

Box List - Frederick H. Test papers

Box 1

- *Folder 1:* Douglas Lake Improvement Association Inc.'s Obituary of F. H. Test (May 2010)
- *Folder 2:* *Heteromys* manuscript drafts, includes negatives of pictures for manuscript (2) and 35mm slides of *Heteromys* area, Rancho Grande (3); (1961-1967)
- *Folder 3:* Sight in Navigation of Molossid Bats manuscript (1967)
- *Folder 4:* Relation of Colaptes Color to Diet manuscript (1967-1969)
- *Folder 5:* Abundance of Snakes at R. G. as Indicated by Road Records manuscript (1956-1985)
- *Folder 6:* Feeding of Bufo Tads on Swim. Micro-org. manuscript (1972-1976)
- *Folder 7:* Forsyth, Mont. Flicker data and MS, data from 1889-1940 (1936-1979)
- *Folder 8:* Effect of Environmental Temp. on Movements of Tadpoles of Bufo terrestris americanus - Beiswenger and Test manuscript, includes a negative for manuscript (1965-1966)
- *Folder 9:* Published short papers; includes Social Aggressiveness in an Amphibian, Butler's Garter Snake Eats Amphibian, and Reactions of Chipping Sparrows to displaced nestlings (1954-1958)
- *Folder 10:* Faculty Research Fund - Proj. 719, Plethodon cinereus (1948-1953)
- *Folder 11:* Study of carotenoids of Flickers (chemical), includes correspondence with father (1937-1945)
- *Folder 12:* Colaptes: Molt and regeneration, study data and observations (1937-1942)
- *Folder 13:* Chrosomus carotenoids study materials (1937-1951)
- *Folder 14:* Manuscript of Highly Evolved Courtship and Nesting of the Venezuelan Dendrobatid Frog, Colostethus trinitatis, unpublished (after 1969)

Box 2

- *Folder 1:* Protective Behavior in Frog of Mt. Streams (1963)
- *Folder 2:* Nesting Sites of the Red-backed Salamander, Plethadon cinereus (1961-1962)
- *Folder 3:* Two New Dendrobatid Frogs from Northern Venezuela (1952-1953)
- *Folder 4:* Seasonal Changes in the Populations of the Red-backed Salamander, includes field notes from 1947-1948 Plethadon cinereus study in Washtenaw Co., Mich. (1945-1955)
- *Folder 5:* Original notes on feather pigments by Louis A. Test (1936-1938)
- *Folder 6:* Records of Birds seen near Strathmore, Calif. by Louis A. Test, key on folder (1941-1943)

- *Folder 7:* Dr. Test; Correspondence, research, publication draft and slide labels concerning Colaptes pigmentation study (1937-1986)
- *Folder 8:* Colaptes - Exper. on feather plucking, research documents, includes 1937 correspondence with Louis A. Test labeled "Flicker Food" (1931-1978)
- *Folder 9:* Experimental Studies on Flicker pigmentation (1936-1941)
- *Folder 10:* II, Completed Record Sheets of Juvenile Colaptes (data from 1874-1940)
- *Folder 11:* Completed Record Sheets, Adults, C. chrysocaulosus, C. mexicanoides, C. chrysoides, (data from 1859-1940)
- *Folder 12:* Current descriptions C. chrysocaulosus, C. chrysoides, C. mexicanoides (data from 1842-1934)
- *Folder 13:* Colaptes, cafer and auratus, classified notes on atypical coloration (data from 1880-1945)
- *Folder 14:* Flickers, Computation sheets for geog. distrib. (data from 1868-1947)
- *Folder 15:* Blank Colaptes record sheets, research article note (1991)
- *Folder 16:* F. H. Test, Eastern auratus III; auratus Typical Colaptes, record sheets (data from 1842-1946)

Box 3

- *Folder 1:* Specimen records and correspondence concerning C. luteus (Flicker) with pink feathers (1949, 1955-1956)
- *Folder 2:* Unused and crossed out Colaptes specimen record forms (data from 1866-1940)
- *Folder 3:* F. H. Test, Plumage Records of Juvenile Colaptes (data from 1842-1946)
- *Folder 4:* Flicker Carotenoid Physiol. (1937-1972)
- *Folder 5:* Flicker MS on Physiol. - 1st draft (1939-1966)
- *Folder 6:* F. H. Test, Dept. Zool., Univ. Mich. Current Plumage Descriptions C. cafer-auratus and cafer (data from 1853-1947)
- *Folder 7:* Colaptes cafer-auratus, Completed Record Sheets, Adults (data from 1844-1954)
- *Folder 8:* Genetics of Flickers (1935-1956)
- *Folder 9:* F. H. Test, Analysis of cafer-auratus plumage descriptions (circa 1930-1970)
- *Folder 10:* Notes and outline for paper on Specialized Feather Areas of Colaptes (malar, nuchal, rump); (1953-1970)
- *Folder 11:* Specimen examination records and data analysis of Colaptes (1939)
- *Folder 12:* Geographic Distribution of Coloration in Flickers (1883-1988)
- *Folder 13:* Colaptes plumage data and observations from 1864-1939 (1937-1939)
- *Folder 14:* Colaptes, Plumage data. Embryological, Physical (1936-1938)
- *Folder 15:* F. H. Test 5093 L. S. B., Colaptes, Life History and Habits, Natural diet (Rodents); (data from 1903-1939)

- *Folder 16:* Colaptes captivity notes and records (1937-1938)
- *Folder 17:* Manuscript on Colaptes for Publication (1940)
- *Folder 18:* Measurements of Colaptes, Systematic notes on coloration, data from 1864-1940 (1939-1940)

Box 4

- *Folder 1:* Day Planner/Catalog (1936-1940) / F. H. Test Field Journal from collecting expedition to Shasta; Klamath Co., OR; Pasco, Wash.; Walla Walla Co., Wash.; Missoula Co., Mont.; Rosebud Co., Mont.; Billings, Mont.; Topeka, Kansas; Garden Co., Neb.; Arapahoe Co., Col.; Powder River Co., Mont. (6 May 1940 - 26 June 1940)
- *Folder 2:* Scripps Oceanographic Institution, Frederick H. Test, Identification and study of pigments of Flickers., La Jolla, Calif., Aug. 2, 1938 / Carotenoids of Flickers Book 2 (cont. from book 1), Frederick H. Test (2 Aug 1938 - 8 Aug 1939)
- *Folder 3:* Slide descriptions, Colaptes specimen exhibit labels, Misc. notes and correspondence concerning Colaptes study (1930-1936)
- *Folder 4:* Observations, index card charts (1944-1958)
- *Folder 5:* Small box containing "Flicker rump" (F. H. T. 700) roll of photos; Colaptes Stomach Content Records (data from 1887-1930)
