

## MS 105      ALAMAGORDO AND SACRAMENTO MOUNTAIN RAILWAY RECORDS

1899-1937. 1 oversize box + 2 boxes

The Alamagordo and Sacramento Mountain Railway records consist of balance sheets, accounts receivable ledgers, vouchers, and voucher indexes. These contain information primarily on the railroad's finances, but with some references to operation. Researchers also are advised to consult records of the El Paso and Southwestern System (component lines, New Mexico Railway and Coal Company, and the Alamagordo Lumber Company).

**PROVENANCE** Southern Pacific, New York Collection; The Bancroft Library, University of California, Berkeley [Agent's balance book]

**HISTORICAL INFORMATION** The Alamagordo and Sacramento Mountain Railway was incorporated on March 21, 1898 to run from Alamagordo Junction, New Mexico, on the line of the El Paso Northeastern Railway, east to the Sacramento Mountain timber stands. Eventually the line was completed 31-1/2 miles to Russia, New Mexico, where it connected with the tracks of the Alamagordo Lumber Company. The Alamagordo and Sacramento Mountain was constructed by the New Mexico Railway and Coal Company (later the El Paso and Northeastern Company). Phelps Dodge acquired the line in 1904 and made it a part of the El Paso and Southwestern System. In 1924 the Southern Pacific acquired the EP & SW and with it the Alamagordo and Sacramento Mountain. The Southern Pacific continued to operate the Alamagordo and Sacramento Mountain until 1947 when it abandoned the line.
