History

The League of United Latin American Citizens (LULAC) was founded in Corpus Christi, Texas when the Sons of America, the Knights of America and the Latin American League merged in order to (fight) for full access to the political process and equal educational opportunity for Hispanics.

LULAC had established councils in California by the late 1930s, the first in San Bernardino in the early 1930s. When, in 1947, LULAC organizers attempted to establish a council in Orange County, local law enforcement gathered the organizers and drove them in police cars to the district attorney's office. They were warned to stay out of Orange County.

In 1945, a California LULAC Council successfully sued to integrate the Orange County School System, which had been segregated on the grounds that Mexican children were "more poorly clothed and mentally inferior to white children." Additionally, in 1954, LULAC brought another landmark case, Hernandez vs. the State of Texas, to protest the fact that a Mexican American had never been called to jury duty in the state of Texas. The Supreme Court ruled this exclusion unconstitutional.

Since then, LULAC has fought for full access to the political process and equal educational opportunity for all Hispanics. LULAC's continues to play an active role in these efforts. LULAC councils across the United States hold voter registration drives, citizenship awareness sessions, sponsor health fairs and tutorial programs, and raise scholarship money for the LULAC National Scholarship Fund. This fund, in conjunction with LNESC (LULAC National Educational Service Centers), has assisted almost 10 percent of the 1.1 million Hispanic students who have gone to college.

LULAC Councils have also responded to an alarming increase in xenophobia and anti-Hispanic sentiment. They have held seminars and public symposiums on language and immigration issues. In addition, LULAC officers have used television and radio to protest against the "English Only" movement, which seeks to limit the public (and in some cases, private) use of minority languages.
