COPYRIGHT AND RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. The various state privacy acts govern the use of materials that document private individuals, groups, and corporations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a reproduction if the document does not infringe the privacy rights of an individual, group, or corporation. These specified conditions of authorized use include:

- non-commercial and non-profit study, scholarship, or research, or teaching
- criticism, commentary, or news reporting
- as a NPS preservation or security copy
- as a research copy for deposit in another institution

If a user later uses a copy or reproduction for purposes in excess of "fair use," the user may be personally liable for copyright, privacy, or publicity infringement. This institution's permission to obtain a photographic, xerographic, digital, or other copy of a document doesn't indicate permission to publish, exhibit, perform, reproduce, sell, distribute, or prepare derivative works from this document without first obtaining permission from the copyright holder and from any private individual, group, or corporation shown or otherwise recorded.

Permission to publish, exhibit, perform, reproduce, prepare derivative works from, sell, or otherwise distribute the item must be obtained by the user separately in writing from the holder of the original copyright(or if the creator is dead from his/her heirs) as well as from any individual(s), groups, or corporations whose name, image, recorded words, or private information (e.g., employment information) may be reproduced in the source material. The holder of the original copyright isn't necessarily the National Park Service. The National Park Service is not legally liable for copyright, privacy, or publicity infringement when materials are wrongfully used after being provided to researchers for "fair use."

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright or federal or state privacy or publicity law.

HISTORY

The Yosemite National Park Concessions Management Office was created circa 1976, operating as the Concessions Management Division. Prior to this time, concession operations were handled by staff in the Superintendent's Office. The management of concessions included Special Park Uses until 1996, when the new Division of Business and Revenue Management was created. This division was established to oversee the now-separate branches of the fee program (moved out of the Protection Division), Special Park Uses, and Concessions Management. The NPS Yosemite Concessions Management Branch staff consists of the Chief (James Sleznick, 1973-1975; John Burchill, 1975-1980; Wayne Schultz, 1979-1992; Martin L. Nielson, 1992-present); Deputy Chief (Lena McDowall, 1992-present); Financial Analysts; Public Service and Environmental Health Specialists; Asset Managers; and Concession Specialists.

The Concessions Management Branch Office is accountable for ensuring that quality visitor services are available to the public through contracts issued to private businesses operating in the park. Operating under the authority of the Department of the Interior, concessioners' services and rates are specifically dictated by the National Park Service (NPS). Park staff is responsible for contract administration, working with the national and regional NPS offices to facilitate contract development as well as public law, finance, and planning objectives.

On behalf of the Superintendent, the Concessions Management Office enforces the terms of concessioners' contracts. The office conducts periodic operational performance evaluations and provides feedback to concession managers through annual overall ratings. They also review concessioner contract compliance with regard to asset management, insurance requirements, advertising, merchandising, fulfillment of applicable building and capital improvement programs, maintenance of structures and landscapes, payment of utility bills, submittal of required financial reports, and satisfactory payment of franchise fees.

The Concessions Management Branch also serves as the liaison between concessioners and other park branches, as they interact in a wide variety of park operational activities including park planning and environmental compliance. Furthermore, the Concessions Management Office interfaces directly with the Special Park Uses branch and individual park visitors interested in commercial services in the park, such as film permits, First Amendment opportunities, amphitheater use, and wedding permits.

Concessioner contracts are limited in number and scope. Contracts must leave resources unimpaired in addition to being deemed necessary to visitor experience by the NPS. Preserving a balance between services that provide for visitor enjoyment and the conservation of cultural and natural resources is the focus of concessions management policy in the NPS.

Few concessioners have operated in the park since 1925, when the NPS forced a merger of the Yosemite National Park Company and the Curry Camping Company in order to reduce competition and create a more prosperous company with the ability to improve facilities in the Yosemite Valley. The resulting entity, the Yosemite Park & Curry Company (YP & CC), thus became the major concessioner and was granted a twenty-year contract. This contract was

extended until 1963, when a thirty-year contract was signed between the NPS and YP & CC (CC-YOSE004-63).

YP & CC records comprise the bulk of the material in this collection. Negotiations between the park and YP & CC became strained in the 1980s due to the influence of large companies on NPS concessions policy and the ownership changes of YP & CC (Shasta Natural Resources in 1970, Music Corporation of America (MCA) in 1973, Matsushita Corporations of Japan in 1991). Consequently, in 1992 the Concessions Management Branch developed a *Concession Services Plan*, which was guided by the 1980 Yosemite National Park General Management Plan. The revised concession policies stressed financial obligations and environmental commitment. In light of these developments, YP & CC was sold to the National Park Foundation in 1991. The National Park Foundation owned all former YP & CC buildings until they were paid off by the NPS in 1993. Thus, today the NPS owns the buildings managed by concessioners. In general, the NPS owns the buildings and oversees capital improvements, while the concessioner is liable for the maintenance of the buildings.

The Delaware North Company (DNC)'s became Yosemite primary concessioner in 1993 via contract CC-YOSE-004-93, which incorporated the revised policies of 1992's *Concession Services Plan.*

Other existing contracts include Best's Studio, Inc./Ansel Adams Gallery (CC-YOSE001-09); El Portal Market (CC-YOSE003-08); High Sierra Petroleum/El Portal Service Station (CC-YOSE006-01).

Former contracts were held by the El Portal Motor Inn (CC-YOSE002, terminated in 1983) and by the Yosemite Medical Clinic (CC-YOSE005-95). The Clinic's contract was withdrawn in 2010; it is now operated by the National Park Service. In addition, dental services were provided first through a contract, and then through a Special Use Permit (SUP #8800-0-0890), until 1988.

SCOPE AND CONTENT

Concessions Management Records
1968-2008 (bulk dates: 1978-1992)

CATALOG NUMBER YOSE 229634

VOLUME 51.3 LF

DESCRIPTION The Concessions Management Records collection contains administrative files created and compiled by the Concessions Management Office of Yosemite National Park between 1968 and 2008. The Office's interactions with Yosemite concessioners, concession facilities, products, and services between 1978 and 1992 account for the bulk of the collection. Furthermore, a large portion of the records relate to the main concessioner, Yosemite Park & Curry Company (YP & CC). The records document contract administration and also pertain to concessioner relations with Yosemite National Park and the National Park Service (NPS).

The majority of the records are correspondence, concessioner case files, and records of buildings and transportation projects. The bulk of the correspondence is between the concessioner and the superintendent of Yosemite National Park concerning concession operations and contract negotiations. Also included are memorandum from the NPS Washington Support Office (WASO) and the Regional Office regarding concession policy guidelines and procedures. Prominent reports include *Concessions Management Guidelines*, 1970-1971; Delaware North Company (DNC) award and contract (YOSE004-93), 1993; and *Concession Services Plan* (CSP), 1991-1992. Other records include evaluations of facilities, financial reports, film permits, advertisement files, building plans, rate files and comments on the draft *Concession Services Plan*.

All series and subseries have accompanying scope and content descriptions, with material type, arrangement and date ranges included. Also, please note that the abbreviation for Yosemite Park & Curry Company, YP & CC, is used in all folder titles.

ORGANIZATION

The collection is organized into five series: Administrative Files, Individual Concession Contracts, Concessioner Records for Buildings and Other Facilities, Correspondence, and the *Concession Services Plan*. These series were divided into subseries according to original office filing system, record function, type of material, and topic. The majority of the records are arranged first according to the alphanumeric codes established in the NPS-19 Disposition Schedule, and then chronologically. Some records have additional interoffice codes for further clarification. The records in subject groupings were kept together regardless of codes in order to retain the original order and are arranged chronologically. This arrangement allows office files to remain with documentation received from concessioners and also provides for the eventual accretion of additional material.

Series I: Administrative Files is organized into five subseries according to record groupings established in the NPS-19 Disposition Schedule. Within each subseries, the files are arranged according to ascending codes, and then by chronological order. A small amount of material without a code was kept in sequence with the coded files and given a code in brackets to reflect the record function and original order. The majority of the records are contained in Subseries B: Concessions Records and Concessioners Case Files (C-files).

Series II: Individual Concession Contracts is organized into subseries according to specific concessioner contract files to reflect the order in which the files were created and maintained. Each subseries contains administrative records that correspond to various NPS alphanumeric codes. The subseries are arranged according to these codes, and then chronologically.

A large group of records in this collection correspond to code C58, Concessioner Records of Buildings and Other Facilities. A separate series, Series III: Concessioner Records of Buildings and other Facilities (C58), was designated for these records in order to retain the original grouping. The series is divided into four subseries; the first three are organized according to subjects and code numbers. The fourth subseries is further divided into sub-subseries to account for individual project files. The arrangement is chronological.

Records organized into subject groupings by the Concessions Management Office, such as correspondence files and documentation regarding the *Concession Services Plan*, were arranged into their own series (Series IV and V, respectively), with subseries organized by document type and arranged chronologically.

PROVENANCE

The collection was created by the Yosemite Concessions Management Office between 1968 and 2008 and contains their administrative files. The materials were deposited in the archives in multiple accessions from 1992 to 2010. Two small batches of records were accreted from 1992 to 1995, and two larger deposits were made in September 2003 and March 2010. Another small batch of material relating to the Ansel Adams Gallery was accreted in September 2011.

The initial deposits were sent first to the records center near the Research Library in 1988, where they were given an accession number. Eventually all records came to the archives. (In October 1993 the major concessionaire contract was awarded to DNC. This process generated lots of paperwork and sparked the need to transfer older documents to the archives. Hence, this collection mainly covers the period from 1978 to 1992, with smaller amounts of material from 1968-1978 and 1992-2008.)

The NPS Yosemite Concessions Management Records, Collection Number 1006, has been assigned museum catalog number YOSE 229634. At this time the associated accessions included in this collection are: YOSE-5637, YOSE-5642, YOSE-5646, YOSE-5728, YOSE-5787, YOSE-5870, YOSE-5876 (primary accession number), YOSE-5878, YOSE-5968, YOSE-6035, YOSE-6691, YOSE-6692, and YOSE-6693.

RESTRICTIONS

Although this collection is open to the public, some files contain sensitive information and may require a research permit and/or solicitor approval.

COLLECTION HIERARCHY

SERIES I: Administrative Files, 1952–1955, 1961–1995 (bulk dates: 1977-1992)

Subseries A: Administration Records (A-files), 1961, 1964, 1968, 1979, 1983-1991

Subseries B: Concessions Records and Concessioners Case Files (C-files), 1952-1955, 1963-1995

Subseries C: Development and Maintenance Records (D-files), 1986-1987

Subseries D: Supplies, Procurement and Property (S-files), 1978-1979

Subseries E: Laws and Legal Matters (W-files), 1981-1984

SERIES II: Individual Concession Contracts, 1938, 1952-2008 (bulk dates: 1969-1995)

Subseries A: Best's Studio, Inc.; dba The Ansel Adams Gallery, 1938, 1952-2008

Subseries B: El Portal Gas Station, 1976-1985

Subseries C: El Portal Market, 1960-1989

Subseries D: El Portal Motor Inn, 1959-1984

Subseries E: Visitor Transportation Services, 1972-1989

Subseries F: Woessner, Charles A., D.D.S. – Dentist, 1961–1985

Subseries G: Yosemite Medical Clinic, 1951–1996 (bulk dates: 1979-1995)

SERIES III: Concessioner Records for Buildings & other Facilities (C58), 1979-1994 (bulk dates: 1987-1992)

Subseries A: General Files – Construction and Maintenance: YP & CC, 1979-1993

Subseries B: Underground Storage Tanks (C5810), 1987-1994

Subseries C: Building Inspections and Evaluations (C5860), 1991-1993

Subseries D: Individual Projects, 1986-1993

Sub-subseries 1: Badger Pass Parking Lot, 1986-1990

Sub-subseries 2: Yosemite Valley Electrical Upgrade, 1988-1993

SERIES IV: Correspondence, 1979-1991

Subseries A: Chronological Files, 1981-1991

Subseries B: Regional Correspondence, 1979-1980

SERIES V: Concession Services Plan, 1989–1992

Subseries A: Office Records, 1989–1992

Subseries B: Public Review, 1991-1992

Sub-subseries 1: Scoping Responses, 1991 July-August

Sub-subseries 2: Public Meetings, 1992 January-May

Sub-subseries 3: Comment Letters, 1992 January- April

SERIES DESCRIPTIONS

SERIES I: ***Administrative Files, 1952–1955, 1961–1995 (bulk dates: 1977-1992)***

This series contains mainly administrative records created and compiled by the Concessions Management Office from 1961 to 1995, with the bulk of the records dating from 1977 to 1992. The records cover the general operation of all concessioners related to the park and show the involvement of the Concessions Management Office in overseeing these operations. These records were coded and appraised according to the NPS-19 Records Disposition Schedule and include Administration, Concession, Development and Maintenance, Supplies, and Legal files, with the majority of the material consisting of Concessioner Contract files.

Both the filing system of the Concessions Management Office and the files' relation to the alphanumeric codes established in the NPS-19 Records Disposition Schedule prompted the organization of these records into five subseries; Administration Records (A-files), Concessions Records (C-files), Development and Maintenance Records (D-files), Supplies, Procurement and Property (S-files), and Laws and Legal Matters (W-files). The subseries are arranged first by alphanumeric code and then chronologically. This arrangement allows for the eventual accretion of additional material.

Subseries A: ***Administration Records (A-files), 1961, 1964, 1968, 1979, 1983-1991***

The administrative records essentially cover the years 1983 to 1991. The majority of the records comprise complaints involving concessionaire services and personnel, as well as correspondence pertaining to visits of foreign distinguished persons and film permits. The complaints show the public's response to the role of the concessionaire in the park, including discussion of controversial services and reactions to the acquisition of YP & CC by a Japanese company in 1990. Also included are letters from Congress responding to various complaints; Freedom of Information Act (FOIA) requests regarding the YP & CC recycling program (initiated in 1976); and documentation concerning major motion pictures filmed in Yosemite. Other records include news articles, permits, insurance receipts, programs, and the *NPS Dedication and Special Events Handbook* of 1961, with revisions made in 1964 and 1968.

The subseries is arranged first by alphanumeric code and then chronologically.

Subseries B: ***Concessions Records and Concessioners Case Files (C-files), 1952-1955, 1963-1995***

This subseries consists of material concerning concessions management in Yosemite National Park from the 1960s to the early 1990s. The Concessions Management Office monitors concessioner actions and their records refer to accommodations, advertising, annual financial reports, audits, administration, personnel, merchandising, applications, rates for services, and operational performance. The bulk of the material addresses NPS

policies and the administration of all concessioners contracted by Yosemite National Park; however, the records in this subseries predominantly concern the main concessioner, Yosemite Park & Curry Company (YP & CC), CC-YOSE004. Most of the administrative records consist of correspondence between the NPS Western Regional office, the park superintendent, concessions management office, and the concessioners regarding contract compliance, performance regulations, and the administration of concessioner activities.

The concession administration files are coded C38, C3815, C3817, and C3823 and account for a large portion of the concessioner records. The majority of these office records, coded C3823, Concessioner Case Files, pertain to the management of concession contracts. The bulk of the material addresses the YP & CC contract from 1970 to 1992, though the records also include small concessioners that did not have separate, maintained files. This section of records contains an umbrella view of the involvement of park management in relation to concession operations in the park and encompasses YP & CC because they provide a wide range of visitor services and maintain a number of facilities.

The records coded C3823 consist of correspondence, reports, policy guidelines, NPS directives, contracts, and contract amendments. The majority of the correspondence is between YP & CC's Chief Operating Officer, Ed Hardy and the park superintendent regarding daily operations, NPS policies, and contract negotiations from 1974 to 1993. Special themes include hotel planning, rate schedules, preferential rights, Bank of America, conventions, Badger Pass Ski Area, bike rallies, transportation services, bus tours, souvenir regulations, and the recycling program. Prominent records contained in this subdivision are YP & CC Contracts, 1953, 1963-1975; DOI/YP & CC contract appeal, 1979; *Yosemite Institute Cooperative Agreement*, 1972; Wells Fargo Contract, 1970; Transportation Trip Lease, 1977; shuttle operation plan, 1982-1983; and Curry Village plans. The records also reflect public scrutiny and opposition to projected concession policies as well as the NPS's discontent with YP & CC's changes of ownership. Included is documentation regarding the award of the main concessioner contract to Delaware North Company (DNC) in 1993.

The concession records (C-files) also include convention calendars, advertisements, newsletters, training guidelines, employee handbooks, news releases, prospective files, sanitation and concession status reports, fiscal exams, meeting agendas, management recommendations, union reports, rate schedules, comparability studies, menus, performance evaluations, compliance reports, safety inspections, and annual overall rating reports. Topics covered include franchise fees, operating hours, appropriate advertising for concessions, Styrofoam ban, National Park Concessioner's Conference, NPS insurance requirements for concessioners against losses and liability, employees union activities, Affirmative Action plans, EEO issues, employee housing and policies, wages, safety programs, sale of Native American merchandise by concessionaires, alcohol sales, YP & CC holiday and special programs, approval of service rates, and the concessions review program.

Please note that Code C58 is not located in this series; it is arranged into a separate series, Series III: Concessioner Records for Buildings & Other Facilities.

Additionally, more precise documentation regarding the administration of other individual concession contracts can be found in Series II: Individual Concession Contracts.

The subseries is arranged first by alphanumeric code and then chronologically.

Subseries C: ***Development and Maintenance Records (D-files), 1986-1987***

This subseries contains materials coded D18 that document the planning activities regarding the development of the Yosemite Valley/El Portal Comprehensive Design of 1986 and the El Portal Maintenance Building/Warehouse complex of 1987. The materials include correspondence, meeting notes, and plans.

The subseries is arranged first by alphanumeric code and then chronologically.

Subseries D: ***Supplies, Procurement and Property (S-files), 1978-1979***

This subseries consists of one folder of correspondence and agreements (coded S7225) that relate to the procurement of professional service contracts including water supply, sewer treatment, and supplies. Also included is the maintenance manual for wastewater treatment and the utility rate appeal of YP & CC.

The subseries is arranged first by alphanumeric code and then chronologically.

Subseries E: ***Laws and Legal Matters (W-files), 1981-1984***

This subseries contains one folder of correspondence coded W3815 regarding proposed legislation pertaining to concessions operations and user fees from 1981 to 1984. Please note that records coded W3815 are also to be filed under H1415, Legislative History.

The subseries is arranged first by alphanumeric code and then chronologically.

SERIES II: ***Individual Concession Contracts, 1938, 1952-2008 (bulk dates: 1969-1995)***

This series is divided into seven subseries that pertain to individual concessionaires other than the Yosemite Park & Curry Company (YP & CC). These individual contract files were kept as separate record groups to maintain the original filing system of the Concessions Management Office. The files consist of a range of concession record codes (C2621-C6221), with the majority coded C3823: Concessioner Case Files and C58: Concessioner Records of Buildings and Other Facilities. The subseries are arranged first by NPS alphanumeric codes and then chronologically.

The individual concession contracts in this series have operated in Yosemite between 1952 and 2008, with the bulk of materials dating from 1969-1985. Existing contracts include Best's Studio, Inc. /Ansel Adams Gallery (CC-YOSE001-09); El Portal Market (CC-YOSE003-08); High Sierra Petroleum/ El Portal Service Station (CC-YOSE006-01). A contract held for the Yosemite Medical Clinic (CC-YOSE005-95) was withdrawn in 2010; the clinic is now operated by the National Park Service. Other expired contracts are El Portal Motor Inn (CC-YOSE002) and C. A. Woessner, D.D.S, who held a special contract starting in 1969; Woessner's contract became a Special Use Permit (SUP# 8800-0-0890), effective through 1984.

The main concessioner contract, CC-YOSE004, was held by YP & CC from 1925 to 1993, when a new contract was awarded to the Delaware North Company (DNC). Although these records are not included in this series, the records for the Visitor Transportation Services, which was operated as a separate entity under YP & CC, were filed separately with the individual contracts and appear in this series' records.

This series contains administrative records regarding the management of the individual concession contracts held by Yosemite National Park. The Concessions Management Office monitors concessioner actions and contract compliance. Their records pertain to asset management, insurance requirements, operation and safety evaluations, advertising, retail regulations, operating hours, fulfillment of any applicable building and capital improvement programs, maintenance of structures and landscapes, payment of utility payments, submittal of required financial reports, and satisfactory payment of franchise fees.

The concessioner case files (C3823) include land and structure assignments, concession contracts and contract amendments, correspondence, and related documentation. The bulk of the correspondence is between the park superintendent, chief of concessions management, and concession managers regarding the park's policies for administrating contracts and for advising the park of concessioner activities. Other records include brochures, articles, financial reports, operation evaluations and ratings, safety plans, maintenance reports, building plans, and photographs.

Please note that this series does not contain the general records coded C3823: Concessioner Case Files, which are located in Series I: Subseries B or those coded C58: Concessioner Records of Buildings & other Facilities, which are located in Series III. These records primarily concern the main concessioner, YP & CC.

Subseries A: ***Best's Studio, Inc.; dba The Ansel Adams Gallery, 1938, 1952-2008***

The records in this subseries pertain to the management and operations of Best's Studio, Inc./The Ansel Adams Gallery. Best's Studio was founded in 1902 by Harry Best, a landscape painter who built the initial studio building in 1926. Ansel Adams married Harry's daughter, Virginia, and the Adams-Best family has owned and operated the gallery for four generations, making it the oldest family-owned business in the NPS. Considered one of the finest concession enterprises in the NPS, the gallery operates under a concession contract first issued by the NPS in 1916. The current contract (CC-

YOSE001-09) was signed in 1993 and extended in 2003. Best's Studio changed its name to Ansel Adams Gallery in 1973 and began to sell a unique collection of books, handicrafts, and art representing Yosemite and regional themes. The gallery also displays original photographs by Ansel Adams and offers many photography workshops. In addition to a thorough account of concession administration, the records illustrate the relationship of a long-term concessioner with park management.

The concessions management office monitors contract adherence and implements NPS policies and plans. The records consist mainly of correspondence and supporting documentation regarding contract negotiations, proposals and extensions, building information and historic status, merchandising and retail regulations, workshops, finances, and inspections. The majority of the correspondence is between the park superintendent, the Concessions Management Office, and the President/General Manager of Ansel Adams Gallery (Jeanne Adams, 1972-1990s; Matthew Adams, 1990s-present). The records comprise various C-files (C2621-C6221). The records coded C58 discuss maintenance and capital improvements to the buildings included in the contract. The gallery building underwent major renovations in 1969 and was added to the National Register of Historic Places in 1995.

The materials also include brochures, articles, advertisements, newsletters, financial reports, operation evaluations, safety plans, insurance records, building plans, and photographs. Prominent records include contracts and contract amendments, 1952-1993; Ansel Adam's "Statement on Type of Curio Appropriate to the National Parks," 1938; *Best's Studio Historic Structures Report,* 1985; and the Ansel Adams Gallery Historical Preservation Certification, 1995.

The subseries is arranged first by alphanumeric code and then chronologically.

Subseries B: *El Portal Gas Station, 1976-1985*

This subseries contains specific documentation regarding the concession contract for the El Portal Service Station, which provides car repair and gas services. The records include correspondence, performance evaluations, proposed prospectus of 1977, and the concessions permit (No. 8800-6-759) of 1985. The correspondence covers the termination of the contract in 1976 and the awarding of the contract to the Bevingtons as the El Portal Chevron concessioners through 1989.

The subseries is arranged first by alphanumeric code and then chronologically.

Subseries C: *El Portal Market, 1960-1989*

This subseries consists of records that document the administration of a contract with Vaugh, Vaugh, and Carter (No. 9900020114) for the El Portal Market, beginning in 1969 and extended through 1986. A new contract for Vaugh, Vaugh, and Carter's administration of the Market (CC-YOSE-003-88) ran from 1988 through 2006. Copies of these contracts and contract amendments are contained in this subseries. The other

records mainly comprise correspondence regarding contract extensions and renewal, the site of the new market building, a special use permit for the vending of fruits and vegetables, rate schedules, franchise fees, recycling, and overall contract compliance.

The subseries is arranged first by alphanumeric code and then chronologically.

Subseries D: ***El Portal Motor Inn, 1959-1984***

The records in this subseries relate to the administration of the El Portal Motor Inn concession contract (No. 14-10-9-900-211/9900C20080), which was terminated in June 1983. Operating between the 1960s and the early 1980s, the Motor Inn was located in the same area as the El Portal Inn and the former location of the Yosemite Valley Railroad Station terminal in El Portal (1907-1945). The records include contracts and contract amendments, correspondence, evaluations, and reports that cover the period when the contract was renewed in 1967 and 1978, as well as its extension through 1983. Other records include the prospectus of 1966 and capital improvement plans. Also discussed is the Yosemite Junction Railroad Restaurant including menus from 1971 to 1983.

The records in this subseries include a range of codes from C2621 to C50 and are arranged chronologically within each code.

Subseries E: ***Visitor Transportation Services, 1972-1989***

This subseries contains documentation regarding the Visitor Transportation Services that have been provided in Yosemite National Park from 1972 to 1989. Visitor Transportation Services include shuttle buses and tram tours throughout the park, which are operated by the main concessioner of the park. For the duration of these records the Visitor Transportation Services system was managed by the Yosemite Park & Curry Company (YP & CC).

The shuttle bus system was developed in the 1960s to alleviate vehicular congestion and decrease the pollution in Yosemite Valley created by a steady increase in visitation. YP & CC started the first shuttle buses in Yosemite Valley in 1967 and in the Mariposa Grove in 1969. The funding of the shuttle service is complicated; in 1971, the NPS entered into an agreement with YP & CC to provide free transportation service in the park that was funded by congressional appropriations. However, congressional support ended in 1983 and the operation was turned over to YP & CC. Since then, the free visitor transportation service has been funded through add-ons to the hospitality services offered by the main concessioner in the park (YP & CC, 1983-1993, and Delaware North Company (DNC), 1993 to present). With this arrangement the NPS owns and is responsible for the vehicles that are operated and maintained by YP & CC/DNC. In 1989, shuttle buses carried up to 25,000 visitors a day and ridership approached 3,000,000. A free transportation service in congested parks like Yosemite is considered vital to the protection of park resources and visitor safety and enjoyment.

This subseries consists of records regarding the establishment and running of the visitor transportation service provided by the YP & CC concession. The records include correspondence, contracts, complaints and compliments, tour scripts, briefing statements, warranty claims, inventories, fiscal reports, rate schedules, accident reports, vehicle inspections, operating plans, and brochures. The bulk of the material is correspondence between Yosemite National Park (Superintendent and Concessions Management Office), NPS Washington Support Office (WASO), and YP & CC.

Major discussions include initial proposals with projected costs and revenues; shuttle bus position and funding; leasing of vehicles to concessioner; transportation policies; NPS equipment contract with Gillig Corporation (No. CX8000-1-0024), 1982; shuttle sign placement and design, 1986-1989; site plans with drawings for shuttle stops in Yosemite Valley, 1982; and the YP & CC audit report, 1983. The records also cover the establishment and transfer of the Transportation Services contract from NPS operations (ARA Transportation, Inc.) to YP & CC; included in this discussion is information about the court case of YP & CC vs. NPS/DOI regarding this contract and the eventual NPS contract with ARA Transportation, Inc., 1982-1983 (No. CX8000-2-0021/No. NPS-WASO-IX-63-2).

Additional topics comprise financing and NPS funding, personnel and quality of service, annual inspection of fleet, parking lots, maintenance and repairs, emergency protocols, transportation equipment, handicapped accessibility, vehicle safety, area of service, operating costs and procurement of vehicles. Other materials include bus and tram photographs, recordings of the Mariposa Grove tram tour from 1983, and a collection of shuttle bus keys.

Additional records such as the Shuttle Bus Operating Statement, 1968 and the Shuttle Operation Plan of 1982-1983 can be found in in Series I: Subseries B: Concessions Records. The Analysis of Fees for Visitor Transportation Systems, 1978 can be found in Series I: Subseries E - Law and Legal Files.

This record grouping contains a range of coded concession records (C14-C58, S7225) that were filed as the “Shuttle Bus Files,” separately from the general records of the YP & CC concessioner. This subseries was created to maintain this filing system and is arranged chronologically within each code.

Subseries F: *Woessner, Charles A., D.D.S. – Dentist, 1961–1985*

This subseries comprises three folders of concession records (C3823) concerning the contract and special use permit with Dr. Charles A. Woessner, who provided dental services in Yosemite Valley. The dentist contract was awarded to Dr. Charles A. Woessner in 1962 (Contract No. 14-10-0444; 14-10-9-900-89; 8800-6-762) and then extended through 1974. The Special Use Permit (SUP #8800-0-0890) was authorized between 1974 and 1985, when the records in this grouping end. The practice was transferred in 1988 to Dale Soria, D.D.S when Dr. Woessner retired. The records consist of correspondence, contracts and amendments, special use permits, bills, and

performance evaluations. They refer to contract extensions, annual fees to NPS, performance reviews, and housing.

The subseries is arranged first by alphanumeric code and then chronologically.

Subseries G: *Yosemite Medical Clinic, 1951–1996 (bulk dates: 1979-1995)*

This subseries comprises records pertaining to the management and operations of the Yosemite Medical Clinic, the park concessioner that provides medical services to the public and NPS staff in the Yosemite Valley at the Lewis Memorial Hospital. The files contain a variety of concession records with codes ranging from C2621 to C6221 with the bulk coded C3823.

The records are mainly correspondence and supporting documentation regarding contract negotiations, proposals and extensions, franchise fees, audits, operating costs, performance review, employee housing, building information and maintenance, hiring practices, patient rates, emergency costs, public and employee liability, and insurance. Other records include Federal Register articles, building reports, annual financial reports, special use permits, Statement of Requirements (Fact Sheets), contract compliance reports, rate comparisons, and performance evaluations. Special documents include the *Master Plan of Programs and Facilities* (Steinle Report), 1971; Contract Prospectus, 1972; Medicare Decertification, 1974; Clinic Inspection, 1984; and the *Assessment and Recommendation for Health Services Operations at Yosemite National Park*, 1992.

The contract for providing medical services in Yosemite National Park (CC-YOSE-005) was originally awarded to Dr. Avery E. Sturm in 1957 (Contract 14-10-0100-98). In 1972, the contract was awarded to the Yosemite Medical Group (Contract CX8800-0-0002, 8073-5-0002). The contract was taken over by Samaritan Health Services in 1984 and held by the group until 1994. Copies of these contracts and contract amendments are contained in this subseries. The contract was awarded to Tenet Healthcare in 1995 (Contract No. YOSE-005-95), expiring on December 2010. As of 2011, the clinic is operated by the National Park Service.

Further material regarding the buildings of the Yosemite Medical Clinic (hospital, nurse's dorm, doctor residences, and isolation ward) can be found in Series III: C58 Concessioner Records for Buildings & other facilities.

The subseries is arranged first by ascending alphanumeric codes and then chronologically.

SERIES III: *Concessioner Records for Buildings & other Facilities (C58), 1979-1994 (bulk dates: 1987-1992)*

This series contains documentation regarding construction and development projects from 1979-1994, with the bulk of the material dating from 1987-1992 and pertaining to buildings

and facilities operated by Yosemite Park & Curry Company (YP & CC). The records cover general maintenance and capital improvement projects as well as individual projects on structures managed by concessioners in Yosemite National Park.

The series is organized into four subseries: General Records: YP & CC—Construction and Maintenance (C58), Underground Storage Tanks (C5810), Building Inspections and Evaluations (C5860), and Individual Projects. The subseries were established according to specific office codes or individual project files. The coded records have an alphanumeric code established in the NPS-19 Disposition Schedule and a more descriptive code used by the Concessions Management Office that was added in brackets. The chronological arrangement of the codes within the subseries allows for the accretion of additional materials.

Subseries A: ***General Files – Construction and Maintenance: YP & CC, 1979-1993***

This subseries contains documentation regarding small and large construction and development projects of YP & CC from 1979 to 1993. Before 1993, the NPS was responsible for making needed capital improvements with area funds, or granting concessioners possessory interest for the improvement. Since 1993, all physical structures occupied by concessioners are owned by the NPS. Therefore, park staff oversees the concessioner's maintenance of its assigned structures and grounds. Moreover, 1993 brought a new major concession contract that incorporated the *Concession Services Plan* of 1992 (see Series V). This plan funneled 5 percent of the concessioner's gross receipts into a Capital Improvement Fund. Under NPS direction, this fund would be used to accomplish major rehabilitation and capital improvements to the structures currently occupied by concessioners. Furthermore, the plan specified that any improvements and operational maintenance undertaken by a concessioner must be in accordance with the park's planning documents.

The materials consist mainly of correspondence accompanied by reports and designs/architectural plans. Chiefly between the Yosemite Superintendent (John M. Morehead or Michael V. Finley); the President of YP & CC, Edward C. Hardy; and the Concession Management Specialist, Annette Catamec, the correspondence notes whether the proposed projects were approved or rejected. Reports include *Request for a Categorical Exclusion, Project Clearance Form, Assessment of Actions Having an Effect on Cultural Resources*, and *Preliminary Information on YP & CC Project*. Other materials include environmental assessments, project manuals, meeting minutes, and photographs.

A copy of the *Concessions Facilities Handbook for Planning, Design, and Construction* prepared by the Denver Service Center (DSC) in 1986 and some correspondence is located in this series. The DSC is the central planning, design, and construction management project office for the NPS. The Technical Information Center (TIC) of the DSC serves as the central repository for design and construction documents and related technical reports. The TIC database includes all concessioner drawings, sometimes also available in ETIC, the electronic document management system for these documents and drawings. When a drawing or plan has an ETIC account number it is noted on the

separation sheet for the item. Architectural plans were separated from the other materials due to large size and fragility of paper.

Topics addressed in this subseries include building modifications, historic preservation issues, employee housing, kitchen upgrades, restrooms, High Sierra camps, project costs, book values, signs, removal of facilities, environmental impact, inspections and building codes, safety upgrades, improved landscaping (walkways, walls, tree removal, patios, etc.), utilities, the maintenance and upgrade of utility systems, and roofing repairs. Specific subjects discussed include the conversion of Ahwahnee's Diggins Bar into guest rooms (1987), Wawona Hotel electrical repairs and maintenance (1991), and proposed ROMA Design Group's Comprehensive Design Projects; YP & CC Employee Housing, 1984; Curry Village, 1986; Yosemite Valley Campground Rehabilitation, 1986; and Yosemite Valley and El Portal Design, 1986-1987.

Prominent architectural plans include Curry Village shower-house, 1979; Yosemite Valley laundry proposal, 1980; Village Store patio layout, 1986; Curry Village Ice Making Equipment, 1986; Merced Lake kitchen and restroom, 1981-1985; Housekeeping Camp redesign, 1985; Tecoya Dormitory remodel, 1986; Yosemite Lodge cabin replacement, 1988; Curry Village hamburger stand and deck, 1989-1990; Curry Village walkway system, 1992; and the Ahwahnee Hotel's chiller building, 1990, and entrance canopy, 1992.

Please note that projects related to underground storage tanks, the Yosemite Valley electrical upgrade, Badger Pass parking lot, and building inspections and evaluations can be found in the other subseries of Series III.

Records in this subseries are coded C58 according to the NPS-19 Disposition Schedule and C5870 according to the Concessions Management Office. Some folders comprise records grouped according to facility and project, while others contain various projects addressed over a fiscal year. The files are arranged chronologically.

Subseries B: ***Underground Storage Tanks (C5810), 1987-1994***

The construction records in this subseries are coded C5810 and pertain specifically to underground storage tanks. The materials detail the removal, restoration, and implementation of underground storage tanks. The most prominent projects are the Badger Pass Ski Area proposed oil storage building, the Crane Flat Service Station, the Yosemite Lodge Service Station, and the removal and replacement of fuel tank at Mariposa Big Trees.

These projects contain detailed architectural plans and designs, usually included in the following forms: Tank Project Check List, which provides location, number and size of tanks, scope of work, and contact information; Request for a Categorical Exclusion to the National Environmental Policy Act, which provides a detailed list of problems, purpose of project, and methods of construction; and the Project Clearance Form, which provides a brief statement of work propose, funding source, start and completion dates, location,

and project name. Both the Yosemite Park & Curry Company and Yosemite National Park contributed to the completion of the Tank Project Check List.

Also of note is the Environmental Protection Agency's *Special Review of Leaking Underground Storage Tanks in Yosemite National Park* (1993), which details the lapses of Yosemite National Park and of the Yosemite Park & Curry Company in cleaning of hazardous sites. This subseries also contains photographs and correspondence.

The subseries is arranged chronologically.

Subseries C: *Building Inspections and Evaluations (C5860), 1991-1993*

The records in this subseries, coded C5860, relate specifically to the inspections and evaluations in the building records. The majority of this subseries is the *Concession Building Evaluations Draft Report* prepared by ACE Pacific Co., Engineers and Architectural Resources Group, Architects (January 1992). This report provides an overview of capital expenditures and major maintenance costs for existing concession buildings. Also included is correspondence relating to the report.

The subseries is arranged chronologically.

Subseries D: *Individual Projects, 1986-1993*

The projects in this subseries generated so much documentation that their files were kept separately by the Concessions Management Office. This organization was retained in the creation of two sub-subseries for the individual projects: Badger Pass Parking Lot and Yosemite Valley Electrical Upgrade. The subseries is arranged chronologically by project and is expected to grow with new accretions of project files.

The records provide an overview of the management of two larger construction projects conducted by concessioners in Yosemite National Park between 1986 and 1993—the Badger Pass Parking Lot and the Yosemite Valley electrical upgrades.

Sub-subseries 1: *Badger Pass Parking Lot, 1986-1990*

The records in this sub-subseries are coded C58 and relate to the parking lot project at Yosemite's Badger Pass Ski Area. These files explain the reasoning that prompted the addition of a bus turnaround and a parking lot in order to increase efficiency at Badger Pass. Most of the correspondence relates to the environmental assessment required for the parking lot and potential funding options. The Thompson Architectural Group was in charge of the parking lot addition. The materials consist of correspondence, newspaper clippings, photographs, maps, and oversized architectural plans.

Sub-subseries 2: *Yosemite Valley Electrical Upgrade, 1988-1993*

This sub-subseries contains documents coded C58 regarding the major electrical upgrade within Yosemite Valley between 1988 and 1993. The records address electrical issues in the park ranging from power lines to residential areas, from campgrounds to transformers. The materials mainly consist of the 1988 *Yosemite Valley Rehabilitate Electrical System—Phase 3—Volume I and II*, which provided information about electric projects to potential contractors. Correspondence, photographs, and oversized architectural plans can also be found in this sub-subseries.

SERIES IV: ***Office Correspondence, 1979-1991***

The Office Correspondence Series comprises two separate files of correspondence maintained by the Concessions Management Office: the chronological file and the regional correspondence file. These two subseries are arranged chronologically and *not* by the numeric codes that are given to each letter according to the NPS-19 Records Disposition Schedule.

The chronological file contains letters composed by the Concessions Management Office, as well as by the Superintendent's Office, on a number of topics from 1981 to 1991. The regional correspondence file consists of correspondence with the NPS Western Regional Office from 1979 to 1980. The bulk of the correspondence pertains to records of buildings, employee conduct, and concession policies.

Please note that copies of this correspondence, with replies, may be found in other administrative files in this collection, which are filed according to NPS alphanumeric codes.

Subseries A: ***Chronological Files, 1981-1991***

The chronological files consist of pink carbon copies of original correspondence from the President and Chief Operating Officer of Yosemite Park & Curry Company, Edward Hardy, and the Superintendent of Yosemite National Park at the time, Robert Binnewies. Topics covered include contract and permit renewals, details of buildings and other facilities, complaint files, transportation systems within the park, and approved rate changes for food services.

From 1981-1983, correspondence details interactions between the concession and businesses about price changes. Between1985 and 1987, information about the new contract for Best's Studio Inc., construction plans related to the General Management Plan for El Portal, filming permits, and records of international and other distinguished visitors can be found. Materials occurring between1988 and 1991 provide more information about Best's Studio Inc.'s contract, commercial use licenses, and the annual concessioner's review. Prominent businesses mentioned are: Ahwahnee Hotel, Wawona Hotel, El Portal Service Station, Yosemite Lodge, Yosemite Tram Tour, El Portal Inn Contract, and the renegotiation of Yosemite Park & Curry Company Contract.

All folders are organized chronologically. However, beginning in 1985, files were organized within subject topic and then chronologically, with subjects including general office, transportation systems, visiting dignitaries/film permits/publications, and complaints concerning concessions. Please note that these folder titles are not consistent throughout the years. Also of note: there are no files for 1984.

Subseries B: ***Regional Correspondence, 1979-1980***

The regional correspondence file comprises correspondence between the Western Regional Director and National Park Service director to the Superintendent of Yosemite and the Chief of Concessions Management. The bulk of the correspondence pertains to safety regulations and surveys/reports of concession facilities, in particular fire protection systems. Most correspondence was generated in regard to a court case involving an accident at a concession facility. Other correspondence addresses the revision of the Visitor Facilities and Services Booklet, historic architecture reports, and concession policies.

Important reports include: *Annual Fire/Safety/Maintenance Inspection of Concessioner Operated Facilities* (Ahwahnee Hotel and El Portal Market), *Wawona Hotel Structural Report, Ahwahnee Fire Protection Survey and Report of Fire Code Requirements, Fire Service Water Flow and Storage Requirements for Yosemite Valley/Wawona/El Portal, Development/Study Package Proposal, Historic Structures Report for Thomas Hill Studio, Emergency Survey of Concession Facilities and Related Utility Systems,* and Tour Group Block Reservations controlled by Yosemite Park & Curry Company.

These folders are organized chronologically and consist of files coded according to the NPS-19 Records Disposition Schedule primarily from Administration Records (A-files) and Concessions Records (C-files).

SERIES V: ***Concession Services Plan, 1989–1992***

This series contains records regarding the creation of a NPS concessions management plan and the process of public participation in the development of this plan. This series addresses the *Concession Services Plan (CSP)/Supplemental Environmental Impact Statement (EIS)* that was drafted in December 1991 in order to review and determine action items necessary to carry out the concession operation objectives of the Yosemite National Park General Management Plan (GMP) of 1980.

In the late 1980s, a reexamination of the 1980 GMP, along with a needed revision of NPS concession management policies, focused public scrutiny upon the NPS's contract with YP & CC. Thereafter, when drafting new concessions guidelines, the public was asked to address prominent issues and suggest alternatives that would maintain the integrity of the GMP and, ultimately, our cultural and natural resources. The park initiated a public scoping process to establish the range of issues to be addressed in the plan, in accordance with the National

Environmental Policy Act (NEPA). The planning committee used the input from the scoping process to create a final draft of the *CSP/Supplemental EIS* in December 1991.

The draft set forth the operating conditions of the next concession contract. The expiration of the thirty-year YP & CC contract in 1993 presented a rare opportunity to implement or amend the 1980 GMP, which encourages critical management and concession reforms. Again the NPS, along with interested organizations encouraged public input through comment letters and public meetings. In general, the public expressed serious concerns over the direction of the *CSP/Supplemental EIS* and criticized the NPS for not implementing the 1980 GMP, which had already addressed these issues. Most believed that the overcrowding and excessive commercialization of the Yosemite Valley was resulting in damage to the natural resources, interfering with a natural and inspirational visitor experience.

All of these concerns and suggestions contributed to the final *Concession Services Plan & Environmental Impact Statement*, released in August 1992. The final plan called for a larger reduction in lodging, the conversion of all food service facilities to strictly food service, the reduction of commercial outlets, the removal of the golf and tennis courts, and increased shuttle bus systems.

The administrative records in this series show the planning process behind the creation of the *CSP*, including both the involvement of the Concessions Management Office and the public. Other records include drafts of the *CSP*, NPS and public correspondence, scoping letters, recordings of public meetings, and comment letters. The bulk of the material is comprised of public comment records.

The series is organized into two subseries: Office Records and Public Review. These subseries, in turn, are arranged either chronologically or according to the original order in which they were received.

Subseries A: *Office Records, 1989–1992*

This subseries contains the office records related to creating a new concessions plan and obtaining public review. The initial and final drafts of the *Concession Services Plan (CSP)*, in addition to the final *Concession Services Plan & Environmental Impact Statement (EIS)* of August 1992, are located in this series. The bulk of the records comprise correspondence between the NPS park divisions, specifically between the Superintendent Michael Finley and the Concessions Management Specialist, Annette Catamec, and their responses to significant public letters. Other records include NPS regional memorandum, reports, mailing lists, and newspaper articles.

The first *Concession Services Plan* proposed an increase of lodging at the Wawona Hotel and a transition in luxury of lodging accommodations. To comply with the *General Management Plan* of 1980, it also proposed closing Degnan's Deli, several gift shops, golf/tennis courts, and constructing a grocery store in place of the existing ice skating rink. Public comments demonstrated overwhelming discontent with the *CSP* and encouraged park officials to ensure that the plan existed harmoniously with the *GMP* of

1980 (see sub-subseries C description). The second and final *CSP* called for a larger reduction in lodging (20.5 percent), the maintenance and conversion of all food service facilities to strictly food service (no gift shops), the reduction/combination of commercial outlets, the removal of the golf and tennis courts, and increased shuttle bus systems. The final plan also includes a substantial number of complaint letters that were received by park officials regarding the original proposal, most of which have corresponding response notes. Lastly, the final draft includes a full environmental impact statement, which details the environmental repercussions that would result from implementing the plan, including ecological, cultural resource, and economic impacts.

The records are arranged chronologically and according to NPS alphanumeric code system within this arrangement when possible. Many of the records do not contain alphanumeric codes but generally fall under codes D18—Planning Program or C38—Concessions Administration.

Subseries B: *Public Review, 1991-1992*

This subseries consists of public records from the review of the draft CSP. The materials illustrate public participation in the development of park plans.

The subseries is divided into three sub-subseries: Scoping Responses, Public Meetings and Comment Letters. The records are arranged according to the original order in which they were received, either chronologically or alphabetically by organization or individual.

Sub-subseries 1: *Scoping Responses, 1991 July-August*

The NPS initiated a public scoping process for the new draft of the *CSP* in order to establish the range of issues to be addressed in the accompanying *Environmental Impact Statement (EIS)*. The primary goal of scoping is to seek the public's help in identifying the scope of a given planning effort. During the scoping period, the public is asked to provide concerns, comments, and suggestions relating to these goals, thereby contributing to the issues covered in the plan's alternatives (a number of additional, established plans also offered up for public comment). The scoping period extended from July to August 1991 and comments were submitted in writing, producing five folders of material. The contributions address budgetary concerns, traffic in the park, the need for fewer lodging possibilities, the removal of unnecessary store outlets, and the overall commercialization of the park. Most often, the letters encourage the main concessioner, Yosemite Park & Curry Company, to abide by the 1980 *General Management Plan*, especially in regard to environmental and ecological concerns. These issues became the impact topics addressed in the *Concession Services Plan (CSP)/Supplemental Environmental Impact Statement (EIS)*, drafted in December 1991. Many of the scoping letters also mention the necessity of holding public hearings and comment sessions.

This sub-subseries is arranged chronologically.

Sub-subseries 2: ***Public Meetings, 1992 January-May***

This sub-subseries contains recordings of the four public meetings that were held during the comment period on the draft *Concession Services Plan/Supplemental EIS* of December 1991. At the public meetings, oral comments were limited to three minutes. These comments were to be "substantive in nature" and to "bring to the attention of the National park Service potential unintended consequences, errors of fact, omissions, and opposing or concurring views…All comments (were to) present a rational basis or argument to support the position taken." The meetings were held in Los Angeles, Fresno, San Francisco, and Yosemite National Park from January to May of 1992. The series contains original and duplicate copies on cassette tapes, separated and housed in a special box at the end of the collection.

The tapes are arranged according to date and location.

Sub-subseries 3: ***Comment Letters, 1992 January- April***

This sub-subseries consists of hand-written letters, photocopied letters, and photocopied taped ("anonymous") letters regarding the draft *Concession Services Plan/Supplemental EIS* of December 1991. The NPS, along with organizations such as the Sierra Club Yosemite Task Force, Yosemite Restoration Fund, and Natural Resources Defense Council, urged the public to submit comments in writing, making the plan available through March 1992. The vast majority of the comments received are from the general public and are titled "individual," though some organizations also have folders of comments. Nearly all comments encourage the park to implement the *General Management Plan* of 1980, reducing the commercialization and development of the park. Most comments mention traffic patterns and the need for vehicle limitation in the park. In addition, significant amounts of letters speak out against the removal of the Curry Village ice skating rink. These comments were considered and influenced the final plan released in August 1992.

The records are arranged first alphabetically, and then the non-alphabetic photocopies and anonymous taped photocopies are arranged chronologically.

CONTAINER LIST

SERIES I: Administrative Files, 1952–1955, 1961–1995 (bulk dates: 1977-1992)
