instead, correspondence, memos, motions, reports, and a few ordinances provide only some insight into a wide variety of the County's employment policies and programs. The best documented issues are Benefits and Unions.

In the Benefits files, memos and correspondence address the expected employment issues. There is very little on social security, and only one item on family leave. However, discussion and planning of the retirement plan, including the Early Separation Program ("Golden Handshake") are well documented through memos, correspondence and reports. Additional material on social security is in the Individual Staff files of Robert Saltzman.

Correspondence and memos highlight Edelman's relationship with unions representing County employees. The concerns of the various unions, in particular AFL-CIO local #660, are detailed in letters and staff memos. Broader labor related material can also be found in the Labor sub-series.

Grievances, requests for employment, and other individual needs of specific employees are scattered throughout, but are concentrated in the County Employee Matters files. In addition, the sub-series provides some information on incentive programs (such as efforts to reduce traffic through alternate work hour scheduling i.e., 10/40 plans), and workplace policies such as sexual harassment and outside employment. Policies and pay rates for exempt level management are also documented in the Department Heads files.

Of note in the Assorted files is a controversial employee survey issued in the early 1980s that asked employees their opinions on what to do about the County's budget problems; and a file on Edelman's civil service reform motion of 1977.

Time cards are mostly from before Edelman was elected. Because they include social security number, they are confidential.

Correspondence and memos document Edelman's political activities, from his own campaign fundraising, to assisting other Democratic candidates. The bulk of the material is from 1975 to 1988 and other than some correspondence scattered throughout the sub-series, does not particularly highlight Edelman's political positions. Instead, the materials document event planning for various fundraisers, both for Edelman and for other candidates. The memos, correspondence, and lists are logistical in nature rather than political, and the fundraising material often includes copies of bulk mailings. Additionally, routine financial campaign statements make up about half of the material documenting Edelman's campaigns. There are, however, a few reports analyzing campaign results. Edelman's own Individual Staff files contain a small amount of additional material on his campaigns.

Of the presidential campaigns in which Edelman was involved, the Carter campaigns are the best documented. Correspondence, meeting agendas, and memos highlight his interaction with the campaigns.

Memos, correspondence, and articles spanning Edelman's entire career provide some insight into his role in ongoing efforts to reform political campaign practices.

Material in the Assorted files varies from copies of economic conflict statements filed by Edelman to material on campaign regulations, to political cartoons.

Processing/Arrangement Note:

Some of the political material seems to have been filed in two different places in the main Office Files by Edelman's staff: "Third District: EDE" and "Political Affairs." Some material specifically related to Edelman's re-election campaigns was filed under "Third District." In contrast, material put into "Political Affairs" was more general in scope. However, the bulk of the political material seems to have been treated differently than most of the Office and Staff files, and may not actually have been part of the general files for much of Edelman's career. For example, it appears that a great deal of the fundraiser/campaign events files were maintained by one of the secretaries (Frances Rhodes), separately from Office or Staff files. And, most of the

political material does not have filing terms written or typed on it. Despite this, Edelman's office did box political material together when they sent it to the basement.

Most of the campaign material from Edelman's first supervisorial run is filed under the City Council record group. Exceptions are when a folder contained material from before and after his election to the Board of Supervisors. These folders are with the Political Affairs materials.

444:1-444:2	Task Forces/Boards, 1981-1993

More than half of the Probation Department sub-series documents Edelman's efforts to determine the need, to then establish, and finally to support a viable program that would reduce gang violence in the County. Reports, correspondence, memos, transcripts of hearings, and newspaper articles all provide insight into the creation of, and sometimes problematic administration of, the resulting Community Youth Gang Services Project (CYGS). The bulk of the gang material spans from 1980 to 1988. Chronological files of the department also chronicle the gang issue, but in addition, provide information on the department as a whole. About a third of the sub-series highlights funding, reduction of overcrowding, and administration of the County's juvenile halls. The discharge and reinstatement of Chief Probation Officer Kenneth Kirkpatrick is well documented through correspondence and memos.

Individual Staff files of Jim Miyano and Dan Farkas provide additional and complementary documentation on gangs and CYGS. Robert Geoghegan and Richard Callahan also have further material, but their files are not as rich as the other two deputies'.

Correspondence and memos document the interactions between Edelman's office and the Public Administrator and Public Guardian. The sub-series contains many constituent letters, including correspondence that alleges fraud in the Administrator's department. The Guardian Circle and ASPA materials document awards Edelman presented to members of both organizations.

In 1987 the functions of the Public Administrator were transferred to the Treasurer-Tax Collector and those of the Public Guardian to the Mental Health Department. Despite this, Edelman's office staff continued to file material related the Public Administrator/Public Guardian under this heading. Although there is a small amount of material found in the Treasurer/Tax Collector sub-series.

For additional material on conservatorships, see the Individual Staff files of Mark Slavkin.

447:3-450:7 Alternate Defense, 1981-1994
450:8 Conflicts Administrator, 1983

Correspondence and memos document the administration of public defense in the County, both by the Public Defender's Department and by private contractors. Correspondence (much of it with attorneys and judges) and staff memos make up the bulk of the sub-series, although there are contract proposals for alternate defense programs as well. In addition, the consideration and eventual establishment of the Alternate Public Defender's Department is documented through memos and correspondence.

Both Robert Saltzman and Jim Petzke have additional material on public defense issues in their Individual Staff files.

454:4 Volunteers, 1980, 1983
454:5 Proposition 13 Effects, 1979

Chronological files make up the bulk of the Public Library sub-series and include memos and correspondence documenting the Library's budgetary needs, its services, and its constituents. Specific correspondence and memos on the budget date only from 1994 and from 1979, when Edelman's office was examining the effects of Proposition 13. Material on individual libraries relates to facilities as well as programs and services.

Unlike other large sub-series in the Office record group, the Chronological files for the Public Social Services Department do not span Edelman's entire time on the Board but instead date from 1984 to 1994. In general, very little material in this sub-series dates from before 1984. Administration files deal with departmental funding, problems with field offices and staffing, as well as issues concerning contracting out.

More than half of the Public Social Services material documents Edelman's ongoing efforts to address homelessness in the County. Transcripts from hearings he convened, memos, reports, correspondence, press clippings, court records, and press releases provide insight into his approach to the problem. In addition, Edelman's interactions with multi-agency groups and local organizations are also well documented through correspondence and memos. Although DPSS was the lead department to handle homelessness, the sub-series of the Mental Health Department, Health Services Department, and Community and Senior Citizens Services Department all have additional materials on the Homeless. Furthermore, there are transcripts of hearings and reports in the Office Files: Transcripts/Reports sub-series.

The administration of the General Relief program in the County is also addressed in this sub-series. Correspondence, memos, court records, and reports document the struggle to determine the amount of General Relief payments as well as the best way to distribute them and deter fraud. There is some material highlighting welfare reform, but the bulk of the records deal with general relief payments.

Job training programs are documented through memos, reports and correspondence. AFDC programs "GAIN" and "CETA" as well as local county work programs are addressed throughout the Public Social Services Department materials.

Individual Staff files of both David Glascock and Jonathan Freedman provide additional material on the administration of the department. Susan Loewenkamp's files also contain administrative materials, but also include further documentation on departmental programs and issues.

Correspondence, memos and reports document the varied functions of the Public Works Department, which was established in 1985 by combining previously separate departments: Roads, Flood Control, and County Engineer. Throughout this sub-series, public safety, the environment, and development are recurring themes. In addition, the materials highlight the department's cooperative efforts with constituents, organizations, local municipalities, state agencies, and other County departments.

More than a third of the sub-series highlights projects and issues related to the previously independent Roads Department, which not only includes funding, maintaining and constructing roads, but also parking and underground utility districts. Correspondence, memos, reports, and newspaper articles thoroughly chronicle the department's work in these areas. Because Roads are intrinsically linked to transportation issues, there is some cross over between the DPW sub-series and the much larger Transportation sub-series.

The second largest group of material is Aviation. Correspondence, memos, reports, and newspaper articles document the County's involvement in expanding and acquiring airports. As with most of this sub-series, development and public safety are commonly addressed in the material. Constituent correspondence is also well represented. Task force reports, memos, and correspondence highlight efforts to effectively transfer the area's aerospace industry from military to civilian uses.

Construction and funding through special benefit assessment districts and are the two main areas documented in the Flood Control materials through memos, correspondence, reports, and maps. A 1983 Thomas Guide with superimposed Los Angeles County Flood Control District lines is particularly informative. The map shows completed projects as well as planned ones.

Throughout, one can find departmental progress reports on specific projects in the Third District.

Individual Staff files of the following staff members have additional material on the Public Works Department: Kerry Gottlieb, Alma Fitch, Susan Loewenkamp, Jonathan Freedman, and Richard Callahan. In the Office Files: Alpha, form letters to and from constituents document concerns about Parks budget in general (1991), as well as plans for Pan Pacific Park (1989).

Publications (1975-1994)

Box and Folder

495:1-496:3 Assorted, 1975-1994

Memos, correspondence, clippings, and newsletters provide some information on subscriptions Edelman had, press interviews he gave, and relationships with publishers. The sub-series is not extremely cohesive, and may have been a catch all filing term. For example, a handful of press releases from 1982-1983 are filed here, while most of them were maintained together by the Press Deputies (see Staff: Press). There are also a few political newsletters in this sub-series, but the majority of Political materials are in the Political Affairs sub-series.

Purchasing and Stores (1974-1986)

Box and Folder

496:4-496:6 Assorted, 1974-1986

Purchasing and stores became part of the Internal Services Department in 1989. There are only two files in this sub-series. One contains correspondence, memos and reports regarding the County's Capital Leasing corporation (1974-1986). The other file has a few letters and clippings

exposing problems with Purchasing and Stores Bell Warehouse (1982).

Regional Planning Department

Although a separate department, Edelman's office filed Regional Planning Department material with the Regional Planning Commission. See Office Files: Commissions.

Chronological files provide some insight into the administration of the Registrar/Recorder Department through memos and correspondence. However, only a small portion of the Recorder/Registrar sub-series documents the activities of the department. Instead, the bulk of the material is more political in nature, and includes memos, correspondence, newspaper clippings, legal and fiscal analysis, and staff notes highlighting propositions Edelman opposed or supported. Of these, initiatives involving tax revenues are the best documented (Propositions 13, 13, 13, and 13). Material on Proposition 13 also includes memos, correspondence, and clippings highlighting the repercussions of the proposition for the decade after it was passed. Press conferences Edelman held, community organizations working for or against the propositions, and constituent viewpoints are all well documented in this sub-series. Some files of individual staff members (John Freedman and Marshal Langberg) are included in the Alcohol Tax Initiative materials, as well as folders providing background information on earlier alcohol initiatives. Additional Proposition material can also be found within the Political Affairs, the Assessor, State of California, and County Government sub-series in the Office Files, as well as in the Individual Staff files of Robert Geoghegan.

While Edelman's political work on initiatives and propositions is well documented, there is far less material identifying the stand Edelman took on a number of local ballot measures. Except for 1994, there is no material from the last 10 years he served on the Board.

Processing Note

Edelman's office filed material relating to Propositions in a number of different ways. Many propositions are filed within the department that they might effect (for example Health related Propositions are within the Department of Health Services). In other cases, material was coded to be filed with the State, but eventually those documents were put in files with the Registrar. During processing, Proposition related material coded for both the State and for the Registrar was organized under the Registrar, since that is where the majority of Proposition materials were listed on the office filing "Subject Classification" list.

Also, when Proposition material was sent to the basement for storage, staff files and office files were merged together. Instead of trying to break out various staff member's files, this overall grouping was maintained.

In the Office Files, the Registrar/Recorder was not filed within the overall alphabetic order of departments and issues. Instead, it was in a cabinet with office supply records, telephone logs, and the Superintendent of Schools. It was placed within the overall alphabetic structure during processing.

515:9	Pilgrimage Cross, 1979-1985

Most of the Religion sub-series is correspondence with, and memos and articles about, religious organizations in the Los Angeles area. The Archdiocese of Los Angeles is well represented, and the files include many letters from Cardinal Roger Mahony.

The separation of church and state issue raised by both the Pilgrimage Cross lawsuit and use of County facilities by religious organizations, is also well documented here in the Religion sub-series, as well as in the Individual Staff files of Robert Saltzman.

519:1	Traffic, 1988-1991
519:2-519:3	Transit Proposals, 1986-1991

Constituent correspondence, reports, brochures, and memos arguing for and against the development of a monorail system in the San Fernando Valley make up the bulk of this sub-series. General transportation proposals for the area are also found here. Most of the material dates from the late 1980s to 1994.

This heading seems to have been created in the late 1980s. Some San Fernando Valley transportation material is also found in the broader sub-series Transportation, as well as in Richard Callahan's Individual Staff files.

525:7-525:8	Sewer Service Charges, 1978-1985, 1990-1994
525:9	'To File' 1990-1991

Reports, correspondence, memos and some minutes provide insight into the work of the Sanitation Districts as they addressed the County's waste issues. The sub-series contains a fair amount of constituent correspondence, particularly in reference to hazardous and toxic waste, as well as newspaper articles scattered throughout. Of the individual Landfills/Dumps, Monterey Park and Elsmere Canyon have the most material.

Solid and hazardous waste issues were also sometimes filed in the Health Services Department, Environmental Services Division. For additional material on Recycling, see the Energy sub-series.

Correspondence and memos provide insight into people and organizations to which Edelman presented scrolls of commendation. Letters sent to scroll recipients (1975-1976) and thank you notes make up the bulk of the sub-series. There are very few photographs, despite the heading. Large groups of photographs are in the Office Files: Third District as well as the City Councilman record group.

About one quarter of the Sheriff's sub-series addresses correctional facilities in the County, from construction, to overcrowding, to inspections. The expansion of the Central Jail is particularly well documented through correspondence, reports, and memos. Conversely, there is very little documentation of special programs administered by the department, nor very much on Sheriff's stations.

Edelman's interest in developing a responsive and more efficient Sheriff's Department is evident

throughout the sub-series. Transcripts and memos on hearings he held to examine Police Shooting practices (1977) are filed here, but also in the City of Los Angeles sub-series in the Office Files. Memos, correspondence, and motions document Edelman's efforts to appoint a Special Counsel to review the operations of the Sheriff's Department (Judge James G. Kolts) as well as his interest in implementing Kolts' recommendations. See the Individual Staff files of Rich Llewellyn for further material on the Kolts Report, including copies of the report itself.

Examination of the pros and cons of merging the Sheriff's department with the Marshal and then later with Harbor Patrol is also documented in this sub-series. See Beaches, Small Craft and Harbors, and Marshal in the Office Files as well as Richard Llewellyn and Richard Saltzman's Individual Staff files for additional material on proposed mergers.

Budget questions, general administration of the department, lawsuits, staffing issues, safety of deputies, and the effects of possible mergers are all highlighted in the Chronological and Personnel materials through memos, correspondence, and reports. The Individual Staff files of Alma Fitch provide additional insight into the administration of the Sheriff's Department.

The bulk of the Small Craft Harbors sub-series is correspondence, memos, reports, and newspaper articles documenting the contentious leasing policies for Marina del Rey.

Small Craft Harbors merged with the Beaches Department in 1984. For later material, see Office Files: Beaches.

 549:2 Coalition for Clean Air, 1981-1986
 549:3 Politics of Air Pollution, 1977
 549:4 News Articles, 1976-1981

Almost half of the SCAQMD sub-series is chronological files, and nearly a quarter is material on the annual vehicle inspection program. In the chronological files, as well as in most of the sub-series, the struggle to establish and implement air pollution controls in Southern California is documented through memos, reports, news articles and correspondence with environmental organizations, other local governments and agencies, and constituents. The decade-long process to develop, implement, and enforce annual vehicle inspections, is highlighted in memos, correspondence and motions.

The correspondence and memos in this sub-series provide insight into Edelman's stand on the air pollution issue, but letters also show the opinions of his constituents, especially in regards to the Rialto Power Plant. Various organizations' interests are also clearly documented through correspondence. Both the Coalition for Clean Air, and SCAG figure prominently in the sub-series.

Material for the precursor organization to SCAQMD, Air Pollution Control District (APCD) is filed under the SCAQMD heading.

 555:3-555:4 Regional Institute of Southern California, 1985-1991
 555:5 Assorted Publications, 1993-1994

Reports generated by SCAG are scattered throughout this sub-series. Staff memos and CAO analysis of the SCAG reports and proposals make up the bulk of the material.

Memos and correspondence document the proposed reorganization of SCAG as well as its efforts to establish a Hazardous Waste Management Authority. While the planning goals of SCAG are well documented through its reports on growth management, housing and transportation, the work of other regional coalition planning groups is also highlighted in the

sub-series. There is some material on the Regional Institute of Southern California, but The 2000 Partnership is better documented and is the second largest group of material in the SCAG sub-series (the largest is Chronological). Reports, memos, correspondence, minutes, and newspaper articles provide detailed information on the implementation and strategic planning efforts of this coalition group of public and private entities.

For additional material on the County's specific regional planning projects, see the Regional Planning Commission in the Office Files: Commissions.

558:9	Ticket Scalping, 1986

Very little material in the Sports sub-series dates later than 1988. The bulk of the sub-series is correspondence and memos regarding the logistics of hosting the 1984 Olympics in Los Angeles, including housing, traffic, public safety, and air pollution. In addition, a 1985 report describes community athletic programs to be funded with surplus 1984 Olympics funds. Additional and complimentary material on the Olympics is in the Individual Staff files of Alma Fitch and Robert Saltzman.

Most of the Chronological files is correspondence with, and reports on, the Amateur Athletic Sports Association, although other groups are represented as well.

In the Dodgers material, correspondence and tally sheets record which organizations received free tickets for Youth Community Night at Dodger Stadium. Raiders materials document efforts to keep the Raiders National League Football team in Los Angeles.

 574:6-574:13 Assorted, c.1975, 1993
 574:14-574:16 'To File' 1987-1991

Most of the State material is correspondence and memos, which document Edelman's work with elected State Officials as well as State Departments, Boards, Commissions and Task Forces. Much of the material in Elected Officials and the Legislature files is congratulatory letters sent by Edelman on the occasion of successful election or re-election. However, correspondence regarding legislative bills, funding for the County, and other County related issues is also present. Some of the correspondence filed under "Senators" includes United States Senators. Additionally, while Edelman's office established distinct headings for "Senate" and "Senators," (and for "Assembly" and "Assemblymen") there seems to be no difference in the material filed under the legislative body versus the legislators.

The largest group of material filed in State Departments is memos, correspondence, and reports on the El Pueblo State Park. Parking issues for the park are addressed throughout the material, as well as how best to use the park. Additional material on development of El Pueblo is in the Staff Issue files.

The bulk of the Initiatives material is on Gun Control Legislation, and includes memos, correspondence and newspaper articles. Detailed plans for the Los Angeles County Tobacco Control Program (1988), to be funded by tobacco tax funds, are filed with the Cigarette Initiative. For further documentation on state initiatives, see the Registrar/Recorder sub-series in the Office Files, as well as Individual Staff files of Robert Geoghegan.

Lobbying expenditure reports make up the bulk of the Chronological files for this sub-series, and date between 1991-1993. The Chronological files also contain correspondence and memos on general State related issues.

Throughout the State materials, there are reports and recommendations made by the Chief Administrative Officer on legislation and the state budget and their impact on the County. In general, the sub-series contains many small folders of memos and correspondence that provide only some insight into a wide range of state related issues and topics, with reports scattered

throughout. Additionally, quite a bit of the State of California sub-series contains gaps between the late 1980s and the early 1990s.

Memos, correspondence, and reports document the relationship between Edelman and various educational boards and organizations in the county. Most of the material is Chronological files of the Board of Education and of Schools in general, and highlights various programs and efforts to improve schools in the region, including funding. The Board of Education materials are catch-all files for education related issues in general, not just the Board [the elected governing body of the schools], and actually include correspondence from the Office of Education [carries out the administration of the schools] as well.

Although this sub-series is titled "Superintendent" there is actually only one file on the Superintendent.

Processing Note

In the Office Files, Superintendent of Schools was not filed within the overall alphabetic order of departments and issues. Instead, it was in a cabinet with office supply records, telephone logs, and the Registrar/Recorder. It was placed within the overall alphabetic structure during processing.

Correspondence and memos highlight Edelman's contact with Radio and Television stations throughout his career as a Supervisor. Invitations for Edelman to speak, to appear, and or to comment on political issues are scattered throughout. In addition, there are many copies of editorials aired by the stations to which Edelman responded. Letters from both television and radio stations document projects for which they were seeking Edelman's support or for which they needed funding.

Material on Cable Television provides insight into the County's handling of franchise issues, and includes many constituent letters. Also, reports by the Internal Services Department document the administration of franchise contracts.

Possibly due to the complex nature of the Transportation issue itself, Edelman's Office staff did not have a clear-cut filing system for Transportation related materials. This is particularly true of mass transit issues. Headings such as Light Rail, Metro Rail, Mass Transit, Heavy Rail, and Los Angeles Riverbed all address public mass transportation through correspondence, memos, reports, and clippings. Documentation of the region's consideration, funding, and construction of light rail lines can be found in both the Metro Rail group as well as the Light Rail group. Generally, the Metro Rail material provides insight into the construction and development of the overall light rail project, while the Light Rail material documents specific lines. (San Fernando Valley Light Rail was not filed with Transportation. It is a separate group in the Office Files). Other types of mass public transit than light rail are addressed in the sub-series Mass Transit, Los Angeles Riverbed, and Heavy Rail.

Edelman's involvement with and the activities of both RTD (Rapid Transit District) and LACTC (Los Angeles County Transportation Commission) are well documented in memos, correspondence, and reports. The bulk of the RTD material specifically highlights bus transportation (from bus types, to bus-drivers, to bus routes) while the LACTC material provides insight into the management of transportation funding and planning generally. Material on the reorganization of RTD and LACTC can be found in both the RTD and LACTC files. The resulting MTA (Metropolitan Transportation Authority) is one of the smaller groups in the Transportation materials, probably because it was established in 1992.

The interagency nature of the Transportation issue is well documented through correspondence between Edelman and his staff, LACTC, RTD, the Public Works Department, neighborhood groups, the State of California, and other local agency groups. Such correspondence, is

scattered throughout the Transportation materials. In addition, numerous reports generated by multiple groups together highlight the multi-agency concern for transportation issues.

Edelman's Chief of Staff Robert Geoghegan was the lead staff member on most Transportation related issues. His working files on Route 2/Santa Monica Blvd. are here in the Office Files (Route 2/Santa Monica Blvd. is filed with Freeways) as well as his work on Mass Transit issues when Edelman first became Supervisor.

Individual Staff files with related material include: Richard Callahan (SFV Light Rail and Metro Rail); Robert Geoghegan (Velloway); and Susan Loewenkamp (General Transportation).

655:10	Collection Agencies, 1984-1987

Correspondence and memos document tax collection and administration of the County's retirement programs. The bulk of the sub-series is chronological files for the Department, the Los Angeles County Employees Retirement Association, the Board of Investments, and the

Board of Retirement. About half of the chronological files for the Department is correspondence regarding constituent property and personal tax disputes and bulks from 1990 to 1994. Similar property tax dispute material can also be found in the Assessors Office sub-series in the Office Files. The Department's administration difficulties, and efforts to improve efficiency, are highlighted in reports by the Productivity Commission, as well as in the Department's Chronological files.

The County's reaction to the South Africa Divestment controversy is well documented through memos and correspondence.

Correspondence, memos and reports detail the County's retirement policies and their administration by the Boards of Investment and Retirement. Minutes from a few Board meetings are in this sub-series. Letters in which Edelman asks individuals to serve on the Boards are scattered throughout the retirement material, as well as some correspondence with unions, employee groups, and individual employees.

Although most Public Administrator material was filed under the heading Public Guardian/Public Administrator by Edelman's office, there are two folders here. One provides some information on the Treasurer's function as Public Administrator and the other documents awards present by Edelman to members to the local chapter of the American Public Administrators Association (similar material can be found in the Public Guardian/Public Administrator sub-series).

The Treasurer and Tax Collector functions were merged in 1984, and Edelman's Office filed the precursor department's material with the Treasurer. Correspondence and memos document the Department's efforts to collect tax payments, as well as the consideration of contracting out with collections agencies. See Jonathan Freeman's Individual Staff files for a packet of material on tax collection.

660:1	Whittier College School of Law, 1980-1994

More than half of the Universities and Colleges sub-series is memos, correspondence, catalogs, and reports regarding UCLA and nearly a third is similar material on USC. For both universities, the material highlights Edelman's relationship with various departments and campus organizations, his effort to assist constituents, his involvement with long range planning, and his attendance at a variety of conferences sponsored by the two universities. Memos and correspondence also provide information on conferences in which Edelman participated at

Whittier College School of Law and the establishment of better bus service to UCLA.

There is little material on the Los Angeles Community Colleges, but correspondence and memos provide some insight into their funding and a variety of their programs and concerns.

For information on Medical schools, see the Department of Health Services in the Office Files.

665:4-665:7	Los Angeles City Department of Water and Power, 1976-1994
666:1	Utility/Business Taxes, 1989-1994

The majority of the Utilities sub-series is files on Southern California Edison, Southern California Gas Company, and various telephone companies. Publications, annual reports, memos and correspondence provide insight into projects by the companies, their financial status, conservation and environmental issues, and rates and fees. Correspondence, memos, articles and reports provide some insight into the County's efforts to obtain and maintain clean water, as well as the advice and opinions of advisory groups.

Although a City of Los Angeles department, Department of Water and Power material was filed under the general heading of Utilities. The DWP material documents constituent complaints and utility projects through memos and correspondence.

The examination of potential Utility and Business License taxes as revenue sources is documented through memos, motions, and correspondence. Additional material on this potential revenue is in the Individual Staff files of Robert Geoghegan.

674:1-674:2	June Sherwood's Violent Crimes Files [Staff], 1980-1981

Memos, correspondence, press releases, motions, and statistical reports document Edelman's work in finding ways to reduce violent crime. Most of the sub-series dates over a two year period (1980-1981) and there is very little material later than 1989. The correspondence in this sub-series is with community organizations, local governments, task forces and commissions, and constituents. In addition to transcripts of hearings Edelman convened on violent crime, the sub-series contains a fair amount of research material used by Edelman to define his "14 Point County Action Plan" (1981) to reduce violent crime. A transcript reporting on two 1991 board meetings held on juvenile crime can also be found in this sub-series.

Files of staff member June Sherwood were filed here by Edelman's office. Her files document crime issues in general, but also provide information on an earlier community conference that led to the larger 1981 Violent Crime hearings held by Edelman.

The sub-series contains one single document regarding non-violent crime. It is a letter notifying the State that the Board of Supervisors supports Senate Bill 1698 (1982), which provides for a one-year jail sentence for people who procure for prostitutes.

Gang violence related materials were mostly filed under the heading "Probation" by Edelman's office. Also, the Domestic Violence Council material was filed under Community and Senior Citizen Services Department. Additionally, see Greg Curtin's Individual Staff files for some documentation on the "Three Strikes Your Out" violent crime initiative.

at various volunteer recognition events.

Commission files range greatly in richness, from clearly documenting the work and issues of a commission for the entire time Edelman was Supervisor, to merely listing who was appointed to the commission for a single year. Quantities range from one item to more than thirty boxes; however, the majority of the commissions are documented with one large folder of material. In general, memos, correspondence, reports, recommendations, some agendas, and even fewer minutes, provide insight into the work and recommendations of most of the commissions. In addition, the establishment and/or disbandment of some commissions, as well as their powers and policies, are also addressed. Routine correspondence throughout documents who Edelman appointed to serve as commissioners.

A number of commissions for which Edelman served as chairman have significantly larger amounts of material than most. For the most part, the material filed under these particular commissions provides little insight into the activity of commissions themselves, but rather general topics related to their duties and purposes.

The two commissions with the greatest amount of material (Regional Planning Commission and the Music and Performing Arts Commission) together comprise about half of this sub-series overall. The largest, almost one third of the sub-series overall, is the Regional Planning

Commission ([RPC] 1963-1994, bulk 1975-1994). Edelman's office used the RPC file heading to organize all planning related materials, not specifically that of the commission. As a result, Regional Planning Department material is also found here, both scattered throughout, and filed separately. The RPC files clearly highlight the delicate balancing efforts of Edelman and his staff as they worked with County departments and agencies, constituents, developers, businesses and organizations to find ways to best address the planning needs of the region.

While reports, memos, correspondence, and some clippings provide insight into the overall general planning policies for the County and how they were developed, the bulk of the RPC material documents how zoning ordinances and codes were implemented (See the Office Files: Southern California Area of Governments for better documentation on general regional planning). Constituent correspondence with individuals, businesses and community organizations, memos from staff and related departments (Public Works and Facilities in particular), and analysis by County Counsel all shed light on how specific codes were enforced and sometimes how they were established (Noise, Parking, and Subdivisions in particular). Similar material provides insight into large complicated projects and neighborhoods such as Malibu's sewer system and land slide threats (see the Staff Issues files for additional material); MCA/Universal Studios noise and traffic levels; and the battle between developers and conservationists over the Santa Monica Mountains. The role Edelman's office played in resolving many of the zoning, code and development disputes is documented through correspondence and memos. Additional RPC material is in the Staff Files of Richard Callhan.

The second largest group (nearly one quarter of the Commissions sub-series overall) in is the Music and Performing Arts Commission (MPAC) (1974-1994). This sub-series highlights arts related material in general, and in fact does not contain very much on the Music and Performing Arts Commission itself. The best documented issue in the MPAC material is the Music Center. Twenty years (1974-1994) of Chronological files of memos, correspondence and reports provide insight into the administration of the Music Center Operating Company. Expansion projects and management of the buildings for the Center are also well documented through memos, correspondence and reports. In particular, the negotiations and planning for the Disney Center addition is solidly documented. There is a significant amount of material on the Los Angeles Philharmonic, providing insight on its programs, its funding issues, and its working relationship with Edelman. In addition to memos and correspondence, Chronological files on the Hollywood Bowl include many reports, documenting its administration difficulties. Acquiring, planning and developing the Highland Camrose Bungalows near the Hollywood Bowl are all highlighted in reports, correspondence, and memos. The Public Works Department's involvement with their development is clearly defined. (See Individual Staff files of Alma Fitch for additional arts related material; Individual Staff files of Frankye Schneider for more material on the Hollywood Museum; and Staff Issues files for further documentation on the Highland Camrose Bungalow project).

Three additional Commissions stand out from the many Commissions in this sub-series: Status of Women Commission/Women's Commission (1971-1994, bulk 1975-1994); the Community Development Commission; and the Local Agency Formation Commission (1976-1994).

The Status of Women Commission (later named Women's Commission) was created by Edelman

to make recommendations regarding discrimination and women's welfare. Its establishment is well documented in memos, correspondence, and resolutions. Memos and correspondence document a variety of the Commissions recommendations and projects, including women's health. While there is very little material on the controversial anti-pornography ordinance it put forward in 1984, there is a great deal of correspondence regarding constituent support of commissioners. In addition, numerous memos and clippings highlight the politics and personality problems of the Commission. See the Individual Staff Files of Jim Gilson and Frankye Schneider as well as Office Files: Board of Supervisors, for more documentation on the Anti-Pornography Ordinance, 1984-1985.

Another relatively well-documented Commission is the Community Development Commission (1975-1994). Correspondence, reports and memos document the administration of Commission. Requests for funding, project reports, memos and correspondence provide some insight into its functions as the designated distributor of federal community block grant funds, although such material is actually found in many sub-series of the Office Files, particularly the Community and Senior Citizens Services Department. Also, the Individual Staff files of Richard Callahan and Richard Llewellyn have additional community development block grant material. Community Redevelopment Agencies (CRAs) correspondence is filed here. The letters between the CRAs and the County, various cities, and other local agencies, highlight the agreements worked out between the various governmental agencies and the CRAs. The Community Development's Commission's activity as the Housing Authority is documented through memos and correspondence. The administration of the Housing Authority, as well as constituent requests for Section 8 funding, are the two main areas addressed. The bulk of Housing related material in the Edelman Papers is not in the Commission files, but instead is in the Office Files under Housing.

The third Commission with significant documentation is the Local Agency Formation Commission (LAFCO), which considers the viability of communities' to incorporate. Background packets made for Edelman provide insight into his stance on a variety of incorporation issues. In addition, memos, correspondence, reports and clippings on specific incorporation efforts greatly detail the community feelings regarding incorporation, the County's position, Edelman's opinions, and the media's representations. These incorporation efforts include: East Los Angeles, Calabasas, Diamond Bar, Malibu, Marina, Santa Clarita and West Hollywood. As with other larger Commissions, very little of the material was generated by the Commission itself. Additional material on the West Hollywood incorporation effort can be found in the Individual Staff files of Robert Saltzman and Jim Gilson and in the Staff Issue files. Malibu's incorporation is also further documented in the Staff Issue files.

Individual Staff files with material on other commissions include: Richard Llewellyn (Boundary Committee), Jennifer Roth (Aerospace Task Force), Kerry Gottlieb (Landslide Committee, and James Petzke (AIDS Commission).

Arrangement Note

Edelman's office staff apparently separated Commissions for which Edelman had oversight/Chair duties from the main alphabetically sorted Commissions Files. As his chairmanships changed, these separated commissions changed in the filing cabinets. In processing the Edelman Papers, it

was not possible to reflect this changing organization. All Commissions have been filed alphabetically into one group. The previously separated commission files were: Civil Service Commission; Coliseum Commission; Community Development Commission; Economy & Efficiency Commission; Employee Relations Commission; Local Agency Formation Commission; Music and Performing Arts Commission. The largest Commission, Regional Planning, was indeed within the larger alphabetic structure.

The bulk of the Alpha files is letters sent to and received from individual constituents. Mostly the letters are arranged alphabetically and annually by last name, but some correspondence is also grouped by issue. Also, the files include bulk mailings Edelman received from particular constituencies (such as those concerned with Mental Health Funding).

In the "Various" sub-groups within the Alpha files most of the outgoing letters are form letters. As a result, not all of the correspondence is with constituents. There are also letters to members of the board, organizations, commissioners, etc.

Constituent correspondence is scattered throughout the Office Files, and by no means does the Alpha material give a full picture of Edelman's correspondence with his constituents. However, the Alpha sub-series does provide a concentrated window into Edelman's constituency and their concerns for the last few years of his final term as Supervisor.

West Hollywood Constituent cards filed with Alpha are 4x5 index cards filed by last name of constituent. The cards include dates of contact and what the constituent's complaints or requests were about.

834:1-834:3 Women's Health, 1980-1987

Separately filed reports and transcripts of hearings document a few of Edelman's central concerns. The transcripts are mostly of hearings that Edelman convened. The reports were generated by various commissions, task forces, and departments. There are multiple copies of many of the transcripts and reports.

Arrangement Note

These transcripts of hearings and reports were not filed with their related Departments, but were mostly sent as a group to the basement for storage. During processing, it was decided not to try to distribute them to departments, but to leave them as a group. Transcripts/Reports was not a heading in the original "Subject Classification" list used by Edelman's office.

Fifth District Supervisor, Los Angeles County Board of Supervisors: Staff Files: Individual Staff

NOTE: Folder quantity refers to number of original folders. Final folder count (after all re-boxing and foldering is complete) may actually be higher, if original folders needed to be split due to their size.

Dates following staff title (ie Press Deputy, or Assistant Deputy) are approximate time span the person worked for Edelman.

Bachman, June

Field Deputy, San Fernando Office, 1982-1991
(1 folder)

Box and Folder

838:1 Medfly (Malathion), 1989-1990

Memos, news bulletins, clippings, and a map provide some information on the County's reaction to the medfly problem (1989-1990). The folder contains only one memo and one note written by Bachman; the rest of the material was received by her.

Bellman, Joel

Press Deputy, 1989-1993
(3 folders)

Box and Folder

838:2 Alcohol Tax Initiative, 1989-1990
838:3 Significant Ecological Areas, 1989-1991
838:4 Whistleblowing, 1991

Memos, campaign material, press releases, correspondence and clippings document Bellman's work as Edelman's liaison on the Alcohol Tax Initiative Committee (1989-1990). Edelman's effort to strengthen the County's protection and management policies for Significant Ecological Areas is documented through motions, memos, and clippings, including memos drafted by Bellman (1989-1991). In a file on Whistleblowing (1991), memos received by Bellman from co-worker Kerry Gottlieb highlight employee accusations of corruption in the Public Works Department.

Callahan, Richard

Assistant Deputy, 1984-1990
(79 folders)

Box and Folder

839:1-839:9 Affirmative Action, 1981, 1985-1988

839:10-840:2 Auto Insurance, 1984-1988
840:3 California Desert Protection Act, 1989
841:1-842:2 Community Development Commission and Block Grants
842:3 Dependency Courts
842:4 Gangs, 1986-1988
843:1-843:18 Public Works Department
843:19-843:20 Regional Planning Commission
844:1 Sheriff
844:2-848:2 Transportation

Memos, correspondence, clippings, reports, statements, and notes in Richard Callahan's files document only some of the areas for which he was responsible. The largest groups are Community Development, Public Works, and Transportation. Callahan's Community Development and Public Works files are mostly project specific, whereas his Transportation files are more planning oriented and include material on the reorganization of LACTC and RTD, Metro Rail, and San Fernando Valley rail planning.

Documentation on other issues Callahan worked on include: affirmative action problems with the Health Services Department and controversy around its comparison report on affirmative action programs in the County 1987-1988 (the report is in Office Files: Affirmative Action Officer); reforming auto insurance practices; support for desert protection legislation; fundraising and construction for Children's Court (Dependency Courts); gang reduction programs and planning; implementation of alcohol Conditional Use Permits and Twin Lakes development (Regional Planning Commission); and the possible use of a fingerprint computer database (Sheriff).

Arrangement Note

Within each sub group, the folders are in original box code order.

Processing Note:

Some of Callahan's files were part of material related to issues of Minorities, Immigration, Human Relations Commission, Affirmative Action and SCAG (Southern California Association of Governments) that was found together in two boxes: B/042 and B/217. The material was a combination of Office files and Individual Staff files. Out cards for most of the folders were found in many of the corresponding Office Files series noting that the folders had been pulled "for County Counsel/ Reapportionment, January 27" (no year noted). During processing, the Office Files were returned to their original placement, and Staff Files were grouped with each Staff member's material. Please see the Appendix for a list of these files.

Canup, William (Bill)

Assistant Chief Deputy, 1974-1979
(4 folders)

Box and Folder

849:1-849:6 Detoxification of Public Inebriates, 1976-1977

Memos, motions, correspondence and reports provide background information on a hearing held by Edelman in March of 1976 on homeless alcoholics (1976-1977). Canup's files also include statements of hearing participants. In addition, memos, clippings, reports and correspondence highlight the research and planning involved in applying to the California Council on Criminal Justice for funding a rehabilitation program in Skid Row. The project application is also in Canup's files.

Cox, Richard (Rick)

Press Deputy, 1974 Campaign For Supervisor
(83 folders)

Box and Folder

850:1-850:55 Press Releases, August-October, 1974

851:1-851:24 Campaign Issues/Topics, 1974

851:25 Media Correspondence, 1974

851:26-851:28 Photographs, 1974

A significant number of folders in Cox's material are empty and all of his material dates from 1974.

Final versions of press releases are the bulk of Cox's files, although there are some drafts. Clippings, memos, and correspondence provide insight into Edelman's first campaign for Supervisor, including some memos on strategy and his earliest statements on Pan Pacific Park. During his campaign, Edelman alleged that his opponent (fellow councilman John Ferraro) took personal trips using public funds. Documentation to support this allegation is found in memos, informal reports, and correspondence, as well as statements on "Junketing John" that Cox drafted for release. Lists of media contacts, correspondence with media sources, and photographs are also in Cox's files.

Curtin, Gregory

[Staff Assistant ?], 1994
(4 folders)

Box and Folder

852:1 Child Support, 1994

852:2 Proposition 187, 1994

852:3 Violent Crime – 3 Strikes, 1981-1994

852:4 Voter Fraud/Register by Mail, 1994

Memos, correspondence, clippings, and motions document four distinct issues on which Curtin worked. A file on Child Support includes correspondence with Lockheed IMS, a possible contractor to process child support collections. Material on when and how to implement Proposition 187 (which, among other things, would make it illegal for undocumented aliens to enroll in public schools), or whether to file a lawsuit against it, also documents considerable constituent anger at the County for considering such a lawsuit. Curtin's file on Violent Crime includes many memos on the proposed budget for 1994-1995, in addition to material on the

“Three Strikes” legislation. The Board’s interest in preventing voter fraud is documented through draft legislation, memos, correspondence, and motions.

Edelman, Edmund

County Supervisor, 1974-1994

(32 folders)

Box and Folder

853:1-853:2	Campaigns
853:3-854:2	Propositions/Initiatives
854:3	Reapportionment
854:4-855:8	Speech Material

Files maintained for Edelman in his own office, these personal folders date only from 1978 to 1987. About half of the files are titled “Speech Material” and are background memos and reports on a variety of issues dating from 1984 to 1986; however, there are very few examples of actual speeches given by Edelman. In addition to the “Speech Material” files, there is a background speech file on President Ronald Reagan’s budget policies. The memos and research copies of clippings, newsletters, and articles provide insight into Edelman’s stand on Reagan’s economics.

Memos, clippings and reports on propositions and initiatives are the other half of Edelman’s files.

Much of this material documents Edelman’s opinions regarding Proposition 13, including outlines for a possible book on the proposition. Proposition 73 (campaign donation limits), alcohol initiatives, and the Gann Initiative are also all addressed.

Most of the material on Reapportionment is memos from County Counsel regarding reapportionment lawsuits, but also includes deposition transcripts and some notes by Edelman.

There are only two small folders on campaigns in Edelman’s files. One folder contains Third District election results compiled from 1975 to 1985; and the other is mailing lists, event coordination memos, and correspondence for Michael Dukakis’ presidential campaign (1988).

Farkas, Daniel

Deputy 1975-1979, Senior Deputy 1979-1980, Assistant Chief Deputy 1980-1982

(57 folders)

Box and Folder

856:1-858:2	Budget
858:3-859:2	Community Development
	Gangs
859:3-859:6	General
860:1-860:6	Hearing

860:7-860:8	Funding
860:9	Proposals

Crisis Intervention Network/Community Youth Gang Services

861:1-861:9	General
861:10-862:1	Director
862:2	East Los Angeles Interagency Coalition
862:3	Gas Crisis – 1979
862:4-863:5	Mental Health

About one third of Farkas' files are on the County Budget, and another third is on Gangs. His Budget files of memos and correspondence highlight Health Service Department curtailments and layoffs, various departmental responses to proposed cuts, and the Third District's general approach to the budget. Farkas' files on Gangs give a fairly complete picture of the process followed in developing a gang prevention program, from hearings, to proposals, to hiring the Community Youth Gang Services program director.

In Farkas' Community Development materials, memos, reports and correspondence document Third District projects and community organizations working in the Third District. Included is material on a UNO housing project and the revitalization of Whittier Boulevard.

A wide variety of topics are addressed in memos, correspondence and clippings in Farkas' Mental Health files, providing insight into the administration of the department overall. In contrast, his Gas Crisis folder contains only newspaper clippings.

Fitch started working for Edelman during his council re-election campaign in 1969. Before that, she worked as a deputy for Councilman John Ferraro (Edelman's opponent when he first ran for Supervisor). Her material spans both before and after Edelman was elected to the Board of Supervisors in 1974, and includes a few documents from when she worked for Ferraro. Fitch's files are one of the larger groups within the Staff Files.

The largest group of material in Fitch's files is Arts and Culture related. Correspondence, memos, reports, legal documents, and clippings all document various programs, organizations, and county facilities. Material on the Otis Art Institute and Parsons School of Design merger as well as the Art Museum are particularly coherent. Agendas and minutes are included in Fitch's Music and Performing Arts Commission files, and both her Ford Theater and Music Center files contain packets of correspondence and memos which predate Edelman's time on the Board. A folder on Pan Pacific Park ("Historical Landmarks") contains some of the earliest documentation of an issue that Edelman focused on over his entire career.

Political materials maintained by Fitch mostly document the financial aspects of Edelman's initial campaign for Supervisor and include financial statements and lists of contacts. Congratulation letters, thank you notes, and invoices make up the bulk of Fitch's material on Edelman's first campaign for City Council, and is similar to material in the much larger City Councilman record group.

The process of planning and transforming the Robinson Estate into a County park is well documented through Environmental Impact Reports and correspondence with the organizing committee. Not as well documented is the planning process for the 1984 Olympics. However, Fitch's Olympics file includes a detailed report from the City of Los Angeles titled "Responses to Questionnaires from the International Olympic Committee and International Sports Federations" (1978).

Processing Note

Because much of Fitch's files have the ubiquitous "FILE" stamp on them, as well as notes such as "my files" and "AF's file," it was not entirely clear whether the material was Office Files or Staff Files. Since most of the incoming correspondence was directly to her, and outgoing Edelman correspondence had her initials on it, it was decided that the material was indeed hers and not part of the general Office Files. However, two folders on the Natural History Museum from a box that was primarily Fitch's were arranged with the Office Files. This is because in

addition to having the red underline filing codes used by the Office during that time, they also have material to and from other staff besides Fitch in them. Those folders (original box codes B/382 a and b) went to Office Files: Museums.

Freedman, Jonathan

Assistant Deputy, 1985-1989

(74 files)

Box and Folder

	Health Issues
878:1-881:1	AIDS
881:2-884:2	Health Services Department
884:3-885:2	Drug Hearings
885:3	Fortified Wines
885:4-886:3	Mental Health Department
886:4-887:3	Constituents
887:4	Beaches and Harbors Department
887:5-887:6	Big Rock Landslide, Malibu, 1987-1989
888:1	Landfills
888:2-888:3	Public Social Services Department
889:1	Underground Storage Tanks
889:2	Youth Services Corps Hearings [National]
889:3	Assorted

Approximately three quarters of Freedman's files pertain to health related issues and departments. By far, the largest group of material is on AIDS. Memos, reports, notes, correspondence and clippings highlight Freedman's work with Edelman in addressing public AIDS policy, as well as the care of AIDS patients. Many letters provide insight into the programs and concerns of community organizations trying to combat the AIDS crisis. (Freedman inherited many AIDS working files of Jim Petzke).

Topics documented in Freedman's Health Services Department materials include further information on AIDS, the possible NME/USC/LAC management contract, the budget, and prenatal care. Transcripts, statements, and background memos highlight a 1989 hearing Edelman convened on drug treatment shortages in the Los Angeles area. In his Fortified Wines file, Freedman's notes, memos and correspondence record Edelman's effort to keep the high alcohol content wine out of the neighborhood known as "Skid Row" (Ernst and Young study on the issue is in the Individual Staff files of Elizabeth Wagner). Clippings make up almost half of Freedman's Mental Health Department files, but memos, constituent petitions and correspondence, and reports provide additional documentation on the administration of the budget strained department.

The other third of Freedman's files touch on a variety of departments and issues. His Constituent files contain phone messages, forwarding notes to other County staff, and Freedman's notes in response to constituent phone calls. Additional constituent correspondence and petitions arguing against the closure of the Rancho Park DPSS office are also present in

Frreman's Public Social Services Department materials. His Big Rock Landslide file provides a solid picture of the litigation process, and also the mitigation measures studied to prevent further disasters, after the 1987 landslide in Malibu.

Freedman's files contain many handwritten notes, perhaps more than any other staff member's.

Arrangement Note

Files within Health Issues are in original box code order within each group.

Geoghegan, Robert (Bob)

Supervisor's Office: Chief Deputy 1981-1994, Assistant Chief Deputy 1979-1980, Senior Deputy 1974-1979

904:4-905:1	Miscellaneous Issues
	Councilman's Office
905:2-905:8	Assorted

Geoghegan was on staff both when Edelman was a Councilman and when he was a Supervisor. While his files span both political offices, there is significantly more material documenting Edelman's terms on the Board than on City Council. As Chief Deputy, Geoghegan was involved in planning policy with Edelman, and his files reflect this; however, by no means do these files document Geoghegan's full career with Edelman. For instance, he was very involved in Transportation issues, although there is little material here to highlight that. In fact, the one Transportation related file in Geoghegan's materials is actually very small and only contains a few memos on the Veloway project. (See the Office Files: Transportation for many of Geoghegan's transportation work files, Route 2 in particular).

Almost one half of Geoghegan's material documents his work with Edelman on broad County Government issues. In particular, his working files provide insight into the Reapportionment/Redistricting issue. Memos, clippings, statistical reports, legal briefs, notes, correspondence, proposals and district maps all document the Third District's approach to re-

drawing district lines. Redistricting lawsuits did create a new Third District by 1991, and a file of clippings, memos, and correspondence highlight the effort to learn the issues and meet the community organizations in the new regions of Edelman's district. Additional material on redistricting can be found in the Staff Files of Richard Llewellyn and in the Office Files: County Government.

Geoghegan's material on City/County consolidation documents Edelman's push for more efficient local government. Memos and correspondence with the City/County Consolidation Commission further highlight Edelman's involvement. Memos on Edelman's agendas in the early 1990s provide insight into how Geoghegan worked with Edelman's staff to strive towards Edelman's goals consistently and uniformly.

After Government Issues, the second largest group in Geoghegan's materials is the Revenue files, in which memos, correspondence, notes, and reports document Geoghegan's work with Edelman in trying to find additional revenue for the County. Initiatives and Propositions addressed in his files included handgun control, alcohol taxes, pay increases for supervisors, and a law which would require cuts to the public health budget. Reports, motions, and notes document planning and policy to combat the Gang problems in the County. Whether or not to merge the Consumer Affairs Department with the District Attorney is examined through memos and correspondence.

Little material documents Geoghegan's work for Councilman Edelman. However, there are some assorted files which include memos and correspondence highlighting a variety of issues such as City Planning, Asian representation in the City work force, the Comprehensive Job Training Act (CETA), and government reform. Quite a few memos identify issues and points that would later be important for Edelman's Supervisorial campaign.

Arrangement Note

Within each sub-group, files are in original box code order.

Gerakos, Gilbert (Gil)

1978-1993

Field Deputy 1978-1982, Deputy, Senior Deputy (1983-1993)

(1 folder)

Box and Folder

906:1-906:3 Assorted

Gerakos' material dates from the time period he was field deputy for East Los Angeles. As a result, a majority of the memos, correspondence, clippings, motions, and photographs provide some insight into the working relationship between the Third District and the East Los Angeles area. Correspondence with organizations, resolutions commending individuals, and requests for program funding are scattered throughout. There is no unifying thread to the non-East Los Angeles material. It is truly a random assortment of correspondence, phone messages, staff memos, agendas, assignments, and clippings.

Gilson, James (Jim)

Senior Deputy, 1981-1989
(17 folders)

Box and Folder

907:1	Antipornography Civil Rights Law
907:2	Court Appointed Attorneys
907:3-907:6	Robinson Gardens
907:7-908:7	Veteran's Administration Flyaway
908:8	West Hollywood Incorporation

About half of Gilson's files is on the Veteran's Administration Flyaway and other surplus VA property. Memos, correspondence, notes, and clippings document the struggle to find a use for the property that satisfied vying community goals. Gilson's additional files provide some insight into other areas for which he was responsible, including a controversial proposed anti-pornography ordinance suggested by the Commission on the Status of Women; pay scale for court appointed attorneys; how West Hollywood Incorporation might affect rent control; and the opening of the Robinson Gardens.

Gitlin, Richard

Deputy, 1974-1981
(2 folders)

Box and Folder

908:9	Farm Advisor, 1978
908:10	Golf Courses, 1978-1980

Two very small files provide some information on areas in which Gitlin worked. Memos and correspondence document budget cuts to the Farm Advisor program. Memos only provide some insight into the administration of the County's gold courses.

Glascock, David

Staff Assistant, 1974-1978
(32 folders)

Box and Folder

909:1-909:5	Memos, 1975-1978
909:6-909:8	Gay Community
909:9-910:5	Constituents
910:6-910:7	Organizations
910:8-910:10	Police Brutality
910:11-901:12	Public Social Services
910:13-910:24	Assorted

Chronological files of memos sent and received by Glascock provide a quick overview of general

administrative issues of the Third District, as well as specific areas on which Glascock was working. His primary areas of responsibility were the Gay Community and Constituent Complaints. Memos and correspondence document the work he did in both areas, with most constituent complaints concerning General Relief problems. In addition, transcripts and memos highlight research he did on police brutality. Assorted material on Glascock himself, Proposition 13, and the work furlough program is included.

Arrangement Note

Within Assorted, files are in original box code order.

Gotlieb, Larry

Deputy, 1975-1977

(3 folders)

Box and Folder

911:1-911:3 Jarvis vs. Edelman Lawsuit

911:4 Red-lining

911:5 Sheriff's Department

Gotlieb was Edelman's contact for the lawsuit filed against him by Howard Jarvis in 1975. Most of Gotlieb's files are the legal documents forwarded from City Counsel regarding the suit (which charged Edelman of illegally receiving payment for serving on Sanitation Districts while also receiving payment for serving on City Council). Correspondence, memos, and motions document projects, the budget, and consolidation proposals of the Sheriff's Department. Newsletters from the Los Angeles County Coalition Against Redlining provide no details on what work Gotlieb may have done for Edelman on the issue.

Gottlieb, Kerry

Deputy, 1988-1994

Landslide Issues

912:1 Franklin Canyon, 1988-1990

912:2-913:2 Rambla Pacifico, 1989-1994

913:3 Veterans Parkway, 1991-1992

Most of Gottlieb's memos, correspondence, notes, and clippings relate in some way to landslides. About half of her materials document a development controversy in Franklin Canyon: the neighborhood association's concern for landslides, versus a developer's interest in building houses, and questions about what roll Edelman could play in solving the impasse. The other half provides insight into the litigation following the Rambla Pacifico landslide. Correspondence, legal documents, notes, clippings, and memos document efforts to reopen the road, the agreements made between the City of Malibu and the County, and the involvement of FEMA. One small folder deals with proposed open space in the West Los Angeles Veteran's Administration site.

Llewellyn worked primarily on legal issues for Edelman, and his files reflect this. Almost half of Llewellyn's files document litigation in which the County was involved. Memos, correspondence, notes, legal documents, and clippings all provide insight into the Homeless/General Relief lawsuits of: City of Los Angeles vs. County of Los Angeles; and Mendly vs. County of Los Angeles. A large background packet prepared by Llewellyn for Edelman before he attended the 1991 settlement press conference provides a broad overview of the litigation process. Similar material documents the Redistricting case, but also includes maps, agendas and minutes of the Boundary Committee, statistical reports, various redistricting proposals, and depositions made by Edelman (1989). Llewellyn's files on Redistricting are particularly strong, and some of his notes appear to be ones he made while attending court sessions on the redistricting suit. His files also include proposals on expanding the Board of Supervisors to either 7 or 9 members. Additional Redistricting material can be found in Robert Geoghegan's Individual Staff files and in the Office Files: County Government.

Llewellyn's material on the Property Tax Shift is mostly memos, reports, and correspondence. Llewellyn compiled these as he researched lawsuits filed against the State of California by other counties while they tried to maintain their tax bases in the face of state legislation requiring a shift of property taxes to the state education budget.

Llewellyn's AIDS files, the second largest group of material, contain numerous written notes on many different aspects of the AIDS issue, from hospice care, to the AIDS ward, to planning councils. Memos, correspondence, and clippings provide additional insight into the Third District's approach to the AIDS problem. (Llewellyn inherited some of Jim Petzke's AIDS files).

The third largest group in Llewellyn's material documents the appointment and findings of a

special counsel charged with examining the Sheriff's department. Memos, reports, notes and correspondence document Edelman's interest in following the City of Los Angeles' similar Christopher Commission. Llewellyn's files include the resulting report by the County's special counsel, Judge James G. Kolts, the Sheriff's response to it, and memos and correspondence documenting the County's efforts to follow the Kolts Report suggestions. Llewellyn's files provide better documentation on the Kolts Report than the main Office Files do. The possible merger of the Sheriff with the Courts Marshal is addressed in memos, correspondence and notes.

Research memos Llewellyn did for Edelman in regards to ethics, lobbying, and government reform shed light on the Supervisor's response to a reform motion made by Supervisor Gloria Molina (1993) and proposed campaign limitations (Proposition 73, 1989). In addition, magazine articles, statements made by Edelman while campaigning for supervisor in 1974, text of lobbying and ethics laws, and policy reports provide background for Llewellyn's memos and Edelman's positions.

Community Development projects in the Third District are documented in Llewellyn's materials through lists, correspondence, and memos. His files on the Rodney King Verdicts highlight Edelman's efforts to reduce the chance for civil unrest by meeting with area media and community organizations to develop a response strategy.

Transportation, 1990

The largest groups of material in Loewenkamp's files are on Child Support, the Mental Health Budget, and the Public Social Services Department. Memos regarding the Child Support Advisory Board, correspondence, and a report on New York State's data management all document efforts to stream-line the County's collection of child support payments. Form letter constituent correspondence, memos, and reports highlight budget constraints of the Mental Health Department, and include material on a 1990 hearing Edelman convened on the matter. Problems with the Rancho Park office of the Public Social Services Department and the possible transfer of Adult Protective Services to Community and Senior Citizens Services are documented through correspondence and memos. Other DPSS related files of memos, clippings and correspondence have very little material in them.

Additional materials provide some insight into a wide variety of other topics on which Loewenkamp worked. Correspondence, memos, clippings, and reports help document many different issues, including flood channel improvement in Pacoima wash; use of a flood area for parking by the West Hollywood Medical Center; publicity for the Bollens Lecture Series as well as an audio tape of Senator Dale Bumpers' lecture, April of 1989; and auditing the contract for doctors and interns at the LAC/USC hospital.

Loewenkamp was also the Field Deputy to the San Fernando Valley Office and responsible for the Third District newsletter. See the Staff: Press files for her work on the newsletters.

Arrangement Note

Loewenkamp's file on the Bollens Lecture may have originally been part of the Office Files since some earlier documents have the office filing term on them. But most of the file is her material and during processing it was found with other material of hers.

948:7	Redress [Japanese American Internment]

Miyano's files primarily document the administration of gang prevention programs, the Community Youth Gang Services Project in particular. Memos, correspondence, reports, clippings, contracts, funding letters, and notes all provide insight into the establishment and administration of the program. Problems with project staff and the project director are well documented, as well as the interagency nature of the gang prevention effort in general. Miyano's files also contain background packets for presentations and press conferences given by Edelman.

In addition to memos, a grant application and a sheriff's report on the Asian Community document gang prevention projects specifically for the Asian Community.

Miyano's files on the Coroner's office do not provide much insight into his involvement, but audit reports and memos do document the office's management problems allegedly caused by the Chief Medical Examiner/Coroner, Thomas Noguchi.

Clippings and motions gathered by Miyano document the County's intent to redress wages lost by Japanese American County employees who had been forced to go on leave during World War II because of internment.

Moreno's files are the largest group in the Staff Files (almost one third), and actually one of the largest groups in the Edelman Papers overall. His files span the entire time he was on Edelman's staff (1982-1993) but there is more from the late 1980s to the early 1990s than from the early 1980s.

Moreno was responsible for coordinating the Third District's approach to the County budget, and the largest group in his materials does concern the budget. However, almost all of the memos, correspondence, and reports in his Annual Budget files concern only the 1992-1993 budget. Printed Budgets, memos and correspondence on the Supervisors' Discretionary Funds, and Financial Reports on the County all bulk between 1990 and 1992. The earliest of Moreno's budget material is from the 1984-1985 budget, but there is very little.

In addition to overseeing general budget planning, Moreno was Edelman's Health Deputy. In carrying out that duty, he was very involved with the budget struggles of both the Health Services and Mental Health Departments. His files do not contain specific budget files on Health Services, but budget related memos, reports, and correspondence are scattered throughout his Health Services files. Specific budget files of memos, reports, constituent letters, and correspondence, on the other hand, make up about one third of Moreno's files on the Mental Health Department.

The largest group of material in Moreno's Health Services files documents the planned agreement between the County, the University of Southern California and National Medical Enterprises (renamed Tenet Healthcare Corporation) concerning management of LA County General Hospital and the construction of new facilities. A complicated issue that included a possible land sale and the transfer of Doctors from County to USC employment, the process that led to the LAC/USC/NME tripartite agreement is highlighted in memos, draft agreements, reports, correspondence, and clippings (1985-1987). What happened to cause the agreement to fail is not as well documented.

Memos, correspondence, and clippings provide some insight into the administration of many County health facilities and clinics. The best documented are LAC/USC and trauma centers. Memos and correspondence addressing staffing issues can be found throughout Moreno's Health Services files. Background memos and clippings Moreno gathered for a hearing Edelman convened on the shortage of trauma care are particularly informative, although there is no transcript of the hearing.

Other issues addressed in Moreno's Health Services files include a contract to transfer care of Medically Indigent Adults from the State to the County; notes and memos on the Nurses Strike of 1988; background packets prepared for Edelman to give presentations on a variety of Health related topics; reports and memos on removing fortified wines from the Skid Row area (Ernst and Young study on issue is in Individual Staff files of Elizabeth Wagner); clippings, memos and correspondence on the hazardous waste certification of the Marquardt plant; memos, correspondence, reports, and agendas regarding children's health and family planning; and legal analysis and memos on health related propositions and legislation. There is very little material on AIDS in Moreno's files (see Office Files: Health Services Department and Individual Staff files of Jim Petzke, Rich Llewellyn, and Jonathan Freedman).

Moreno's Mental Health files concern the administration of the department more than its programs and clinics. Memos and correspondence document the recruitment and selection process to hire a new department director in the late 1980s. The County's planning in reaction to the State's realignment of funding for mental health (from the State to local governments) is well documented through memos, correspondence and reports. Related consolidation planning is also highlighted. Files on litigation and hearings do not provide much insight. Constituent letters are scattered throughout Moreno's Mental Health files.

Memos, reports, correspondence, clippings, press releases, motions, notes, minutes and background packets document Moreno's work with Edelman on the Homeless issue. Material on the hearings Edelman convened in 1984 includes transcripts, testimonies of participants, and the resulting 12 point plan to address homelessness. Other topics in Moreno's Homeless files include the mentally ill homeless, General Relief, and Edelman's efforts to establish a special Task Force on the Homeless. Correspondence with social service organizations (Volunteers of America and the Greater Los Angeles Partnership for the Homeless in particular) and the Mental Health Department are found throughout Moreno's Homeless files.

Many reports in the Immigration/Undocumented files of Moreno provide insight into the research resources available to Moreno as he advised Edelman on undocumented alien issues.

Background information packets prepared for Edelman and notes by Moreno highlight the stance Edelman took on the issues. There is some material on immigration reform, but much of the material concerns providing social services to the undocumented.

Other areas Moreno worked in include Community Development, Community Centers, and the Job Training Partnership Act. Memos, correspondence, reports, and notes all provide some insight into these three areas. In particular, Business Revitalization projects carried out by Mark Briggs and Associates on behalf of the Community Development Commission are well documented through reports.

Chronological files of Moreno's memos, reviews of invitations extended to Edelman, and letters written by Moreno for Edelman give a concentrated picture of his activity for a single year (1991).

Files of assorted memos, correspondence and clippings are mostly very small and unlabeled (possibly Moreno had set them aside for later filing). They touch on Children's services, UNO (United Neighborhood Organization), Health Services billing, funding of Family Planning programs, and the possible closure of Moreno's high school, Cathedral High School.

995:4 Legalization of Drugs, 1988-1989

The largest group of material in Petzke's files documents Edelman's approach to the AIDS crisis. Memos, correspondence, reports, clippings and motions provide insight into the areas Petzke worked in addressing this complicated issue. Many of his working files on AIDS became part of Freedman's and Llewellyn's files after he left Edelman's office; see their AIDS files for additional input from Petzke.

Memos, reports, clippings, notes and correspondence provide some insight into courts related issues for which Petzke was responsible. Issues addressed include the prevention of employee fraud, the proposed alternate Public Defender, castration as a form of punishment for rapists, and the contract for a criminal justice data system.

Files on Labor contain memos, reports, clippings, notes and correspondence that mostly focus on negotiations between the County and its employees. Additional memos and correspondence document proposed changes to civil service rules, the charter, and arbitration rules.

One folder of clippings gathered by Petzke looks at the arguments for and against legalizing drugs.

Saltzman saved more clippings than most of Edelman's staff. Almost all of his files contain newspaper stories, making up approximately one third of his materials overall. Saltzman's files make up one of the larger groups in the Individual Staff files.

As the Legal Deputy, Saltzman advised Edelman on matters regarding the courts. The largest group of his courts related material concerns court reform. Memos, correspondence, motions, reports and clippings document the various reform options including ones recommended by advisory councils and commissions, the State of California, and the Pat Brown Institute. Providing alternate defense is the second largest issue in Saltzman's files, and includes memos and correspondence regarding contracts with the Alternate Defense Council, as well as on the establishment of an Alternate Defense Department. Correspondence with judges on a variety of topics is scattered throughout, but one folder of memos, correspondence and clippings provides some insight into judges' campaigns for office. Other issues addressed through memos, correspondence, and clippings are: appointment of judges and commissioners; solving overcrowding in the courts by building new courthouses and by considering creation of a traffic adjudication board; appointment of a new District Attorney; and the increase of security in the courtrooms.

The second largest group of Saltzman's material overall is on Housing. Memos and correspondence document the administration of the Housing Authority, as well as numerous housing projects. Material on Rent control includes draft and final ordinances, correspondence, memos, and clippings. In addition, a file on the 1983 rent control initiative (Proposition M) clearly outlines Edelman's stance on Rent Control. Saltzman's Housing files provide insight into the problems of constituents through many letters.

Background packets on the mismanagement of the Chief Medical Examiner/Coroner's office under Thomas Noguchi include reports by the CAO, and provide a very complete picture of the investigation. Another rather complete sub-group is Saltzman's files on the proposed merger of the Sheriff and Marshal; which include memos, reports, and correspondence.

Other issues touched on in Saltzman's files include: memos and correspondence on Board motions in support or against state and federal legislation, on ordinances, and on charter amendments; memos and correspondence commenting on Grand Jury recommendations and

grand jury continuity; correspondence, memos and clippings highlighting union endorsements of Edelman as well as union concerns; memos and clippings on the County's pullout from Social Security in 1982; memos advising Edelman on ballot measures in the 1984 election; a paper written by Saltzman and Edelman titled "Lease—Don't Sell" arguing against the County's sale of its property; memos and correspondence regarding Pilgrimage Cross; and memos discussing security for the 1984 Olympics.

1008:2-1009:4 Children's Services

1010:3 Hollywood Barn
1010:4 Women's Conferences

An employee of Edelman's the entire time he was a supervisor, Schneider's materials provide only some insight into her varying positions on Edelman's staff.

About three quarters of Schneider's materials document the work she did in helping Edelman create the Children's Services Department. Transcripts of hearings (1983), testimonies of hearing participants, community sign up sheets, and correspondence all document the community involvement in trying to find a way to better serve children. Memos and correspondence are throughout the files, including many on the creation of the Children's Commission as well as the Department itself. In addition, many clippings and press releases provide insight into media coverage, as well as Edelman's printed opinions.

None of the memos on a proposed anti-pornography ordinance were generated by Schneider, and provide little insight into her role on this issue. (For additional material, see the Office Files: Board of Supervisors and Individual Staff files of Jim Gilson). Her work with Edelman on the creation of a museum in the Hollywood Barn, however, is clear. Many memos document her recommendations to Edelman as the agreement with Hollywood Heritage was worked out.

Two conferences held by Edelman for women, one on starting a business and one on crime prevention, are documented by flyers, memos, and mailing lists. A few memos document who was invited to the Hollywood Bowl Museum and Hancock Park ground breakings in 1994. In addition, Schneider's Hancock Park file includes a copy of the park Master Plan.

On Edelman's staff for only a few years before being elected onto the Los Angeles Board of Education, Slavkin worked with other deputies on a variety of issues. Half of his files are topical work files regarding issues and departments he worked on with other deputies; and half are reading copies, in chronological order, of memos, motions and letters (with Edelman's signature) he wrote in 1986 and 1987.

The best documented topics in Slavkin's working files are the Alcohol Tax Initiative and the Mental Health Department. Notes, reports, clippings, correspondence, memos, and statistics highlight Slavkin's research and recommendations as he worked with Chief of Staff Bob Geoghegan on Edelman's proposed Alcohol Tax initiative (1987). Memos, notes, correspondence and clippings document his involvement with many other deputies in the continual effort to fund the Mental Health Department's functions and programs.

Other areas addressed by Slavkin through memos, correspondence, notes, and clippings are: a hearing held by Edelman in 1988 on the shortage of acute psychiatric beds; Jewish affairs; Westside development projects; the contract to manage SSI appeals; and filming contracts at Pan Pacific Park. In addition, some notes provide insight into research conducted by Slavkin for the reapportionment issue.

Arrangement Note

Because Slavkin maintained some files by deputy name, much of his materials were organized to reflect with whom he worked. A 1988 listing of his assignments in his files (folder title is "Bob File") helped clarify this information.

1019:1-1019:6 Work files forwarded to C. J. Moreno, 1990

Memos, news articles, reports, motions, and correspondence highlight the work Wagner did during 1990. Issues she worked on include methadone maintenance, the budget, drugs, the cold weather homeless program, and fortified wines. While other staff members (Freedman and Moreno) have working files on the Fortified Wine Issue, Wagner's includes the Ernst and Young report on the issue (1990).

1022:1-1022:5 Assorted

Wallace worked in the West Valley Field office, and as a result, much of his files have to do with Constituent requests. In addition, his files provide insight into the County's response to the 1993 fires, especially Topanga and Malibu Canyons. Memos, reports, correspondence, motions, and clippings document efforts to better warn the community in the event of future fires; to create safer building codes for new structures; to prevent soil erosion; and to fund programs assisting people to reestablish their homes. His materials also include reports and correspondence from the City of Oakland, highlighting the programs that city developed after fires in 1991.

1023:1 Autopsy Legislation, 1983-1984

1023:2 Jewish Events, 1981, 1983

1023:3 Parks and Recreation, 1983

Most of Warner's material documents the administration of the Parks and Recreation Department through memos, correspondence, clippings and reports. Correspondence from and memos on the Community Relations Committee of the Jewish Federation Council of Greater Los Angeles makes up the bulk of the Jewish Events materials and highlight events in which Edelman participated. A file on Autopsy legislation provides some insight into Edelman's involvement in the passage of SB 1842 (1984) which allows families to prevent autopsies when their religious beliefs prohibit the practice.

Third District Supervisor, Los Angeles County Board of Supervisors: Staff Files: Issues

Cal-ID, 1986-1989

Callahan, Petzke

Box and Folder

1024:1-1024:3

Chronological files of memos, correspondence, and meeting agendas document the liaison work of Callahan and Petzke with the Los Angeles County Cal ID Board. Materials highlight the Board's purchase of equipment for County participation in a state-wide criminal justice identification system.

Children

Callahan, Moreno, Roth, Schneider, Warner

Box and Folder

1024:4-1025:2

Memos, motions, correspondence, and clippings provide insight into the creation of the Children Services Department and child welfare issues in general in the early 1980s. A transcript of a 1983 hearing documents the need to improve child abuse prevention efforts. Other areas addressed include the Task Force on the MacClaren Children's Center and the County's licensing status with the State of California.

El Pueblo International, 1983-1989

Gilson, Langberg, Llewellyn, Petzke

Box and Folder

1026:1-1027:3

Chronological files of memos, correspondence, agreements, and proposals document the coordinating efforts of Edelman's staff to bring about the development of the El Pueblo historic site. Correspondence with the developer, CCM Financial, with the Archdiocese of Los Angeles and its attorney Richard Riordan, with the City of Los Angeles, with the Far East National Bank, with the CAO, and with Engineer-Facilities all highlight the sometimes conflicting opinions on how best to develop El Pueblo. Staff memos provide additional insight, as do developer proposals and plans.

Highland Camrose. 1985-1992

Geoghegan, Gilson

Box and Folder

1028:1-1030:2

The drawn out process to purchase and then rehabilitate the Highland Camrose bungalows near the Hollywood Bowl is documented through memos, correspondence, proposals, EIRs, clippings, motions, and notes. Working files of Geoghegan and Gilson give a clear picture of the Third District's work to move the project forward with the Los Angeles Philharmonic Association and various County departments. In addition, correspondence provides insight into the failed effort to fund the project with a state budget allocation.

Malathion/Fruit Flies, 1983-1990

Callahan, Freedman, Moreno, Stoddard

Box and Folder

1031:1-1033:4

Edelman's stance on the controversial aerial spraying of malathion to combat infestations of Mexican and Mediterranean fruit flies is well documented through the working files of Callahan, Freedman, Moreno, and Stoddard (press deputy). Motions and op-ed pieces clearly identify Edelman's position against the spraying and offer alternative approaches. Reports and bulletins from the Agricultural Commissioner document the statistical findings of that department, as well as its efforts to calm the fears of the public. Maps, memos, correspondence, and reports provide further insight into the County's malathion spraying policies and actions, as well as prevailing scientific opinions and potential alternatives. Clippings and memos on protests and constituent complaint letters highlight a concentrated opposition to the aerial applications. Nearly half of the files are clippings regarding malathion, the county's policies, fruit flies, and possible alternative ways to control the infestations.

1036:5-1038:3 General, 1983-1990

1038:4-1040:1 Reports, 1988-1989

Freedman was the lead staff member to work on the complicated and intertwined Malibu Sewer and Incorporation issues, but Slavkin and Callahan were also involved.

Memos, correspondence, clippings, notes, transcripts and reports provide insight into the repeated efforts to incorporate Malibu. Background packets prepared for Edelman to read before attending hearings are particularly strong. Legal documents regarding the incorporation and ensuing lawsuit are scattered throughout. There are many memos on, and letters from, both the Local Agency Formation Commission (LAFCO) and the Malibu Committee for Incorporation. Reports from the Public Works Department tie incorporation into the wastewater

and sewage concerns for the area. Clippings provide further insight into public viewpoints on the issue, and numerous reports provide information on the varied and possible effects of incorporation. Additional material on the Incorporation issue can be found in the Office Files, Commissions, under LAFCO.

The public safety and environmental concerns of Edelman and the County in regards to Malibu are also well documented in memos, correspondence, reports, and transcripts. A 1983 press release and related motions highlight Edelman's initial push to examine the possibility of building a sewer system in Malibu. Resulting EIRs, reports from the Public Works Department, notes and memos on meetings of the California Coastal Commission, and correspondence from constituents and the CAO all help document the varying opinions on the perceived safety and environmental hazards. How to finance the proposed sewer system is documented through memos, correspondence, and clippings. As with the Incorporation materials, background packets prepared for Edelman provide detailed information on the Sewer issue. Clippings appear throughout the files, including many from Malibu community newspapers.

A complicated issue involving the local community, the City of Los Angeles, the County of Los Angeles, and the State of California, the Pan Pacific project received considerable amounts of staff time for the 20 years Edelman served as Supervisor. Additional material on Pan Pacific can be found in the Office Files under the Parks Department, but the bulk of planning and developing material is here. The chronological working files of the staff make up about half of this group and contain some photographs.

The Developers files provide details on the development firm Somerset/Tamkin. Their successful proposal in response to the County's 1981 Request for Proposals (RFP) and the subsequent concession agreement are both well documented in memos, correspondence, legal documents, and reports. Details on the company's eventual default can be found in the General Working Files. Memos, proposals, and correspondence highlight the planned use of the auditorium, in association with the Somerset/Tamkin proposal, by American Cinematheque, as well as less defined proposals of other groups.

The selection of Kornwasser and Friedman/Goldrich and Kest in 1988 as the second firm chosen to develop the auditorium is also well documented in both the Developers materials and in the General Working Files. Included is the EIR for their proposed project and various agency responses to it.

The Developers files for both the first (1981) and second (1987) RFP cycles contain proposals from the companies that were not selected, and for the second proposal cycle in particular, the selection process itself is highlighted in memos and correspondence.

Reports, correspondence, memos, clippings, and meeting notes provide insight into the overall planning for the Pan Pacific project, and show how the project changed many times. Constituent letters throughout the Working Files highlight the input and concerns of the community. Also, the agreements made with both the State of California and the City of Los Angeles, are documented in legal papers, correspondence, and memos.

Associated projects to the Pan Pacific Park also have some documentation. A proposed holocaust monument was somewhat problematic, and is highlighted in correspondence, memos, and clippings. Storm and flood projects of the Public Works Department also have a small amount of material.

The Assorted group contains one item, which is a 1985 Harvard Business Review. The

magazine was filed with Pan Pacific material, but it is not clear why.

Arrangement Note

The original boxes for most of the Pan Pacific Issue Files were marked with chronological date ranges. However, the files within the boxes were not actually in chronological order, or any discernable order for that matter. The current arrangement was developed in an effort to best reflect the significance of the material.

“Problem” Folders, 1987-1989

Gottlieb, Langberg
1987-1989

Box and Folder

1054:1

Correspondence, phone messages, and notes document Gottlieb and Langberg’s tracking of 5 different constituents’ protracted problems with various County Departments. The departments and problems are: Housing (section 8 housing); Health Services (license for a hot dog cart); Retirement Board (retirement calculations); and County Counsel (claim against the County and worker’s compensation).

Arrangement Note

These were titled “Miscellaneous ‘Problem’ Folders ” on their original box.

Vega Building/Golden Gate Theater, 1988-1990

Callahan, Geoghegan, Langberg, Llewellyn, Roth

Box and Folder

1055:1-1056:2

In October of 1987, the Whittier Narrows earthquake damaged the historically significant Vega Building/Golden Gate Theater on Whittier Blvd. in East Los Angeles. Memos, feasibility studies, correspondence, notes, and environmental impact reports document Edelman’s staff work with the owners, the Community Development Commission, and Public Works to find a way to save and rehabilitate the building, which was on the National Register of Historic Places. Questions about protections for historical buildings, public safety, the finances needed to rehabilitate the building, and possible uses for the site are all addressed. The latest material is the draft EIR of 1990, which includes earlier reports and feasibility studies and lists multiple options for the site.

West Hollywood Civic Center, 1987-1990

Petzke, Llewellyn

Box and Folder

1057:1-1057:5

Petzke served on the jury for the West Hollywood Civic Center design competition. As a result, most of the material is his and documents the selection process to choose an architect. His files include lists of competitors, clippings, memos, agendas, notes, and correspondence (most of it with the City of West Hollywood), but no actual design proposals. Additional files of both Petzke and Llewellyn highlight the project's planning phases and include an Environmental Impact Report, as well as memos, correspondence, and clippings.

West Hollywood Planning and Incorporation, 1979-1985

Geoghegan, Gilson, Seymour

Box and Folder

1058:1-1061:1

Memos, correspondence, clippings, and proposed plans document Edelman's lead on an effort to create a community plan for West Hollywood that would serve as a guide for the neighborhood's development. Both Geoghegan and Seymour's working files highlight the multi-agency coordination involved, as well as their research and recommendations to Edelman. Varying drafts of the plan document its changes over time, and include a report on implementation of the plan.

The incorporation process from inception, to election, to city-hood, is well documented in memos, clippings, correspondence, and statistical reports. Rent control, taxes, and basic emergency services are recurring themes in the clippings and memos. Some reports from the Local Agency Formation Commission are scattered throughout, but there are few. The general steps to incorporation, however, are explained in detail in memos. Gilson's files contain many memos from Bonnie Fine, the West Hollywood Field Deputy. Her memos provide insight into the personalities and politics involved in the incorporation effort. Edelman's first neutral, and then supportive, role is highlighted through staff recommendations and clippings. Negotiation regarding contracted services, office space for the City, and the transfer of parks are all documented through memos and correspondence. Additional correspondence, memos, and clippings provide information on the continuation of Community Block Grant programs in the new City.

For additional material on West Hollywood Incorporation, see the Local Agency Formation Commission files in Office Files: Commissions.

The Press files are grouped in two sub-series: Editorials/Statements and Newsletters. Editorial material is arranged alphabetically and chronologically. Newsletters are arranged alphabetically by neighborhood.

In Editorials/Statements, memos, notes, editorial releases, and drafts of editorials provide insight into Edelman's views on a variety of issues and how his staff recommended that these views be expressed in writing. Along with printed editorials, the files also contain text of television and radio editorials to which Edelman responded. In some cases, the press staff drafted speeches, and there are a few filed here from early in Edelman's supervisory career (1975-1978). The bulk of the editorial material spans from 1975 to 1980, with very little later than that. For additional press releases, see the Office Files: Third District.

The bulk of the newsletter material is the work of Susan Loewenkamp, although other deputies were involved. Loewenkamp was not only responsible for the newsletter, but she was also a field deputy for the San Fernando Valley office. Perhaps as a result, the largest group of material in the newsletter files documents the creation of Valley newsletters.

In addition to drafts and copies of newsletters, memos and press releases saved for use in the neighborhood newsletters shed light on what Edelman's staff thought was important to point out to constituents. The newsletters were also used as a vehicle to survey constituents, and the files contain many staff memos analyzing the questionnaires' results. Photographs are throughout, with most having captions attached. Numerous memos to the Registrar/Recorder are simply routine requests for mailing labels, but they document the exact boundaries for the neighborhoods that received the newsletters. The newsletter files do not span Edelman's career, but date only from 1981 to 1988.

Correspondence, motions, resolutions, memos, clippings, photographs and ephemera provide some insight into Edelman's work as a Los Angeles City Councilman, as well as document his election campaign for county Supervisor (1953-1974, bulk 1965-1974). The largest groups of material highlight his campaigns, both for City Council and for the Board of Supervisors, and his work on reforming the Los Angeles City Charter.

Nearly one quarter of the Councilman record group documents Edelman's campaign for the Third District Supervisor's seat. The general files documenting Edelman's supervisorial campaign are particularly rich and include endorsements, memos on strategy, clippings, analysis of elections, statements and speeches. Similar material is scattered throughout this group.

Edelman's first run for Supervisor was on a reform platform and many memos and reports predate his campaign, but provide background information on what Edelman believed County Government's failings were and where it could and should be improved. In addition to material on Edelman's platform, the supervisorial campaign materials also document his campaign finances and fundraising, his press coverage, his opponent John Ferraro, and a law suit brought against him by Lester G. Richman concerning campaigns signs. For additional material on Edelman's supervisorial campaign, see the Individual Staff files of Alma Fitch.

Edelman's council re-election campaigns are not very well documented, but there is a fair amount of material providing insight into his initial bid for the Fifth District councilmanic seat. The bulk of the material is correspondence, but also includes material on his opponent, incumbent Rosalind Wyman, and the lawsuit she and her husband brought against Edelman for libel.

The second largest group in the City Councilman materials, after campaign material, documents Edelman's lead on City Charter reform. The bulk of the files is memos and correspondence, highlighting his research in the topic, his involvement with ballot campaigns, and the work of the Charter Commission.

Correspondence sent and received by Edelman highlights his relationships with constituents, other governmental figures, and supporters. Some of it is routine, concerning scheduling and meetings, but condolences, congratulations, and thank you letters Edelman sent out to constituents and friends show a personal approach to his position as Councilman. The correspondence here is much more personal than similar letters in the Office Files, Third District series found in the Supervisor's record group.

Chronologically arranged motions made (1965-1974), motions seconded (1965-1973), resolutions presented (1965-1972), and resolutions seconded by Edelman (1970-1972) provide insight into his council actions during his tenure on City Council. Statements, editorials, and speeches are also arranged chronologically. Much of the material was written to update Edelman's constituents, and documents both his activities and his stance on numerous issues.

There are hundreds of photographs in this record group. Many of them include captions and document a variety of events in which Edelman was involved.

The Individual Staff files of Robert Geoghegan provide some additional insight into an assortment of issues addressed by Councilman Edelman.

Filemaker Pro Database

The Edmund D. Edelman Papers were processed and arranged using a folder level database to track individual files. Each box was assigned a box code (B/001 through B/466) and the folders within each box were also assigned a code (lower case alphabet). Each folder then had a code tying it to its original box, that also related it to the other folders in the box (ie B/224 a, B/224 b, B/224 c etc.). Folder “a” was always the first in a box, folder “b” the second, and so on. These codes were written onto the final acid free folders during processing.

The following information was entered for each folder: title, overall date span, and basic subjects. A list of subjects used in the data base is in the Appendix.

After processing, only some folders remained in their original order relative to other folders in a box. If necessary, it is possible to check in the database to see what folders were originally all in the same box, and also what their order was.

The Folder List in the Edelman Papers Finding Aid is a report printed from this database, sorted by the final and processed order of the folders.

The Edelman Papers database is available for searching.

Please Note: for some original boxes, the labels on the outside of the box were also entered into the database. These labels were noted with UPPER case alphabetic codes (unlike the folders with lower case codes). Often the outside labels did not correspond to the folders inside the box. If a record comes up in a search with an UPPER case code in the “Folder” Field, there is no corresponding folder in the collection.

MAJOR HONORS

Edmund D. Edelman Children's Court

To honor his longstanding leadership on youth issues, the Board of Supervisors named the nation's first child-sensitive dependency court in Monterey Park after Edelman.

Summit Valley Edmund D. Edelman Park

In recognition of Edelman's successful mediation of the long-running Canyon Oaks development controversy (detailed below), the Conservancy's Board named the 267-acre parcel of pristine mountain lands in Edelman's honor.

UCLA Alumni Awards

In honor of his outstanding service to the peoples of Southern California, the Alumni Association of UCLA has awarded Edelman its Professional Achievement Award for Excellence (1980), as well as its Public Service Award for Excellence (1987). In addition, the UCLA School of Law Alumni Association named Edelman its Alumnus of the Year in 1977.

ACCOMPLISHMENTS

Health, Social and Children's Services

Edelman has been a champion throughout his public career of efforts to improve and expand health and social services. He is particularly known for his work on behalf of seniors, youth, the homeless, the mentally ill and people with HIV/AIDS, as well as his early recognition of the need for community-based and culturally sensitive social service programs.

Edelman's leadership on social service issues has earned him numerous awards, among them recognition by Alta Med Health Services, the Asian Pacific Family Center, the Filipino American Service Group, the Chinatown Service Center, Alternative Living for the Aging, the Los Angeles Free Clinic, the Family Assistance Project, the AIDS Healthcare Foundation, the Shanti Foundation, and the Los Angeles Men's Place (LAMP) Skid Row Homeless Project.

The accomplishments of which Edelman is most proud include:

his work on behalf of children, ranging from his leadership in establishment of the County's Department of Children's Services and Commission on Children's Services, to his support for delinquency prevention programs, to his creation of child care centers at County facilities and the Los Angeles County Children's Planning Council;

his dedication to the delivery of compassionate and cost-effective health services, ranging from his call for increased prevention programs including expanded prenatal care, and his efforts to reduce waiting times at County clinics, to his leadership in the development of a variety of

substance abuse programs, including the County's Fortified Wine Task Force (as well as his leading role in the Initiative campaign to increase California's alcohol tax), and his creation of the Task Force on Indigent Care;

his central role in the delivery of mental health services, ranging from the establishment of the Outpatient and Inpatient HIV Wards at County+USC Medical Center and the development of culturally sensitive education and prevention programs, to his support for the emerging coordinated system of HIV care linking community-based providers to the County's health system;

his central role in the delivery of mental health services, ranging from his successful effort to create a Department of Mental Health apart from the County's Health Department, to his consistent championing of mental health funding, including the development of new sources of revenues for mental health programs, and his ongoing support for a wide variety of community-based mental health programs, including such innovative programs as LAMP, Harbor and Step Up on Second;

his support of the homeless, ranging from his assistance in the effort to establish the Volunteers of America Shelter for homeless families to his support for homeless youth programs in the Hollywood area and for programs such as the Weingart Center and the West Hollywood Homeless Organization, which provide integrated services to homeless persons with multiple problems such as mental illness or substance abuse, and his establishment of the Los Angeles Coordinating Council on Homelessness;

his commitment to the concerns of seniors, including the establishment of the annual East Los Angeles Conference on Seniors, his role in the development of housing for seniors throughout Los Angeles County and his support for the Edward R. Roybal and Alta Med Senior Centers.

Justice

An attorney, Edelman consistently has been a leader on issues concerning the justice system. His is a strong proponent of the need for expanded prevention programs, and is particularly proud of his role in the creation of Community Youth Gang Service (CYGS) which has reduced the number of gang-related killings. Similarly, Edelman led the fight to establish the region's first Drug Court, which will channel non-violent drug offenders into intensively court-supervised treatment and rehabilitation programs, and won approval for a neighborhood-based courthouse in Hollywood to address Hollywood street crime.

Edelman also has been a leader in numerous court-reform efforts, creating the Countywide Criminal Justice Coordination Committee to ensure better cooperation between the various justice agencies in Los Angeles County. Finally, Edelman's creation of the Kilts Commission to review concerns of excessive force in the Los Angeles County Sheriff's Department has produced some of the most significant reforms to law enforcement operations in the history of California.

Edelman's justice-related activities have earned him recognition from numerous organizations including CYGS, Mothers Against Drunk Driving/LA, the Juvenile Justice Connection Project and the Hollywood Neighborhood Action Group.

Labor and Human Relations

Edelman takes particular pride in his efforts to recognize and promote diversity, from his support for ethnically sensitive social services and his championing of the County's Human

Relations Commission to his creation of the County's Commissions For Women, Native American Indians and the Disabled, and his leading role in the development of the Holocaust Memorial in Pan Pacific Park. Among other honors for his human relations leadership, Edelman has been recognized by the County's Commission For Women and the American Civil Liberties Union's Gay and Lesbian Rights Chapter.

Beyond his commitment to the importance of every person in the community at large, Edelman has been a champion of individual rights in the County of Los Angeles, beginning with his creation of the County's Affirmative Action Compliance Office and extending to his ongoing role as the voice for the rights of County workers. Known as the mediator on the Board of Supervisors, Edelman is proud of his efforts to negotiate and settle labor disputes involving the County's nurses, Children's Services caseworkers, and Rapid Transit District workers.

Transportation and Economic Development

Through his active participation on the Rapid Transit District Board of Directors, the Los Angeles County Transportation Commission (past Chair) and the new Metropolitan Transportation Authority (current Vice Chair), Edelman has worked to improve transportation throughout his career in government service.

Among other activities, Edelman has been a leader in bringing rapid transit to Southern California. He was one of the first elected officials in California to call for the use of gas tax revenues to support public transportation, and, along with Supervisor Kenneth Hahn, led the fight in Los Angeles County for the 1980 passage of Proposition A (increasing the local sales tax to support rapid transit). Edelman also led the Southern California effort behind the 1990 passage of statewide Propositions 108 and 111, further increasing the funds available for transportation projects.

Edelman has worked tirelessly for a balanced transportation system to ensure that all parts of Los Angeles County are served fairly and cost-effectively. In addition, as Chair of the Transportation Commission, Edelman led successful negotiations for the purchase of hundreds of miles of railroad rights-of-way to ensure future commuter rail in Los Angeles. He also initiated the development of the Congested Corridor Action Plan, and ongoing effort to ease traffic flow at the region's most congested freeway and surface routes.

Edelman has been a strong proponent of economic development in Southern California. He is proud of his early leadership in the drive for civilian conversion of Southern California's defense-based economy, as well as his efforts to retain and support California's aerospace industry through his Aerospace Task Force. In addition, recognizing the importance of the film industry to Southern California's economy, he created the County's Filming Advisory Commission to attract and retain the motion picture industry in Southern California.

Environment and Land Use

Edelman has been an environmental leader in Southern California, as well as a leading voice for responsible development. He successfully mediated a settlement to a fifteen-year zoning dispute in the Santa Monica Mountains, under which the Santa Monica Mountains Conservancy purchased and preserved 662 acres of pristine mountains open space—the San Fernando Valley's "Gateway to Topanga"—including the 257 acre parcel slated for the controversial "Canyon Oaks Estate" development. His other efforts have ranged from his support for efforts to clean up Santa Monica Bay, his development of the County's Beach Closure Protocol (which sets standards mandating when beaches must be closed due to pollution

risks) and his creation of the Los Angeles County Water Advisory Committee, to his authoring of a new Los Angeles County Policy controlling development in designated Significant Ecological Areas and his program for recycling by Los Angeles County employees. For his environmental leadership, Edelman has been recognized by organizations such as Health the Bay and others.

Culture and Recreation

Throughout his lengthy public career, Edelman has recognized that social services go hand in hand with expanded recreational and cultural opportunities, all of which contribute to a better Los Angeles. His many cultural and recreational accomplishments include his leading role in the development and passage of the Safe Neighborhood Parks Act of 1992 (which guarantees a stream of funding for neighborhood parks and cultural institutions for years to come), his significant expansion of parks and other recreational programs in East Los Angeles and throughout his District. He also played a leading role in facilitating the construction of the Walt Disney Concert Hall and the Hollywood Bowl Museum, in mediating a long-term public/private partnership agreement guaranteeing secure funding for the Los Angeles County Museum of Art, and in supporting the expansion of programming at a variety of Los Angeles County institutions including the Hollywood Bowl, the John Anson Ford Amphitheatre and the County Museum of Art. In the academic realm, Edelman is particularly proud of initiating the John C. Bollens/John C. Ries Lecture series, and annual speakers' series named for two gifted and influential political thinkers at UCLA, which has featured such notables as former Vice President Walter Mondale, former Massachusetts Governor Michael S. Dukakis, Arkansas Senator Dale Bumpers, and Professor James Q. Wilson, among other prominent figures.

Folders once pulled for County Counsel/Reapportionment

Material related to issues of Minorities, Immigration, Human Relations Commission, Affirmative Action and SCAG (Southern California Association of Governments) was found together in two boxes: B/042 and B/217. The material was a combination of Staff and Office files. Out cards for most of the folders were found in many of the corresponding Office Files series noting that the folders had been pulled “for County Counsel/Reapportionment, January 27” (no year noted). During processing, the Office Files were returned to their original placement, and Staff Files were grouped with each individual staff person’s materials. Following is a list of these files.
