Scope and Content of the Collection

The field notebook collection contains the field notebooks and notes of multiple creators, including Steve Boyd, Jim Buel, Mary Agnes Chase, Curtis Clark, Arthur L. Cohen, Larry deBuhr, Francis H. Elmore, Mark Elvin, Sally Fisher, F. Raymond Fosberg, Carrie A. Herd, Keith E. Hoffmaster, Karen Hosterman, John Thomas Howell, A. Lefebure, Harold Lint, Orlando Mistretta, Jeffrey Morawetz, Philip A. Munz, Peter Raven, Alan P. Romsper, John C. Roos, William L. Stern, Richard M. Straw, Dick Swinney, R. S. Woglum, and one unknown creator. The field notebooks and notes document plant collections made in California and other regions from 1922 to 2014. The collection also contains a small amount of related documentation, such as herbarium specimen distribution lists and correspondence. The collection is organized into a single series by collector name.

Steve Boyd's field notebooks cover fieldwork from 1979 to 1998, including consulting work, collections for a thesis on the flora of Gavilan Hills, and multiple projects related to his work in the herbarium at Rancho Santa Ana Botanic Garden (California Botanic Garden). Most locations are around Riverside County, the San Gabriel Mountains, the Santa Ana Mountains, and other parts of Southern California.

Jim Buel's field notebooks document plant collections made in the Mojave Desert and Lassen National Forest for coursework at California State Polytechnic University at Pomona from 1957 to 1958.

Mary Agnes Chase's field notes contain an itinerary and narrative of a 1940 trip to Curaçao and Venezuela with descriptions of grasses observed.

Curtis Clark's field notebooks contain his journal and plant collection information from 1970 to 1998, with locations across the Midwest and Western United States and Mexico. The majority of the collections are from Oklahoma.

Arthur L. Cohen's field notebook documents his plant collections from 1933 to 1935. Most collections are from the Bakersfield area and the southern end of the Sierra Nevadas.

Larry deBuhr's field notebooks cover his plant collections from a fall 1974 trip to Australia, with the majority of the collections from southwestern Australia.

Francis H. Elmore's field labels contain plant collection information from a spring 1939 trip to multiple countries in the Caribbean, Central America, and South America.

Mark Elvin's field notes cover his plant collections from 1995 to 1997, mostly in the San Gabriel Mountains.

Sally Fisher's field notebooks document plant collections made for coursework in 1969 around Claremont (California), Santa Catalina Island, and Papua New Guinea.

F. Raymond Fosberg's field notes document his plant collections from 1930 to 1932, mostly around the Los Angeles area, Santa Catalina Island, New Mexico, and Arizona.

Carrie A. Herd's field notebook documents plant collections made in spring 1982, mostly from Crane Creek Regional Park in Sonoma County and other locations in Northern California.

Keith E. Hoffmaster's field notebooks and notes cover plant collections made from 1926 to 1946 around many locations in Southern California, especially in Orange and San Diego counties.

Karen Hosterman's field notebook covers plant collections made across the western United States from 1955 to 1958.

John Thomas Howell's notebook documents plant collections from 1927 to 1930, including records of collections made at the original Rancho Santa Ana Botanic Garden (California Botanic Garden) site in Orange County and the surrounding area, as well as other locations throughout California. The notebook was started by Howell, but most later collections are by B. D. Stark and E. R. Johnson.

A. Lefebure's field labels cover plant collections from 1940 to 1942, mostly in Northern California and the Sierra Nevadas, with some collections in Southern California and Nevada.

Harold Lint's field notebooks and notes document plant collections from 1941 to 1966 in the Mojave Desert, Los Angeles area, Tehachapi Mountains area, and Arizona.

Orlando Mistretta's field notebooks cover observations and plant collections from 1990 to 1995, mostly in the San Gabriel Mountains and other parts of Southern California.

Jeffrey Morawetz's field notebooks include plant collection information from 2003 to 2014 from multiple locations, but especially for fieldwork in Kenya, Tanzania, South Africa, Democratic Republic of the Congo. Also included is collection information from trips in the United States, China, Brazil, and Oman.

Philip A. Munz's field notebooks record his plant collections from 1922 to 1973, mostly in California but also numerous other states, Canada, Mexico, and several countries in South America. Also included are notes on cultivation of *Oenothera*.

Peter Raven's field labels document his plant collections from 1961 to 1962, mainly in Southern California, including San Clemente Island. Other collections are from the Sierra Nevadas, Baja California, and Arizona.

Alan P. Romsper's field notebooks contain his plant collection data from the Panamint Range, Soda Springs (Zzyzx), and other locations in the deserts of Southern California from 1972 to 1992.

John C. Roos's field labels document his plant collections from 1936 to 1957, mainly in the desert regions of Southern California, as well as collections in the Sierra Nevadas, Baja California, and Nevada. Also included are Roos's herbarium specimen distribution lists.

William L. Stern's field notes cover plant collections from a 1974 trip to Hawaii.

Richard Straw's field notebooks span from 1954 to 1960 and consist mostly of plant collection data from trips to Mexico, along with some collections in Southern California and the Southwest. Also included is correspondence between Straw and Patrick Larkin about his field notes and an itinerary for his trips to Mexico from 1957 to 1960.

Dick Swinney's field notes cover his plant collections from 1990 to 2001, mostly in the San Gabriel Mountains.

R. S. Woglum's field notes document his plant collections across California from 1934 to 1942, particularly in San Diego, San Bernardino, and Inyo counties. Also included are Woglum's specimen distribution lists and notes by E. M. Harvey from a May 1958 trip with Woglum to the Mojave Desert.

One notebook by an unidentified person contains rainfall data for an unknown location from 1951 to 1979.
